Between Military Rule and Democracy Yaprak Gursoy, 2017-07-06. Why do the armed forces sometimes intervene in politics via short-lived coups d'état, at other times establish or support authoritarian regimes, or in some cases come under the democratic control of civilians? To find answers, Yaprak Gursoy examines four episodes of authoritarianism, six periods of democracy, and ten short-lived coups in Greece and Turkey, and then applies her resultant theory to four more recent military interventions in Thailand and Egypt. Based on more than 150 interviews with Greek and Turkish elites, Gursoy offers a detailed analysis of both countries from the interwar period to recent regime crises. She argues that officers, politicians, and businesspeople prefer democracy, authoritarianism, or short-lived coups depending on the degree of threat they perceive to their interests from each other and the lower classes. The power of elites relative to the opposition, determined in part by the coalitions they establish with each other, affects the success of military interventions and the consolidation of regimes. With historical and theoretical depth, **Between Military Rule and Democracy** will interest students of regime change and civil-military relations in Greece, Turkey, Thailand, and Egypt, as well as in countries facing similar challenges to democratization.

Zones of Conflict in Africa George Klay Kieh Jr., Ida Rousseau Mukenge, 2002-03-30. Torn by ongoing civil and military violence, Africa presents a challenge to scholars interested in the root causes of conflict. Each conflict is unique, but overall they exhibit common patterns. The contributors of this book employ an eclectic array of current explanations of civil strife and how to resolve it. The first half of the book provides the relevant theoretical background. Theories of conflict and conflict resolution, the larger context of African strife in Africa, and patterns and trends of conflict are discussed. Shifting from the general to the particular, the remaining chapters of this volume gauge the accuracy and usefulness of the current thinking on conflicts by grounding it in case studies drawn from the Great Lakes Region, Liberia, Nigeria, and Zambia.
