The Decoy And The Dove:

The Decoy and the Dove Mary Vesta Nickerson, 2002-03-12 Although I wanted to honor my dad in this book I also wanted to preserve a history for future generations The world is constantly changing and the strength and simple joys that we had several years ago sometimes seem to get lost in the hustle and bustle of today s world Life was harder then but the simple things in life were good enough to keep us going along with a faith in a loving and kind God I am hoping that by sharing these memories it will show the strength of family the joy that family can bring and the love that should never get lost Many of us have family stories and antics we treasure in our memories Most of mine involve my dad with his songs and poetry Remembering second edition is a collection of these memories The first edition of this book was simply a recitation of those poems and songs Some of the songs were written by Dad yet many were songs he heard his daddy sing as he was growing up on the farm in the 1920s and 30s With the second edition I have taken it a bit farther Many of the poems written had stories that went along with them which have been included Where possible the history behind some of the music and variations to the lyrics has been included Additionally I have added family stories and history both bad and good happy and sad These memories of love laughter heartache and struggles should not be forgotten over time This second edition also includes poetry that had been lost previously and some additional poetry from Daddy s aunts children and grandchildren

linguistic variation within the corpus It is well established that the Talmudic literature employs a wide range of alternative grammatical forms Several explanations have been proposed for this phenomenon Some authorities have suggested that it arises from dialectal differences while others have proposed that it represents the use of different literary registers An alternative explanation is that the language was altered during the course of textual transmission This study shows that none of these explanations can account for the wide extent of the phenomenon which is found in the best textual witnesses and in ostensibly uniform contexts It is argued that all of proposed explanations may partially account for the interchanges but ultimately the lack of a literary standard leads to the use of different forms Syntax is often regarded as being one of the linguistic areas least affected by textual transmission However the early manuscripts show that Rabbinic Babylonian Aramaic employs a defined series of syntactic structures to mark the direct object This clearly defined complimentary distribution is lost in the later textual witnesses which use the structures interchangeably It is thus shown that for syntactic study too only a small group of textual witnesses can be regarded as reliable
