Re-examining the Holocaust through Literature Aukje Kluge,Benn E. Williams,2009-03-26 In the late 1980s

Holocaust literature emerged as a provocative but poorly defined scholarly field. The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books, fiction, film, and poetry as well as the more traditional diaries, memoirs, and journals. Ten contributors from four countries engage issues of authenticity, evangelicalism, morality, representation, personal experience, and wish fulfillment in Holocaust literature, which have been the subject of controversies in the US, Europe, and the Middle East. Of interest to students and instructors of antisemitism, national and comparative literatures, theater, film, history, literary criticism, religion, and Holocaust studies, this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context.

Hyam Plutzik and the Mosaic of Time
 Victoria Aarons, Holli G. Levitsky, Hilene Flanzbaum, 2025-09-30

This original collection of essays written by scholars and poets explores the life and work of Hyam Plutzik (1911–1962) whose poetry came to fruition at a time of cultural change set against the historical rupture of the Holocaust and World War II. The chapters in this volume explore in depth the influence of both modernist poetics and American Jewish identity on Plutzik's richly figured poetry. The son of Russian Jewish immigrants who arrived in the United States during the third great wave of Jewish immigration, Plutzik's poetic milieu is inflected with the linguistic mosaic of his cultural inheritance. With close focus on his most significant work, the individual chapters bring to light complicated issues of Jewish American ethnicity and identity in twentieth-century American cultural studies. This collection speaks to the legacy of this poet whose work continues to have relevance for Jewish literary studies and poetics.

Poems Containing History Gary Grieve-Carlson, 2013-11-08

Ezra Pound's definition of an epic as a poem containing history raises questions: how can a poem contain history? And if it can, does it help us to think about history in ways that conventional historiography cannot? *Poems Containing History: Twentieth-Century American Poetry's Engagement with the Past* by Gary Grieve-Carlson argues that twentieth-century American poetry has contained and helped its readers to think about history in a variety of provocative and powerful ways. Tracing the discussion of the relationship between poetry and history from Aristotle's *Poetics* to Norman Mailer's *The Armies of the Night* and Hayden White's *Metahistory*, the book shows that even as history evolves into a professional academic discipline in the late nineteenth century and as its practitioners emphasize the scientific aspects of their work and minimize its literary aspects, twentieth-century American poets continue to take history as the subject of their major poems. Sometimes they endorse the views of mainstream historians as Stephen Vincent Benét does in *John Brown's Body*, but more often they challenge them as do Robert Penn Warren in *Brother to Dragons*, Ezra Pound in *The Cantos*, or Charles Olson in *The Maximus Poems*. In *Conquistador*, Archibald MacLeish illustrates Aristotle's claim that poetry tells more philosophical truths about the past than history does, while in *Paterson*, William Carlos Williams develops a Nietzschean suspicion of history's value. Three major American poets—T. S. Eliot in *Four Quartets*, Hart Crane in *The Bridge*, and Carolyn Forché in *The Angel of History*—present different challenges to professional historiography's

assumption that the past is best understood in strictly material terms Poems Containing History devotes chapters to each of these poets and offers a clear sense of the seriousness with which American poetry has engaged the past as well as the great variety of those engagements **The Poetry of Sylvia Plath** Claire Brennan, 2001 This collection of reviews of the writing of Sylvia Plath is arranged in sections on reviews of *The Colossus* and *Ariel* unifying strategies and early feminist readings of the 1970s cultural and historical readings feminist and psychoanalytic strategies and new directions Brief excerpts by name
