## **The Death Of God The Culture Of Our Post Christian Era:**

**The Death of God** Gabriel Vahanian, 2019-01-13 The most exciting theological book I have read in many years In some ways it is a parallel to Karl Barth's R. M. RUDOLF BULTMANN An unhesitating unflinching analysis of an age which Vahanian believes has no concerns even to deny God a cultural analysis of the religious political artistic literary and societal movements of our era PAUL RAMSEY In his preface to The Death of God Paul Ramsey Professor of Religion at Princeton university explains that we are now in the second phase of the period post mortem Dei the first phase was anti Christian ours is post Christian Vahanian's message has to do with the dishabilitation of the Christian tradition with its replacement by bourgeois religiosity and a theology of immanentism with the desperate effort of Western culture to shake off the crippling shackles of a superannuated piety The quality of mind which enters into this book is unique and fascinating Vahanian is a fierce but eloquent prophet of the Lord ROBERT E FITCH New York Times Book Review **The Death Of God The**

**Culture Of Our Post Christian Era** Gabriel Vahanian, 2023-07-22 In The Death of God theologian Gabriel Vahanian reflects on the cultural and intellectual trends that have eroded the foundations of traditional Christianity and opened up new possibilities for human creativity and freedom Drawing on a wide range of philosophical and literary sources Vahanian argues that the demise of the God of the Bible has created a void that can only be filled by the imaginative and critical powers of human beings themselves His provocative and insightful analysis challenges believers and non believers alike to rethink the role of religion in contemporary society This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Death of God the Culture of**

**Our Post Christian Era - Scholar's Choice Edition** Gabriel Vahanian, 2015-02-14 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an

**- Primary Source Edition** Gabriel Vahanian,2014-03-13 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book      **Secular Theology** Clayton Crockett,2021-12-24 Secular Theology brings together new writings by some of America s most influential theological and religious thinkers on the viability of secular theology Critically assessing Radical Orthodoxy and putting American radical theology in context it provides new resources for philosophical theology Themes covered include postmodern theology ethics psychoanalysis the death of God and medieval theology      **The Scandal of Sacramentality** Brannon Hancock,2014-03-17 The sacrament par excellence the Eucharist has been upheld as the foundational sacrament of Christ s Body called Church yet it has confounded Christian thinking and practice throughout history Its symbolism points to the paradox of the incarnation death and resurrection of God in Jesus of Nazareth which St Paul describes as a stumbling block skandalon Yet the scandal of sacramentality not only illustrated by but enacted in the Eucharist has not been sufficiently accounted for in the ecclesiologies and sacramental theologies of the Christian tradition Despite what appears to be an increasingly post ecclesial world sacrament remains a persistent theme in contemporary culture often in places least expected Drawing upon the biblical image of the Word made flesh this interdisciplinary study examines the scandal of sacramentality along the twofold thematic of the scandal of language word and the scandal of the body flesh While sacred theology can think through this scandal only at significant risk to its own stability the fictional discourses of literature and the arts are free to explore this scandal in a manner that simultaneously augments and challenges traditional notions of sacrament and sacramentality and by extension what it means to describe the Church as a eucharistic community      The Suicide of Christian Theology John Warwick Montgomery,2018-01-26 A forceful scholarly call to return to the solid ground of the ancient creeds of Christianity Dr Montgomery s incisive observations on Barth Bultmann Tillich de Chardin Pike and others may rankle some readers on occasion But there can never be any question about the mental acumen he brings to bear upon his subject or the skill with which he pens his views Montgomery is so obviously at home in the area of the theological and so conversant with the convictions of his fellow theologians that he certainly must be reckoned with Not content with only analyzing the suicide of theology the author also gives a proposal for its resurrection

Walter Lippmann Mark Thomas Edwards,2023-05-12 Walter Lippmann was arguably the most recognized and respected political journalist of the twentieth century His Today and Tomorrow columns attracted a global readership of well over ten million Lippmann was the author of numerous books including the best selling A Preface to Morals 1929 and U S Foreign

Policy 1943 His Public Opinion 1922 remains a classic text within American political philosophy and media studies Lippmann coined or popularized several keywords of the twentieth century including stereotype the Cold War and the Great Society Sought out by U S Presidents and by America s allies and rivals around the world Lippmann remained one of liberalism s most faithful proponents and harshest critics Yet few people then or since encountered the real Walter Lippmann That was because he kept crucial parts of himself hiding in plain sight His extensive commentary on politics and diplomacy was bounded by his sense that America had to adjust to the loss of a common faith and morality in a post Christian era Over the course of his life Lippmann traded in his fame as a happy secularist for the stardom of a grumpy Western Christian intellectual Yet he never committed himself to any religious system especially his own Jewish heritage Walter Lippmann American Skeptic American Pastor considers the role of religions in Lippmann s life and thought prioritizing his affirmation and rejection of Christian nationalisms of the left and right It also yields fresh insights into the philosophical origins of modern American liberalism including liberalism s blind spots in the areas of sex race and class But most importantly this biography highlights the constructive power of doubt For Lippmann the good life in the good society was lived in irreconcilable tension the struggle to be free from yet loyal to a way of life to recognize the dangers yet also necessity of a civil religion and to strive for a just and enduring world order that can never be In the end Lippmann manufactured himself as the prophet of limitation for an extravagant American Century

**Works of Love in a World of Violence** Deidre Nicole Green, 2016-11-10 As she constructively engages feminist critiques of Christianity s complicity in violence Deidre Nicole Green challenges traditional beliefs that self sacrifice amounts to love and that suffering is inherently redemptive by arguing for a Kierkegaardian conceptions of Christian love that limits self sacrifice Back cover

**Merely Christianity** Robert M. Price, 2022-01-18 In this powerful volume Robert M Price engages in serious scrutiny of the beliefs and thinking of genuine Christian theologians and explains why he no longer finds that cardinal Christian claims make enough sense to believe As he concludes the gospel proclamation is not a timeless revelation from heaven but merely Christianity

The Courage to Be Queer Jeff Hood, 2015-09-18 God is Queer In a world of normative paradigms God will never fit in and nor should we That twitching and itching for something more will consistently be present until we step out of our closets and into the Queer The Courage to Be Queer is about the wildness and beauty of an indescribable and uncontainable God What is the Queer calling us to be We are to be the ones shouting for justice We are to be the ones dancing for freedom We are to be the ones dreaming for hope We are to be the ones In the midst of the spectacle of it all there will be those observers who hear the knocking and lean in Will you open the door

**Paradise Misaid** Jeffrey Burton Russell, 2006 In this stimulating book Russell sets out to rehabilitate heaven by forcefully attacking a series of ideas that have made belief in heaven not to mention belief in God increasingly difficult for modern people

**Worlds in Collision** Laurie Guy, 2002 The period from 1960 to 1986 was distinguished by the debate over decriminalization of sexual acts between males In the 1960s homosexual men

faced prison sentences if they were sexually active and so they made themselves invisible By 1986 they were demanding their rights and the nation's attention This change had come after years of debate The New Zealand Homosexual Law Reform Society and the gay liberation movement actively sought reform Many within society actively opposed it and the issue became a catalyst for a significant rift in the churches Intense lobbying and vehement opposition marked the fifteen months before the Homosexual Law Reform Bill was passed in July 1986 Based on 22 interviews with important participants in the debates as well as extensive research in archives and published material *Worlds in Collision* is the first time this important story has been told It is a major contribution not only to the international literature on the history of homosexuality but also to our understanding of New Zealand society in the later twentieth century **An Ethics for Today** Richard Rorty, 2011

Richard Rorty is famous maybe even infamous for his philosophical nonchalance His groundbreaking work not only rejects all theories of truth but also dismisses modern epistemology and its preoccupation with knowledge and representation At the same time the celebrated pragmatist believed there could be no universally valid answers to moral questions which led him to a complex view of religion rarely expressed in his writings In this posthumous publication Rorty a strict secularist finds in the pragmatic thought of John Dewey John Stuart Mill William James and George Santayana among others a political imagination shared by religious traditions His intent is not to promote belief over nonbelief or to blur the distinction between religious and public domains Rorty seeks only to locate patterns of similarity and difference so an ethics of decency and a politics of solidarity can rise He particularly responds to Pope Benedict XVI and his campaign against the relativist vision Whether holding theologians metaphysicians or political ideologues to account Rorty remains steadfast in his opposition to absolute uniformity and its exploitation of political strength **Polyphonic Thinking and the Divine** Jim Kanaris, 2013

Philosophy of religion is a highly diversified field An apt description of it is zoo It conjures imagery of a species wide cacophony of sights and sounds While some bemoan what this description implies Contributors to this volume appreciate it There is no reason why a zoo should intimate a den of confusion rather than an important condition of emergence and novelty Polyphonic is the catchall term to capture this sentiment It signals a way of thinking that resists the desire to siphon insight into manageable packets of information in the Name of historicity and finitude A polyphonic then is a variegated and discontinuous study that breaks with a tradition that desires continuity and unification without being erratic This volume is an exercise in polyphonic thinking Each contributing scholar develops ideas in connection with his or her research interests Despite the fluctuation of themes symmetry exists as each piece sounds off a core melody of religion and the divine The book contributes to the advancement of current research in contemporary Continental philosophy of religion By juxtaposing articles by cultural theorists and philosophers of religion religionists and theologians the book emphasizes the importance of interdisciplinary and polyphonic conversation to the development of matters of topical interest and issues related to method and ethics in religious studies and theology **Legal science, philosophy** Jacques Havet, 2019-06-04 No detailed

description available for Legal science philosophy      **Christianity's American Fate** David A. Hollinger, 2024-05-07 Tracing the rise of evangelicalism and the decline of mainline Protestantism in American religious and cultural life How did American Christianity become synonymous with conservative white evangelicalism This sweeping work by a leading historian of modern America traces the rise of the evangelical movement and the decline of mainline Protestantism's influence on American life In *Christianity's American Fate* David Hollinger shows how the Protestant establishment adopting progressive ideas about race gender sexuality empire and divinity liberalized too quickly for some and not quickly enough for others After 1960 mainline Protestantism lost members from both camps conservatives to evangelicalism and progressives to secular activism A Protestant evangelicalism that was comfortable with patriarchy and white supremacy soon became the country's dominant Christian cultural force Hollinger explains the origins of what he calls Protestantism's two party system in the United States finding its roots in America's religious culture of dissent as established by seventeenth century colonists who broke away from Europe's religious traditions the constitutional separation of church and state which enabled religious diversity and the constant influx of immigrants who found solidarity in churches Hollinger argues that the United States became not only overwhelmingly Protestant but Protestant on steroids By the 1960s Jews and other non Christians had diversified the nation ethnoreligiously inspiring more inclusive notions of community But by embracing a socially diverse and scientifically engaged modernity Hollinger tells us ecumenical Protestants also set the terms by which evangelicals became reactionary      Understanding Nietzscheanism Ashley Woodward, 2014-09-03 Nietzsche's critiques of traditional modes of thinking valuing and living as well as his radical proposals for new alternatives have been vastly influential in a wide variety of areas such that an understanding of his philosophy and its influence is important for grasping many aspects of contemporary thought and culture However Nietzsche's thought is complex and elusive and has been interpreted in many ways Moreover he has influenced starkly contrasting movements and schools of thought from atheism to theology from existentialism to poststructuralism and from Nazism to feminism This book charts Nietzsche's influence both historically and thematically across a variety of these contrasting disciplines and schools of interpretation It provides both an accessible introduction to Nietzsche's thought and its impact and an overview of contemporary approaches to Nietzsche      **After Rorty** G. Elijah Dann, 2010-12-16      **The Beatles** Michael R. Frontani, 2009-09-18 *The Beatles Image and the Media* charts the transformation of the Beatles from teen idols to leaders of the youth movement and powerful cultural agents Drawing upon American mainstream print media broadcasts albums films and videos the study covers the band's career in the United States Michael R Frontani explores how the Beatles media image evolved and how this transformation related to cultural and historical events Upon their arrival in the U S the Beatles wore sharply tailored suits and cast themselves as adorable accessible teen heartthrobs By the end of the decade they had absorbed the fashion and consciousness of the burgeoning counterculture and were using their interviews media events and music to comment on issues such as the Vietnam War drug

culture and civil rights Frontani traces the steps that led to this change and comments on how the band s mantra of essential optimism never wavered despite the evolution of its media profile
