Medicinal Plants of Northern Thailand for the Treatment of Cognitive Impairment in the Elderly Lisa Offringa, 2014-11-21 This book provides a description of cognitive impairment in the elderly population through the lens of Thai Traditional Medicine as it is practiced in northern Thailand It provides an overview of Thai Traditional Medicine and

the memory loss presented in elderly dementia Some medicinal plants used by traditional Thai healers to treat cognitive decline and memory issues in the elderly are reviewed Medicinal Plants of Northern Thailand for the Treatment of Cognitive Impairment in the Elderly provides readers with the detailed description of the in vitro screening of ten plants and those results The bioactivity of these single plants exemplifies the success of using an ethnobotanical filter to identify plants with cognitive enhancing activity Woman between Two Kingdoms Leslie Castro-Woodhouse, 2020-12-15 Woman between Two Kingdoms explores the story of Dara Rasami one of 153 wives of King Chulalongkorn of Siam during the late nineteenth and early twentieth centuries Born in a kingdom near Siam called Lan Na Dara served as both hostage and diplomat for her family and nation Thought of as a harem by the West Siam's Inner Palace actually formed a nexus between the domestic and the political Dara's role as an ethnic Other among the royal concubines assisted the Siamese in both consolidating the kingdom's territory and building a local version of Europe's hierarchy of civilizations Dara Rasami's story provides a fresh perspective on both the sociopolitical roles played by Siamese palace women and Siam's response to the intense imperialist pressures it faced in the late nineteenth century Thanks to generous funding from the Andrew W Mellon Foundation through The Sustainable History Monograph Pilot the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories Thailand Charles F Keyes, 2019-07-09 Thailand is exceptional among modern states in Asia in that it has built and retained a national culture around a traditional monarchical institution Moreover this culture has also been based on a dominant religious tradition that of Theravada Buddhism The process of creating the modern nation state of Thailand out of the traditional Buddhist kingdom of Siam began in the nineteenth century when the rulers of Siam confronted with increasing pressure from the colonial powers of Britain and France were able to preserve their country's independence by instituting revolutionary changes that established the authority of a centralized bureaucracy throughout the country The new state asserted its authority not only over Siamese who lived in the core area of the old kingdom but also over large numbers of Lao Yuan or Northern Thai Khmer Malays tribal peoples and other groups all of which had previously enjoyed relative autonomy and over the sizable immigrant Chinese population which was assuming an increasingly significant role in the economy Because the rulers of the Siamese state strove to incorporate these diverse peoples into a Thai national community how this community should be defined and what type of state structure should be linked with it have been dominant questions in modern Thai history Significant tensions have arisen from the efforts by members of the Thai elite to make the monarchical traditions of the Bangkok dynasty Buddhism and the central Thai language basic to Thai national culture Other tensions have arisen as monarchy military bureaucracy the Buddhist sangha business interests and elected political representatives assert or maintain an authoritative position in the state structure This book examines these tensions with reference to the major changes that have taken place in Thai society economy polity and culture in the twentieth century especially since World War II Forest Guardians,

Forest Destroyers Tim Forsyth, Andrew Walker, 2011-07-01 In this far reaching examination of environmental problems and politics in northern Thailand Tim Forsyth and Andrew Walker analyze deforestation water supply soil erosion use of agrochemicals and biodiversity in order to challenge popularly held notions of environmental crisis They argue that such crises have been used to support political objectives of state expansion and control in the uplands They have also been used to justify the alternative directions advocated by an array of NGOs In official and alternative discourses of economic development the peoples living in Thailand s hill country are typically cast as either guardians or destroyers of forest resources often depending on their ethnicity Political and historical factors have created a simplistic misleading and often scientifically inaccurate environmental narrative Hmong farmers for example are thought to exhibit environmentally destructive practices whereas the Karen are seen as linked to and protective of their ancestral home Forsyth and Walker reveal a much more complex relationship of hill farmers to the land to other ethnic groups and to the state They conclude that current explanations fail to address the real causes of environmental problems and unnecessarily restrict the livelihoods of local people The authors critical assessment of simplistic environmental narratives as well as their suggestions for finding solutions will be valuable in international policy discussions about environmental issues in rapidly developing countries Moreover their redefinition of northern Thailand s environmental problems and their analysis of how political influences have reinforced inappropriate policies demonstrate new ways of analyzing how environmental science and knowledge are important arenas for political control This book makes valuable contributions to Thai studies and more generally to the fields of environmental science ecology geography anthropology and political science as well as to policy making and resource management in the developing world

Understanding Southeast Asia Lindsay Falvey, 2015 Understanding Southeast Asia points to the wisdom of seeking common factors that unite regional worldviews This fresh and possibly more Asian perspective complements other Western style empirical analyses that rely on differences to explain traits of the region and its peoples In various ways this book provides a context for scholarly works on specific places technological studies and the nation building stories of the new countries that make up the region Beginning with the common origins of Southeast Asia s peoples and languages their shared heritage is emphasized through agricultural archeological cultural geographical historical linguistic religious and technological fields Perennially defined by rice stability and commerce Southeast Asia has evolved a common trading ethic and morality influenced by China and India long before a short European colonial interlude Historically known as a Golden Land the region exudes a resilience founded in millennium long traditions that are today

expressed through local adaptations of world religions In acknowledging the region's integrated worldviews and tolerance of opposing approaches this work will inform a new generation of Western understanding about Southeast Asian politics decision making and ASEAN It will also support the young educated elite of the region to see themselves in a new and proud light Sharing Jesus Effectively in the Buddhist World David Lim, 2005-06-01 This is the third book in the Sharing Jesus in the Buddhist World series written by evangelical mission reflective practitioners who are committed to developing more effective ways to win the Buddhist peoples to the Lord Jesus Christ The opening chapter describes The Changing Demographic Context of Global Buddhism the next six describe some of the best models of mission approaches for reaching Buddhists and the last four depict some past and present people movements or church planting movements *Metropolis And Nation In Thailand* Bruce London, 2019-03-13 This qualitative study of the relationships between one primate city Bangkok and its hinterland the Thai nation breaks new ground in general sociological theory redirects the study of city hinterland relationships and presents an interpretation of Thai political history that departs significantly from conventional analyses Professor London f **Cultural Crisis and Social Memory** Charles F. Keyes, Shigeharu Tanabe, 2013-10-18 This book explores social memory in the context of cultural crises of modernity in Thailand and Laos It explicates the ways in which social memory constructed by the people enters modernity and how this in turn causes fundamental ruptures with their past as well as the various ways cultural crises are experienced in their lives The essays in this book consider how in these crises the people constitute their cultural social or individual identities particularly focusing on the theoretical issues of identifications and their relevance to distinct historical processes in Thailand and Laos Both countries particularly in the two decades since the 1970s have been undergoing radical social and economic changes Whilst Thailand has travelled down the road to industrialization neighbouring Laos experienced a communist revolution in 1975 and only since the late 1980s has attempted to follow a reformist path to development Increasingly influenced by globalised economic and social institutions both countries have come to face crises that have made people insecure in the present and anxious about the future

Lanna a region centered in today's northern Thailand By examining the stories themes structures and motifs she illuminates the complex conceptual and material aspects of Buddha images that influenced their functions in Lanna society Buddha images were depicted as social agents and mediators the focal points of pan regional political religious lineages and rivalries indeed as the very generators of history itself In the chronicles Buddha images also unified the Buddha with the northern Thai landscape thereby integrating Buddhist and local conceptions of place By comparing Thai Buddha statues with other representations of the Buddha the author underscores the contribution of the Thai evidence to a broader understanding of how different types of Buddha representations were understood to mediate the presence of the Buddha The Buddha in Lanna focuses on the Thai Buddha image as a part of the wider society and history of its creators and worshippers beyond monastery walls shedding much needed light on the Buddha image in history With its impressive range of primary sources this book will appeal to students and scholars of Buddhism and Buddhist art history Thai studies and Southeast Asian religious studies *Memoirs of the College of Agriculture, Kyoto University* Kyōto Daigaku.
