**THE DIARY OF FRANCES LADY SHELLEY 1818-1873** RICHARD EDGCUMBE,1913      **The Diary of Frances Lady Shelley** Lady Frances Winckley Shelley,1913      The Saturday Review of Politics, Literature, Science, Art, and Finance ,1913      *The Saturday Review of Politics, Literature, Science and Art* ,1913      **Author-catalogue of printed books in European languages. With a supplementary list of newspapers. 1904. 2 v** Imperial Library, Calcutta,1918      *Moving Rooms* John Harris,2007-01-01 Since at least Tudor times there have been architectural salvages panelling chimney pieces doorways or any fixtures and fittings might be removed from an old interior to be replaced by more fashionable ones Not surprisingly a trade developed and architects builders masons and sculptors sought out these salvages By 1820 there was a growing profession of brokers and dealers in London and a century later antique shops were commonplace throughout England This fascinating book documents the break up sale and re use of salvages in Britain and America where the fashion for so called Period Rooms became a mainstay of the transatlantic trade Much appreciated by museum visitors period rooms have become something of a scholarly embarrassment as research reveals that many were assembled from a variety of sources One American embraced the trade as no other the larger than life William Randolph Hearst who purchased tens of thousands of architectural salvages between 1900 and 1935      *Mercenaries for the Crimea* C.C. Bayley,1977-01-01      *Sir Robert Peel* Richard A. Gaunt,2010-07-02 Sir Robert Peel paragon or pariah Peel was the greatest statesman and political leader of mid Victorian Britain a titan of Conservative politics whose legacy has inspired generations in his party and in British political life In a career spanning forty years he held the greatest offices of state including Chief Secretary to Ireland Home Secretary Chancellor of the Exchequer and was twice Prime Minister He was the first acknowledged leader of the Conservative Party and the Founder of Modern Conservatism Yet Peel s seemingly peerless reputation has never been secure The Repeal of the Corn Laws split his party his Peelite supporters joined the Liberals and the Conservatives remained in opposition for thirty years Richard Gaunt drawing on a huge archive of state papers contemporary writings including Peel s own Memoirs and the latest historiography paints a convincing picture of Peel as an exponent of effective government in the modern industrial state and a calculating practitioner supremely self confident who dominated both his Party and the House of Commons Gaunt s revisionist life of Peel will be essential reading and the standard work for students and general readers interested in Conservative and mid Victorian political history and historical biography      **The Lost Chapel of Westminster** John Cooper,2024-11-07 The fascinating history of St Stephen s Chapel in the Palace of Westminster a building at the heart of British life for over 700 years Begun in 1292 the royal chapel of St Stephen was the crowning glory of the old palace of Westminster a place of worship for kings and a showcase of the finest architecture ritual and music the Plantagenets could muster But in 1548 as the Protestant Reformation reached its height St Stephen s was given a new purpose as the House of Commons Burned out in the great palace fire of 1834 the Commons chamber was then recreated on a remarkably similar

medieval design perpetuating a way of doing politics that is recognisable to this day St Stephen s has been part of many lives over the centuries from the medieval masons who worked through the Black Death to complete the chapel to the generations of MPs who locked horns in the Commons chamber Threading together religion politics art architecture and narrative history John Cooper tells the story of the lost chapel an iconic building that reflects the national transition from medieval divine right monarchy to modern parliamentary democracy     **The Outlook** ,1913     *The Sketch* ,1913     Popular Anti-Catholicism in Mid-Victorian England Denis G. Paz,1992 Anti Catholic sentiment was a major social cultural and political force in Victorian England capable of arousing remarkable popular passion Hitherto however anti Catholic feeling has been treated largely from the perspective of parliamentary politics or with reference to the propaganda of various London based anti Catholic religious organizations This book sets out to Victorian anti Catholicism in a much fuller and more inclusive context accounting for its persistence over time disguising it from anti Irish sentiment and explaining its social economic political and religious bases locally as well as nationally The author is principally concerned with determining what led ordinary people to violent acts against Roman Catholic targets violent acts against Roman Catholic petitions joining anti Catholic organizations and reading anti Catholic literature All too often English history and even British history turns out to be the history of what was happening in the West End One of the special distinctions of this book is that it shows the interplay between national issues and their local conditions The book covers the period ca     **The Tastemakers** Diana Davis,2020-07-07 An examination of the development role and influence of the British decorative art dealers who invented an Anglo Gallic style for elite interiors In this volume Diana Davis demonstrates how London dealers invented a new and visually splendid decorative style that combined the contrasting tastes of two nations Departing from the conventional narrative that depicts dealers as purveyors of antiquarianism Davis repositions them as innovators who were key to transforming old art objects from ancien r gime France into cherished antiques and equally as creators of new and modified French inspired furniture bronze work and porcelain The resulting old new and reconfigured objects merged aristocratic French eighteenth century taste with nineteenth century British preference and they were prized by collectors who displayed them side by side in palatial interiors of the period The Tastemakers analyzes dealer made furnishings from the nineteenth century patron s perspective and in the context of the interiors for which they were created contending that early dealers deliberately formulated a new aesthetic with its own objects language and value Davis examines a wide variety of documents to piece together the shadowy world of these dealers who emerge center stage as traders makers and tastemakers     *Political and Literary essays, 1908-1913* Evelyn Baring Earl of Cromer,2019-11-27 In Political and Literary Essays 1908 1913 Evelyn Baring Earl of Cromer offers a collection of incisive reflections that navigate the intersection of British imperialism and cultural criticism during a transformative era This anthology encapsulates Baring s astute observations on the socio political landscape of the early 20th century blending eloquent prose with rigorous analysis His essays characterized by a blend of

personal insight and expansive historical context explore themes of governance colonial policy and the evolving role of literature in shaping political discourse Baring s command of the English language and his sharp intellect provide a compelling narrative that challenges contemporary ideologies while reinforcing the complex dynamics of power and culture Evelyn Baring the 4th Earl of Cromer was a prominent British administrator in Egypt where he served as agent and consul general His extensive experiences in colonial governance deeply informed his views on politics and literature as he sought to reconcile the practicalities of empire with the moral and ethical implications of imperialism His position allowed him insight into the intricacies of governance and his literary pursuits reflect his commitment to critically engaging with the societal issues of his time Readers interested in the dynamic interplay between literature and politics during the waning years of empire will find Baring s essays both enlightening and provocative By offering a rare glimpse into the mentality of a key figure in British imperialism this collection not only enriches our understanding of the period but also prompts reflection on the lasting implications of Baring s thought in contemporary discussions of power and cultural identity Elite Women in English Political Life c.1754-1790 Elaine Chalus,2005-06-16 Based on wide ranging original research into political personal and general correspondences across a period of significant social and political change this book explores the gendered nature of politics and political life in eighteenth century England by focusing on the political involvement of female members of the political elite Elaine Chalus challenges the notion that only exceptional women were involved in politics that their participation was necessarily limited and indirect and that their involvement was inevitably declining after the 1784 Westminster Election While exceptional women did exist and gender did condition women s participation the personal social and particularly the familial nature of eighteenth century politics provided more women with a wider variety of opportunities for involvement than ever before Women from politically active families grew up with politics absorbing its rituals and their own involvement extended from politicized socializing up to borough control and election management Their participation was often accepted expected or even demanded depending upon family traditions personal abilities and the demands of political expediency Chalus reveals that although women s involvement in political life was always potentially more problematic than men s given contemporary concerns about the links between sex politics and corruption their participation was largely unproblematic as long as their activities could be explained by recourse to a familial model which depicted their participation as subordinate and supportive of men s It was when they came to be seen as the leading political actors in a cause that they overstepped the mark and became targets of sexualized criticism Contemporary critics worried that politically active women posed a threat to male polity but what actually made them threatening was that they proved that women were not politically incompetent and implicitly demonstrated that gender was not a reason for political exclusion Although the dividing line between acceptable and unacceptable female political behaviours was sharper from the late eighteenth century onward Chalus suggests that women who were willing to work creatively within the familial model could

and did remain politically active into and through the nineteenth century      Readers' Guide to Periodical Literature ,1915
