The Development of Writing Abilities (11-18) Schools Council (Great Britain). Project on Written Language of 11-18 Year Olds, James Britton, 1975 **The Development of Writing Abilities(11-18) : [By] James Britton [An James N. Britton, 1975 The Development of Writing Abilities (11-18) James Britton, 1975 The SAGE Handbook of Writing Development Roger Beard, Debra Myhill, Jeni Riley, Martin Nystrand, 2009-07-09** Writing development is currently the focus of substantial international debate because it is the aspect of literacy education that has been least responsive to central government and state reforms Teaching approaches in writing have been slower to change than those in teaching reading and pupil attainment in writing has increased at a much more modest rate than pupil attainment in reading This handbook critically examines research and theoretical issues that impact on writing development from the early years through to adulthood It provides those researching or teaching literacy with one of the most academically authoritative and comprehensive works in the field With expert contributors from across the world the book represents a detailed and valuable overview of a complex area of study **Practical Ideas for Teaching Writing as a Process** Carol B. Olson, 1996-02 Contains a collection of specific classroom strategies suggestions for teaching writing to elementary school students according to an eight stage process Specific techniques for teaching each stage of the writing process descriptions of proven approaches for using these techniques are also included A wonderful resource a labor of love from a large talented group of educators Had its beginnings in the California Writing Project at the Univ of California Irvine Best Seller Illustrated **James Britton on Education** Myra Barrs, Tony Burgess, John Richmond, Jenifer Smith, John Yandell, 2024-12-27 James Britton s work addresses central educational questions that are as relevant today as they were half a century ago Britton was the architect of a theory of language and learning which has influenced the thinking and practice of generations of teachers across the anglophone world This Reader helps teachers and students explore his theories of the relationships between language and thought between thinking and feeling the links between unconscious and conscious ways of knowing and the symbolising nature of language This carefully curated collection of Britton s key writings renders his work accessible to today s students educators and researchers Fully annotated chapters explore how his work fuses observation and theory in a remarkable synthesis and demonstrates the continuities between the early use of language and later more complex achievements in speaking listening reading and writing All those involved in teacher education and training including researchers and scholars will find this a rich and insightful text

Naming What We Know, Classroom Edition Linda Adler-Kassner, Elizabeth Wardle, 2016-06-15 Naming What We Know Classroom Edition examines the core principles of knowledge in the discipline of writing studies using the lens of threshold concepts concepts that are critical for epistemological participation in a discipline This edition focuses on the working definitions of thirty seven threshold concepts that run throughout the research teaching assessment and public work

in writing studies Developed from the highly regarded original edition in response to grassroots demand from teachers in writing programs around the United States and written by some of the field's most active researchers and teachers the classroom edition is clear and accessible for an audience of even first year writing students Naming What We Know Linda Adler-Kassner, 2015-06-01 Naming What We Know examines the core principles of knowledge in the discipline of writing studies using the lens of threshold concepts concepts that are critical for epistemological participation in a discipline The first part of the book defines and describes thirty seven threshold concepts of the discipline in entries written by some of the field's most active researchers and teachers all of whom participated in a collaborative wiki discussion guided by the editors These entries are clear and accessible written for an audience of writing scholars students and colleagues in other disciplines and policy makers outside the academy Contributors describe the conceptual background of the field and the principles that run throughout practice whether in research teaching assessment or public work around writing Chapters in the second part of the book describe the benefits and challenges of using threshold concepts in specific sites first year writing programs WAC/WID programs writing centers writing majors and for professional development to present this framework in action Naming What We Know opens a dialogue about the concepts that writing scholars and teachers agree are critical and about why those concepts should and do matter to people outside the field **Contemporary Composition Studies** Edith Babin, Kimberly Harrison, 1999-12-30 Composition studies is a rapidly growing and constantly changing field At present however graduate students new to the field and writing teachers who want to make new connections between theory and practice have little choice of current reference works that define key terms in composition studies and provide information about the scholars and researchers who have shaped and are shaping the discipline This book supplies this information in an easily accessible format and places both scholars and terms in the context of the field's development Included are alphabetically arranged entries for 108 individuals who have developed the field and 128 terms central to the discipline The first part of the book provides entries for leaders in composition studies Each entry identifies the areas in which the scholar has contributed most influentially to the field and provides both a chronological overview of the person's contributions and a bibliography of representative works The second part includes entries for terms that are problematic both for newcomers and for those already familiar with the discipline The entries for the terms show how the disciplinary context has shaped the ways in which they have been used The entries also indicate how established thinkers in composition studies and other disciplines have explained or defined the terms provide examples of the terms in context and list scholars often associated with them An appendix includes entries for scholars from other disciplines who have contributed to the field *Improving Students' Writing, K-8* Diane M. Barone, Joan M. Taylor, 2006 Purposeful realistic and clearly written the book renews my excitement for teaching writing and for new teachers the text offers suggestions from a voice of experience all within the framework of NCLB legislation for differentiating teaching based on learners needs Julia Weinberg Instructor University of

Electronic Quills Bertram C. Bruce, Andee Rubin, with contributi Barnhardt and Teachers, 2013-11-05 This volume centers on the words and experiences of teachers and students who used QUILL a software package developed by the authors to aid in writing instruction It looks in detail at the stories of these early users and considers questions relevant for other teachers students researchers and developers of educational innovations Questions posed include What does it mean to develop an environment for literacy in an actual classroom How can a teacher create an environment in which students work together toward meaningful goals How can a teacher promote the rich communication so necessary for developing language What is the role of technology in the practice and development of literacy The examination of the QUILL experiences provides a fuller and more revealing account of what it meant to use QUILL than would have been possible through standard evaluation techniques At the same time the focus on the particulars also finds analogues in analyses of similar pieces of open ended software or educational innovations in general

Writing Mathematically Candia Morgan, 2002-01-04 School mathematics curricula internationally tend to emphasise problem solving and have led to the development of opportunities for children to do maths in a more open creative way This has led to increased interest in performance based assessment which involves children in substantial production of written language to serve as evidence of their mathematical activity and achievement However this raises two important questions Firstly does this writing accurately present children s mathematical activity and ability Secondly do maths teachers have sufficient linguistic awareness to support their students in developing skills and knowledge necessary for writing effectively in their subject area The author of this book takes a critical perspective on these questions and through an investigation of teachers readings and evaluations of coursework texts identifies the crucial issues affecting the accurate assessment of school mathematics

Research in Basic Writing Martin Jacobi, Michael G. Moran, 1990-02-15 This reference handbook surveys research on the central issue associated with the

teaching of unprepared writers Though basic writing has only been recognized as a distinct area of teaching and research since 1975 the existing bibliographic texts already seem limited due to their age or lack of annotation This volume provides current and extensive bibliographic essays and will help to define this new field of study for teachers and researchers Following an introduction that summarizes the origins and significant texts in basic writing the book is divided into three sections Social Science Perspectives Linguistic Perspectives and Pedagogical Perspectives The first section which contains three essays views the field through the lens of social psychological and political issues The second section also containing three essays examines contributions made from studies of grammar dialects and second language acquisition The third section in its four essays focuses on the design development administration and evaluation of basic writing courses the use of computers in basic writing classrooms the role of the writing lab and the preparation of basic writing teachers An appendix that reviews current textbooks for basic writing courses is also included as well as an index This book will be a valuable resource for teachers of basic writing in education courses and workshops that train teachers and tutors and in fields such as linguistics technical writing and Teaching English as a Second Language It will also be an important addition to public and university libraries and many education programs

The Psychology of Written Composition Carl Bereiter, Marlene Scardamalia, 2013-11-05 First Published in 1987 Part of a series on the psychology of education and instruction this volume marks a highpoint in the development on writing from a cognitive perspective It significantly expands the data base upon which our understanding of writing rests the book presents an original theory or at any rate the beginnings of a theory of writing and the development of writing skills emphasizing the control processes in writing
