The Human Rights Handbook Marguerite Writers' & Scholars' Educational Trust, 2016-01-01 Guide to and directory of international organizations and associations specializing in human rights and located in the UK and USA includes voluntary organizations occupational organizations and refugee organizations incl Intergovernmental organizations such as the ILO etc and contains the text of the universal declaration of human rights Bibliography pp 290 to 294 The Human Rights Handbook Marguerite Writers' & Scholars' Educational Trust, 1979-03-01 **Protecting Human Rights in Africa** Claude Emerson Welch, 1995 The first major comparative study of the way human rights south of the Sahara have been revolutionized by NGOs which have become the most effective detectives in discovering abuses and the most active advocates in seeking solutions **Jewish Internationalism and Human Rights after the Holocaust** Nathan A. Kurz, 2020-11-26 Nathan A Kurz charts the fraught relationship between Jewish internationalism and international rights protection in the second half of the twentieth century For nearly a century Jewish lawyers and advocacy groups in Western Europe and the United States had pioneered forms of international rights protection tying the defense of Jews to norms and rules that aspired to curb the worst behavior of rapacious nation states In the wake of the Holocaust and the creation of the State of Israel however Jewish activists discovered they could no longer promote the same norms laws and innovations without fear they could soon apply to the Jewish state Using previously unexamined sources Nathan Kurz examines the transformation of Jewish internationalism from an effort to constrain the power of nation states to one focused on cementing Israel's legitimacy and its status as a haven for refugees from across the Jewish diaspora The Ambivalence of Good Jan Eckel, 2019-04-24 The Ambivalence of Good examines the genesis and evolution of international human rights politics since the 1940s Focusing on key developments such as the shaping of the UN human rights system decolonization the rise of Amnesty International the campaigns against the Pinochet dictatorship the moral politics of Western governments or dissidence in Eastern Europe the book traces how human rights profoundly if subtly transformed global affairs Moving beyond monocausal explanations and narratives prioritizing one particular decade such as the 1940s or the 1970s The Ambivalence of Good argues that we need a complex and nuanced interpretation if we want to understand the truly global reach of human rights and account for the hopes conflicts and interventions to which this idea gave rise Thus it portrays the story of human rights as polycentric demonstrating how actors in various locales imbued them with widely different meanings arguing that the political field evolved in a fitful and discontinuous process This process was shaped by consequential shifts that emerged from the search for a new world order during the Second World War decolonization the desire to introduce a new political morality into world affairs during the 1970s and the visions of a peaceful international order after the end of the Cold War Finally the book stresses that the projects pursued in the name of human rights nonetheless proved highly ambivalent Self interest was as strong a driving force as was the desire to help people in need and

while international campaigns often improved the fate of the persecuted they were equally likely to have counterproductive effects The Ambivalence of Good provides the first research based synopsis of the topic and one of the first synthetic studies of a transnational political field such as population health or the environment during the twentieth century Based on archival research in six countries it breaks new empirical ground concerning the history of human rights in the United Nations of human rights NGOs of far flung mobilizations and of the uses of human rights in state foreign policy Yearbook of the European Convention on Human Rights/Annuaire de la convention europeenne des droits de l'homme, Volume 25 (1982) Council of Europe/Conseil de l'Europe,1986-06-01 *Amnesty International and Human Rights Activism in Postwar Britain, 1945-1977* Tom Buchanan,2020-04-30 Demonstrates how activists worked together during the post war decades to transform public attitudes towards violations of human rights *Human Rights In A Changing World* P Sukumar Nair,2011 Papers presented at the National Seminar on Human Rights in a Changing World held at Pandalam Globalizing Human Rights Christian Peterson,2012-03-12 Globalizing Human Rights explores the complexities of the role human rights played in U S Soviet relations during the 1970s and 1980s It will show how private citizens exploited the larger effects of contemporary globalization and the language of the Final Act to enlist the U S government in a global campaign against Soviet Eastern European human rights violations A careful examination of this development shows the limitations of existing literature on the Reagan and Carter administrations efforts to promote internal reform in USSR It also reveals how the Carter administration and private citizens not Western European governments played the most important role in making the issue of human rights a fundamental aspect of Cold War competition Even more important it illustrates how each administration made the support of non governmental human rights activities an integral element of its overall approach to weakening the international appeal of the USSR In addition to looking at the behavior of the U S government this work also highlights the limitations of arguments that focus on the inherent weakness of Soviet dissent during the early to mid 1980s In the case of the USSR it devotes considerable attention to why Soviet leaders failed to revive the international reputation of their multinational empire in face of consistent human rights critiques It also documents the crucial role that private citizens played in shaping Mikhail Gorbachev s efforts to reform Soviet style socialism **Ibss Poli Sci 29 1980** "International Committee For Social Sciences Documentation",2013-10-15 The International Bibliography of the Social Sciences IBSS is an essential tool for librarians academics and researchers wishing to be kept up to date with the published literature in the social sciences IBSS is compiled in four divisions Anthropology Sociology Economics and Political Science This is Volume XXIX of the International bibliography of political science as of 1980
