The Lion that Didn't Roar Nigel Davidson, 2016-10-06 In 2017 it will be Australia's turn to chair the Kimberley Process Certification Scheme KP an international organisation set up to regulate the trade in diamonds Diamonds are a symbol of love purchased to celebrate marriage and it is therefore deeply ironic that the diamond trade has become linked with warfare and human rights violations committed in African producer countries such as Sierra Leone the Democratic Republic of Congo and more recently Zimbabwe and Angola In their quest for diamonds or by using diamonds to purchase weapons armed groups in these countries have engaged in recruiting child soldiers amputating limbs and committing rape and murder In

response to the problem the international community non governmental organisations and key industry players such as De Beers combined forces to create the Kimberley Process in 2002 The KP uses an export certificate system to distinguish the legitimate rough diamond trade from so called blood diamonds which are also known as conflict diamonds This book considers the extent to which the KP supported by other agencies at the international and national levels has been effective in achieving its mandate In so doing it presents an original model derived from the domain of regulatory theory the Dual Networked Pyramid as a means of describing the operation of the system and suggesting possible improvements that might be made to it *Head First Java* Kathy Sierra,Bert Bates,2003 *Head First Java* engages readers on many levels bringing the latest learning theories and research together to create not just a book to read but a multi sensory learning experience
