Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30 Most new or alternative religious are gravely misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context Determining what actually constitutes a new or alternative religion is a subject of constant debate Questions arise as to a new faith s legitimacy beliefs methods of conversion and other facets of a religious movement s viability and place in a given culture How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty tension and fear Here experts delineate the boundaries and examine the various groups beliefs movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People s Temple the Branch Davidians Jehovah s Witnesses and others are examined Volume 3 Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology

UFO religions and Heaven's Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more **The Encyclopedia of Cults, Sects, and New Religions** James R. Lewis, 2001-03 Surpassing the scope and the thoroughness of the first edition this new edition of The Encyclopedia of Cults Sects and New Religions is the most wide ranging and accessible resource on the historically significant and more obscure sinister and bizarre religious groups Including many entries by scholarly specialists this volume explains more than 1 000 diverse groups and movements from such well known sects as the Branch Davidians Aum Shinrikyo and Heaven's Gate to obscure groups like Ordo Templi Satanas Witches International and the Nudist Christian Church of the Blessed Virgin Jesus In addition to an exhaustive index and handy cross references the second edition includes over a hundred new topical entries on subjects relevant to understanding sectarian movements from snake handling and satanic ritual abuse to brainwashing and exorcism This book a must for all libraries and schools will endure as the first and only point of reference for researchers scholars students and anyone interested in fringe religious groups

conception is primarily rooted in Mahayana Buddhism especially Zen Buddhism and Taoism with substantial contribution to its formulation and structure based on consultation of the I Ching However Onliness also attempts to honor and include expressions of the mystical and transcendental Wisdom and Compassion from all of the widely recognized major spiritual religious traditions of the world Onliness Consciousness concerns the Self of no self this Being that is all beings There is here no claim that Onliness theory and perspective is in any sense absolute ultimate eternal or universal in any pre given sense The co constructed worldspace realm waves of consciousness discussed in Onliness are developmental and evolutionary in nature not pre created pre given pre designed or pre ordained Rather Onliness claims that the co created and co enacted unfolding of these realm waves of Spirit s transcendent Self remembering Consciousness emerge and evolve over vast periods of time gradually establishing themselves as patterned realm wave stages worldspaces of consciousness pathways or trails so to speak In Onliness the underlying central message is the same one that was expressed 2 500 years ago by Shakyamuni Buddha upon his Realization of Enlightenment under the Bodhi tree Marvelous Marvelous All beings are already fully enlightened It is only because of their delusion that they don t realize this Mitchell 1991 It is a message that is essentially the same as has been variously expressed by many other Sages from different mystical spiritual traditions up to the present day It is the message of Self as **The Heart's Secret** Adi Da Samraj,1985 **Enlightenment Dialogues** Martin Treon,2011-07-07 Preface This combined narrative dialogue and play is about the uncreated unborn and undying transcendent Self of God consciousness and Buddha nature It describes an odyssey of transcendent Consciousness Awakening and Remembrance as viewed from transpersonal and primarily post metaphysical Onliness Way of Enlightenment perspective The conversational interaction between the two characters of this book which concerns their shared journey of transcendental Nondual Spirit as Spirit Consciousness Realization is primarily intended to be read as a narrative dialogue However it is also created and structured in play format and is intended to be presented to an audience as a play And herein lies a formidable presentation problem As a play it almost certainly has a very limited audience appeal In relation to the current content tastes of people of a general audience the play has no scenes of violence gun play murder fighting battles sex scenes yelling screaming car chases flying saucers and no bad guys versus good guys monsters vampires aliens or cyborgs The play simply involves the quiet dialogue between two characters over a sixteen year period set in various scenic locations So speaking from the more cynical and pessimistic side of egoic self I would say to borrow the phrase of the burly Mr T of the old TV series called The A Team I pity the fool who tries to present this play to a general audience This would almost certainly be a disaster On the other hand I suspect that there is a small or should I say very small and select audience of people who would variously enjoy and appreciate this play and derive useful meaning and insight from it So speaking from the more optimistic and supportive side of egoic self I would praise and encourage anyone any producer director cast and crew who had the courage chutzpah and theatrical nerve and skills to present this play to any audience selective or otherwise
