## **The Khoe And San An Annotated Bibliography Vol1 Etal:**

Historical Dictionary of Botswana Barry Morton, Jeff Ramsay, 2018-06-13 The death of Botswana's last founding father Sir Ketumile Quett Masire in June 2017 marked the end of an era. Since the release of the Fourth Edition of Historical Dictionary of Botswana in 2008 Botswana has gone through its most turbulent and divided decade to date. Throughout September 2016 when Botswana celebrated its 50th anniversary of independence all the successes of the Seretse and Masire era were sources of massive national pride. Botswana had expanded provisions of electricity, water, education and health services to almost all of its people and become a model nation that owned its natural resources and plowed the profits back into the nation's development. Despite these successes Botswana has a high unemployment rate about 20 percent and a much larger cohort of the underemployed. This fifth edition of Historical Dictionary of Botswana contains a chronology, an introduction, appendixes, an extensive bibliography and more than 700 cross-referenced entries on important personalities and aspects of the country's politics, economy, foreign relations, religion and culture. This book is an excellent resource for students, researchers and anyone wanting to know more about Botswana. Where Global Contradictions are Sharpest Keyan G. Tomaselli, 2005 The iconographic people, the Bushmen or San of the Kalahari, have been the subject of abundant social research over the years. Keyan Tomaselli and his research team from the University of KwaZulu Natal reflect critically on the way the San have been represented. He uncompromisingly and aptly illustrates the many ethical contradictions in doing fieldwork among the San. *The African Book Publishing Record*, 2002 *Pula*, 2002 **African Books in Print**, 1978

Vietnamese Tradition on Trial, 1920-1945 David G. Marr, 1984-02-03 Despite the historical importance of the Vietnam War, we know very little about what the Vietnamese people thought and felt prior to the conflict. Americans have tended to treat Vietnam as an extension of their own hopes and fears, successes and failures, rather than addressing the Vietnamese record. In this volume David Marr offers the first serious intellectual history of Vietnam focusing on the period just prior to full-scale revolutionary upheaval and protracted military conflict. He argues that changes in political and social consciousness between 1920 and 1945 were a necessary precondition to the mass mobilization and people's war strategies employed subsequently against the French and the Americans. Thus he rejects the prevailing notion that Vietnamese success was primarily due to communist techniques of organization. However, *Vietnamese Tradition on Trial* goes beyond simply accounting for anyone's victory or defeat to an informed description of intellectual currents in general. Replying for his information on a previously ignored corpus of books, pamphlets, periodicals and leaflets, the author isolates eight issues of central concern to twentieth-century Vietnamese. The new intelligentsia, indubitably the product of a peculiar French colonial milieu, yet never divorced from the Vietnamese past and always looking to a brilliant Vietnamese future spearheaded every debate beginning in 1925. After 1945 Vietnamese intellectuals either placed themselves under ruthless battlefield discipline or withdrew to private meditation. David Marr suggests that the new problems facing Vietnamese today make both of these

approaches anachronistic Whether the Vietnam Communist Party will allow citizens to subject received wisdom to critical debate to formulate new explanations of reality to test those explanations in practice is the essential question lingering at the end of this study     **International African Bibliography** ,1979     Bibliography and Index of Geology ,1985     **Optical**

Christianity and the Colonisation of South Africa ...: 1847-1883 Charles Villa-Vicencio,John W. De Gruchy,Peter Grassow,2009 The initial religious encounters between settlers in southern Africa and the indigenous inhabitants entailed the establishment of settler churches and the relationships with their home countries However this era saw little by way of the spread of Christianity In 1799 with the arrival of Johannes van der Kemp and other missionaries from the London Missionary Society Christianity began to cross colonial boundaries marking the great era of missions in southern Africa At the outset the missionary presence remained precariously perched between success and failure While missionary influence among the indigenous peoples was relatively insignificant the opposite was true within the colony At the same time expansion pressures from the Cape precipitated growing conflict between settlers and indigenous peoples Increasingly missionaries were caught between the interests of indigenous peoples and those of the colony For the most part they sided with their colonial heritage and roots but in some significant instances their identification with indigenous people led them to take extremely unpopular stands against both Boer and British colonial authority Such conflicts are traced at various levels throughout this book The

broader spread of Christianity during this period is also examined through multiple voices and stories      **Forthcoming**
