Schmidt, 2001-06-10 Ever since Adam and Eve were expelled from the Garden of Eden writers and reformers have been inspired to create fictional or experimental utopias The former may be serious as was Plato's *Republic* or satires as *Erewhon* by Samuel Butler The latter may be one man utopias such as *Thoreau at Walden Pond* or continental reverse utopias dystopias such as the former Soviet Union Utopias may stress technology as did the *New Atlantis* of Francis Bacon or resist technology as did the *Islandia* of Austin T Wright They may be sexually promiscuous as was the *Brave New World* of Huxley

or extremely puritanical as were the Shaker communities While they may appear frivolous they represent man's desire to dream the impossible dream They can show us the flaws in our present socioeconomic system and point to more prosperous and just systems in the future They may in the words of Lewis Mumford be utopias of escape or utopias of reconstruction In any case fasten your seat belts and enjoy the trip of your life *Visions of Utopia* Edward Rothstein, Herbert Muschamp, Martin E. Marty, 2003 From the sex free paradise of the Shakers to the worker's paradise of Marx utopian ideas seem to have two things in common they all are wonderfully plausible at the start and they all end up as disasters In *Visions of Utopia* three leading cultural critics Edward Rothstein Martin Marty and Herbert Muschamp look at the history of utopian thinking exploring why they fail and why they are still worth pursuing Edward Rothstein New York Times cultural critic contends that every utopia is really a dystopia a disaster in the making one that overlooks the nature of humanity and the impossibilities of paradise He traces the ideal in politics and technology and suggests that only in art and especially in music does the desire for utopia find satisfaction Martin Marty examines several models of utopia from Thomas More's to a 1960s experimental city that he helped to plan to show that even though utopias can never be realized we should not be too quick to condemn them They can express dimensions of the human spirit that might otherwise be stifled and can plant ideas that may germinate in more realistic and practical soil And Herbert Muschamp the New York Times architectural critic looks at Utopianism as exemplified in two different ways the Buddhist tradition and the work of visionary Viennese architect Adolph Loos Utopian thinking embodies humanity's noblest impulses yet it can lead to horrors such as Nazi Germany and the Soviet Regime In *Visions of Utopia* these leading thinkers offer an intriguing look at the paradoxes of paradise *Ideology and Utopia in the Poetry of William Blake* Nicholas M. Williams, 1998-04-13 Scholars have often drawn attention to William Blake's unusual sensitivity to his social context In this book Nicholas Williams situates Blake's thought historically by showing how through the decades of a long and productive career Blake consistently responded to the ideas writing and art of contemporaries Williams presents detailed readings of several of Blake's major poems alongside Rousseau's *Emile* Wollstonecraft's *Vindication of the Rights of Woman* Paine's *Rights of Man* Burke's *Reflections on the Revolution in France* and Robert Owen's *Utopian Experiments* In so doing he offers revealing new insights into key Blake texts and draws attention to their inclusion of notions of social determinism theories of ideology critique and Utopian traditions Williams argues that if we are truly to understand ideology as it relates to Blake we must understand the practical situation in which the ideological Blake found himself His study is a revealing commentary on the work of one of our most challenging poets

The Utopia Reader Gregory Claeys, Lyman Tower Sargent, 1999-11 Child molesting priests embezzled church treasures philandering ministers and rabbis even church endorsed pyramid schemes that defraud gullible parishioners of millions of dollars for the past decade clergy misconduct has seemed continually to be in the news Is there something about religious organizations that fosters such misbehavior *Bad Pastors* presents a range of new perspectives and solidly grounded data on

pastoral abuse investigating sexual misconduct financial improprieties and political and personal abuse of authority Rather than focusing on individuals who misbehave the volume investigates whether the foundation for clergy malfeasance is inherent in religious organizations themselves stemming from hierarchies of power in which trusted leaders have the ability to define reality control behavior and even offer or withhold the promise of immortality Arguing that such phenomena arise out of organizational structures the contributors do not focus on one particular religion but rather treat these incidents from an interfaith perspective Bad Pastors moves beyond individual case studies to consider a broad range of issues surrounding clergy misconduct from violence against women to the role of charisma and abuse of power in new religious movements Highlighting similarities between other forms of abuse such as domestic violence the volume helps us to conceptualize and understand clergy misconduct in new ways

Women's Utopias of the Eighteenth Century Alessa Johns, 2003 No human society has ever been perfect a fact that has led thinkers as far back as Plato and St Augustine to conceive of utopias both as a fanciful means of escape from an imperfect reality and as a useful tool with which to design improvements upon it The most studied utopias have been proposed by men but during the eighteenth century a group of reform oriented female novelists put forth a series of work that expressed their views of and their reservations about ideal societies In *Women's Utopias of the Eighteenth Century* Alessa Johns examines the utopian communities envisaged by Mary Astell Sarah Fielding Mary Hamilton Sarah Scott and other writers from Britain and continental Europe uncovering the ways in which they resembled and departed from traditional utopias Johns demonstrates that while traditional visions tended to look back to absolutist models women's utopias quickly incorporated emerging liberal ideas that allowed far more room for personal initiative and gave agency to groups that were not culturally dominant such as the female writers themselves Women's utopias Johns argues were reproductive in nature They had the potential to reimagine and perpetuate themselves **Narrative and Freedom** Gary Saul Morson, 1994-01-01 In this important and controversial book one of our leading literary theorists presents a major philosophical statement about the meaning of literature and the shape of literary texts Drawing on works by the Russian writers Dostoevsky Tolstoy and Chekhov by other writers as diverse as Sophocles Cervantes and George Eliot by thinkers as varied as William James Mikhail Bakhtin and Stephen Jay Gould and from philosophy the Bible television and much more Gary Saul Morson examines the relation of time to narrative form and to an ethical dimension of the literary experience Morson asserts that the way we think about the world and narrate events is often in contradiction to the truly eventful and open nature of daily life Literature history and the sciences frequently present experience as if contingency chance and the possibility of diverse futures were all illusory As a result people draw conclusions or accept ideologies without sufficiently examining their consequences or

alternatives However says Morson there is another way to read and construct texts He explains that most narratives are developed through foreshadowing and backshadowing foreshadowing ascribed after the fact which tend to reduce the multiplicity of possibilities in each moment But other literary works try to convey temporal openness through a device he calls sideshadowing Sideshadowing suggests that to understand an event is to grasp what else might have happened Time is not a line but a shifting set of fields of possibility Morson argues that this view of time and narrative encourages intellectual pluralism helps to liberate us from the false certainties of dogmatism creates a healthy skepticism of present orthodoxies and makes us aware that there are moral choices available to us

Cosmic Miniatures and the Future

Sense Leslie Adelson,2017-04-10 Alexander Kluge s revolutionary storytelling for the 21st century pivots on the production of anti realist hope under conditions of real catastrophe Rather than relying on possibility alone his experimental miniatures engender counterfactual horizons of futurity that are made incrementally accessible to lived experience through narrative form Innovative close readings and theoretical reflection alike illuminate the dimensional quality of future time in Kluge s radical prose where off worldly orientation and unnatural narrative together yield new sensory perspectives on associative networks futurity scale and perspective itself This study also affords new perspectives on the importance of Kluge s creative writing for critical studies of German thought including Kant Marx Benjamin and especially Adorno Holocaust memory contemporary globalization literary miniatures and narrative studies of futurity as form Cosmic Miniatures contributes an experiential but non empirical sense of hope to future studies a scholarly field of pressing public interest in endangered times

Renaissance Utopias and the Problem of History Marina

Leslie,2019-05-15 Marina Leslie draws on three important early modern utopian texts Thomas More s Utopia Francis Bacon s New Atlantis and Margaret Cavendish s Description of a New World Called the Blazing World as a means of exploring models for historical transformation and of addressing the relationship of literature and history in contemporary critical practice While the genre of utopian texts is a fertile terrain for historicist readings Leslie demonstrates that utopia provides unstable ground for charting out the relation of literary text to historical context In particular she examines the ways that both Marxist and new historicist critics have taken the literary utopia not simply as one form among many available for reading historically but as a privileged form or methodological paradigm Rather than approach utopia by mapping out a fixed set of formal features or by tracing the development of the genre Leslie elaborates a history of utopia as critical practice Moreover by taking every reading of utopia to be as historically symptomatic as the literary production it assesses her book integrates readings of these three English Renaissance utopias with an analysis of the history and politics of reading utopia Throughout Leslie considers utopia as a fictional enactment of historical process and method In her view these early modern utopian constructions of history relate very closely to and impinge upon the narrative structures of history assumed by critical theory today
