Stromberg, 1969 The Medieval Military Engineer Peter Fraser Purton, 2018 Sheds light on the skills and techniques of the medieval military engineer over a thousand year sweep. The results of medieval engineering still surround us cathedrals castles stone bridges irrigation systems However the siege artillery siege towers temporary bridges earthwork emplacements and underground mines used for war have left little trace behind them and there is even less of the engineers themselves the people behind the military engineering achievements The evidence for this neglected group is studied here The author begins byconsidering the evolution of military technology across centuries and the impact of new technologies in the context of the economic and social developments which made them possible He looks at how military engineers obtained their skills and the possible link with scholastic scientific awareness With the increased survival of government records from the middle ages engineers acquire names and individuals can be identified And the fifteenth century the age of polymaths such as Leonardo da Vinci saw a new type of literate military engineer part of a recognized profession but with its roots in a thousand years of historical development PETER PURTON D Phil Oxon FSA has written extensively on medieval fortifications and siege warfare his publications include the comprehensive two volume history of the medieval siege Boydell 2010 County and Nobility in Norman Italy Hervin Fernández Aceves, 2020-07-23 Whilst historians often regard the Norman Kingdom of Sicily as centralised and administratively advanced County and Nobility in Norman Italy counters this traditional interpretation far from centralised and streamlined this book reveals how the genesis and social structures of the kingdom were constantly fraught between the forces of royal power and local aristocracy authority In doing so Hervin Fernandez Aceves sheds important new light on medieval Italy This book is the result of thorough research conducted on the vast source material for the history of this fascinating 12th century world Starting with the activities of Norman counts and the configuration of the counties it explores how social control operated in these nodes of regional authority and argues that the Sicilian monarchy relied on the counties and the counts authority to keep the realm united and exercise control The Deeds of Frederick Barbarossa Otto I (Bishop of Freising), Rahewin, 1966 The Publishers' Trade **Germany in the High Middle Ages** Horst Fuhrmann,1986-10-09 This book describes and explains List Annual ,1982 the conditions and changes happening in Germany from 1050 1200 Ideas and Institutions in Western Civilization: The medieval world, 300-1300, edited by N.
