Culinary Landmarks Elizabeth Driver, 2008-04-05 Culinary Landmarks is a definitive history and bibliography of Canadian cookbooks from the beginning when *La cuisinière bourgeoise* was published in Quebec City in 1825 to the mid twentieth century. Over the course of more than ten years Elizabeth Driver researched every cookbook published within the borders of present day Canada whether a locally authored text or a Canadian edition of a foreign work. Every type of recipe collection is included from trade publishers bestsellers and advertising cookbooks to home economics textbooks and fund raisers from church women's groups. The entries for over 2 200 individual titles are arranged chronologically by their province or territory of publication revealing cooking and dining customs in each part of the country over 125 years. Full bibliographical descriptions of first and subsequent editions are augmented by author biographies and corporate histories of the food producers and kitchen equipment manufacturers who often published the books. Driver's excellent general introduction sets out the evolution of the cookbook genre in Canada while brief introductions for each province identify regional differences in developments and trends. Four indexes and a Chronology of Canadian Cookbook History provide other points of access to the wealth of material in this impressive reference book. Women, Food, and Diet in the Middle Ages Theresa Vaughan, 2025-10-01 What can anthropological and folkloristic approaches to food gender and medicine tell us about these topics in the Middle Ages beyond the textual evidence itself? *Women Food and Diet in the Middle Ages* Balancing the Humours uses these approaches to look at the textual traditions of dietary recommendations for women's health placed within the context of the larger cultural concerns of gender roles and Church teachings about women. Women are expected to be nurturers healers and the primary locus of food provisioning for families especially women of the lower social classes typically overlooked in the written record. This work illuminates what we can know about women food medicine and diet in the Middle Ages and examines how the written medical tradition interacts with folk medicine and other cultural factors in both understanding women's bodies and their roles as healers and food providers.
