Security Strategies, Power Disparity and Identity Olav F. Knudsen, 2017-11-30 What is power and how is it effective This volume responds to these questions in terms of regional international relations with a particular focus on the Baltic Sea region an area still charged with a residue of Cold War conflict and power disparity in a setting of new cooperative ventures Each contributor examines the region from a different angle and discusses how its actors coped with the new situation facing them after 1991 The volume looks at how governments have defined their new circumstances how they have dealt with the opportunity to shift to a new mode of coexistence and collaboration and how they have tackled the challenge of peacefully converting their region to a security community The book breaks with tradition by adopting a new thematic approach based on regional issues and functions rather than a country by country discourse It will be of critical value to readers interested in security studies and European politics **Pedagogy of health in physical culture** Napierala Marek, Szark-Eckardt

**God's People** Jocelyne Cesari, 2021-12-16 Cesari argues that both religious and national communities are defined by the three Bs belief behaviour and belonging By focusing on the ways in which these three Bs intersect overlap or clash she identifies the patterns of the politicization of religion and vice versa in any given context Her approach has four advantages firstly it combines an exploration of institutional and ideational changes across time which are usually separated by disciplinary boundaries Secondly it illustrates the heuristic value of combining qualitative and quantitative methods by statistically testing the validity of the patterns identified in the qualitative historical phase of the research Thirdly it avoids reducing religion to beliefs by investigating the significance of the institution ideas connections and fourthly it broadens the political approach beyond state religion relations to take into account actions and ideas conveyed in other arenas such as education welfare and culture **Stereotypes in Literatures and Cultures** Rahilya Geybullayeva, 2010 Annotation

Imaginative representations of different cultures are one of the major stumbling blocks to understanding deepening the gap between people as they are passed from one text to another especially in periods of historical transition These transfers are sometimes innocent while at other times they serve political agendas The sample of images and estimations of others becomes a priority and frequently for this reason stereotypical This is the subject of investigation for the majority of the
