The Days Of Miracles And Wonders An Epic Of New World Disorder:

The Days of Miracles and Wonders Simon Louvish,1999 From his tomb in Fontevraud the Crusader King Richard the Lionheart rises to face the modern world at the brink of the West's Gulf War against Saddam Hussein of Iraq The story weaves a tangled web of East and West of new crusades fought on prime time television of medieval Caliphs springing to life of madness and sanity in the New World Order Tragedy comedy and farce intermingle in a tale of ordinary and extraordinary people as the smart bombs of post modern technology rush towards their apocalyptic tryst with Baghdad the stubborn dreamland of the Arabian Nights

Transcultural English Studies Frank Schulze-Engler,Sissy Helff,2009 What is most strikingly new about the transcultural is its sudden ubiquity Following in the wake of previous concepts in cultural and literary studies such as creolization hybridity and syncretism and signalling a family relationship to terms such as transnationality translocality and transmigration transcultural terminology has unobtrusively but powerfully edged its way into contemporary theoretical and critical discourse The four sections of this volume denote major areas where transcultural questions and problematics have come to the fore theories of culture and literature that have sought to account for the complexity of culture in a world increasingly characterized by globalization transnationalization and interdependence realities of individual and collective life worlds shaped by the ubiquity of phenomena and experiences relating to transnational connections and the blurring of cultural boundaries fictions in literature and other media that explore these realities negotiate the fuzzy edges of ethnic or national cultures and participate in the creation of transnational public spheres as well as transcultural imaginations and memories and finally pedagogy and didactics where earlier models of teaching other cultures are faced with the challenge of coming to terms with cultural complexity both in what is being taught and in the people it is taught to and where target cultures have become elusive The idea of locating culture and literature exclusively in the context of ethnicities or nations is rapidly losing plausibility throughout an English speaking world that has long since been multi rather than monolingual Exploring the prospects and contours of Transcultural English Studies thus reflects a set of common challenges and predicaments that in recent years have increasingly moved centre stage not only in the New Literatures in English but also in British and American studies

Fundamentalism and Literature C. Pessoa-Miquel,K. Stierstorfer,2007-01-08 This book explores the manifold connections between fundamentalism and literature in English Carefully selected case studies and surveys document an unexpected richness and variety in this unlikely relationship

Symbolism 2020 Rüdiger Ahrens,Florian Klaeger,Klaus Stierstorfer,2020-12-07 This special anniversary volume of Symbolism explores the nexus between symbolic signification and the future from an interdisciplinary perspective How contributors ask has the future been variously rendered in symbolic terms How do symbols and symbolic reference shape our ideas of the future To what extent are symbols constitutive of futures and to what extent do they restrain communication about what is possible and the imagination of fundamental change Moreover how have symbolic practices

shaped not only artistic representations of the future but also scientific attempts at forecasting and modelling it What then is the relevance of symbolism for negotiations of the future in cultural and academic production In essays ranging from literary and film studies to the philosophy of art and ecological modelling the volume seeks to lay groundwork in theorizing and historicising symbols of the future as much as the future of symbolism **At the Wall of the Almighty** Farnoosh

Divine Disorder and the Rescue of God Mark Corner,2024-02-13 Divine Disorder and the Rescue of God is based on the idea that a kenotic approach is essential to a viable theology It is deeply influenced by the way such an approach influenced the writings of Donald MacKinnon Part I argues that God forces us to live in a state of uncertainty even about God s existence However compelling the sense of God s presence may be religious experience cannot take that uncertainty away We have to understand what sort of God would want to impose upon us the disorder of uncertainty Part II explores this further in terms of God s willingness to give a degree of independence to the created order while Part III compares the instability of the created order with that of the moral order By giving human beings freedom God opens up the possibility of failure including that of God The doctrine of the fall expresses the impossibility of giving human beings autonomy without risking disaster In Parts IV and V the book looks more closely at the nature of this God who embraces risk suffering and even failure Who is the deity behind this divine disorder The focus from a Christian perspective is upon the risk suffering and failure displayed in the life of Christ Jesus is drawn into something that it is beyond him to fathom hence the troubled uncertain character of his own life But from a kenotic perspective even a life marked by failure can be the focal point of God s self revelation The Bookman ,1916
