Hawkins, Kimberly Kempf-Leonard, 2010-02-15 In *Our Children Their Children* a prominent team of researchers argues that a second rate and increasingly punitive juvenile justice system is allowed to persist because most people believe it is designed for children in other ethnic and socioeconomic

groups While public opinion laws and social policies that convey distinctions between our children and their children may seem to conflict with the American ideal of blind justice they are hardly at odds with patterns of group differentiation and inequality that have characterized much of American history Our Children Their Children provides a state of the science examination of racial and ethnic disparities in the American juvenile justice system Here contributors document the precise magnitude of these disparities seek to determine their causes and propose potential solutions In addition to race and ethnicity contributors also look at the effects on juvenile justice of suburban sprawl the impact of family and neighborhood bias in postarrest decisions and mental health issues Assessing the implications of these differences for public policy initiatives and legal reforms this volume is the first critical summary of what is known and unknown in this important area of social research

***Capital and Convict*** Henry Kamerling, 2017-11-28 Both in the popular imagination and in academic discourse North and South are presented as fundamentally divergent penal systems in the aftermath of the Civil War a difference mapped onto larger perceived cultural disparities between the two regions The South's post Civil War embrace of chain gangs and convict leasing occupies such a prominent position in the nation's imagination that it has come to represent one of the region's hallmark differences from the North The regions are different the argument goes because they punish differently Capital and Convict challenges this assumption by offering a comparative study of Illinois's and South Carolina's formal state penal systems in the fifty years after the Civil War Henry Kamerling argues that although punishment was racially inflected both during Reconstruction and after shared nonracial factors defined both states' penal systems throughout this period The similarities in the lived experiences of inmates in both states suggest that the popular focus on the racial characteristics of southern punishment has shielded us from an examination of important underlying factors that prove just as central if not more so in shaping the realities of crime and punishment throughout the United States

***The Roots of Justice*** Lawrence M. Friedman, Robert V. Percival, 2017-10-10 Focusing on a single county at a time when the population grew from 24 000 to 246 000 the authors combine statistical analysis of documentary sources contemporary newspaper accounts and exploration in criminal case files to give a detailed reconstruction of the operations of the county's entire criminal justice system By tracing the process from arrest to trial sentencing and punishment this study will have a profound effect on our perception of American criminal justice Originally published in 1981 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make

**Community Criminology** Ralph B. Taylor, 2015-01-09 For close to a century the field of community criminology has examined the causes and consequences of community crime and delinquency rates Nevertheless there is still a lot we do not know about the dynamics behind these connections In this book Ralph Taylor argues that obstacles to deepening our understanding of community crime links arise in part because most scholars have overlooked four fundamental concerns how conceptual frames depend on the geographic units and or temporal units used how to establish the meaning of theoretically central ecological empirical indicators and how to think about the causes and consequences of non random selection dynamics The volume organizes these four conceptual challenges using a common meta analytic framework The framework pinpoints critical features of and gaps in current theories about communities and crime connects these concerns to current debates in both criminology and the philosophy of social science and sketches the types of theory testing needed in the future if we are to grow our understanding of the causes and consequences of community crime rates Taylor explains that a common meta theoretical frame provides a grammar for thinking critically about current theories and simultaneously allows presenting these four topics and their connections in a unified manner The volume provides an orientation to current and past scholarship in this area by describing three distinct but related community crime sequences involving delinquents adult offenders and victims These sequences highlight community justice dynamics thereby raising questions about frequently used crime indicators in this area of research A groundbreaking work melding past scholarly practices in criminology with the field s current needs *Community Criminology* is an essential work for criminologists
