Stuff Gary Cross,1999-11-15 To sort out who s who and what s what in the enchanting vexing world of Barbies R and Ninja
Turtles R Tinkertoys R and teddy bears is to begin to see what s become of childhood in America It is this changing world and
what it unveils about our values that Gary Cross explores in Kids Stuff a revealing look into the meaning of American toys
through this century Early in the 1900s toys reflected parents ideas about children and their futures Erector sets introduced
boys to a realm of business and technology while baby dolls anticipated motherhood and building blocks honed the fine motor
skills of the youngest children Kids Stuff chronicles the transformation that occurred as the interests and intentions of
parents children and the toy industry gradually diverged starting in the 1930s when toymakers marketing playthings inspired
by popular favorites like Shirley Temple and Buck Rogers began to appeal directly to the young TV advertising blockbuster
films like Star Wars R and Saturday morning cartoons exploited their youthful audience in new and audacious ways
Meanwhile powerful social and economic forces were transforming the nature of play in American society Cross offers a
richly textured account of a culture in which erector sets and baby dolls are no longer alone in preparing children for the
future and in which the toys that now crowd the racks are as perplexing for parents as they are beguiling for little boys and
girls Whether we want our children to be high achievers in a competitive world or playful and free from the worries of adult
life the toy store confronts us with many choices What does the endless array of action figures and fashion dolls mean Are
children or parents the dupes of the film television and toy industries with their latest fads and fantasies What does this say
about our time and what does it bode for our future Tapping a vein of rich cultural history Kids Stuff exposes the serious

 the physical material body still have in a world of virtual reality and genetic cloning How do technology and postmodern
 rhetoric influence our understanding of the body And how can our discussion of the body affect the way we handle crises in
 public policy the politics of race and ethnicity issues of family values that revolve around sexual and gender identities the
 choices revolving around reproduction and genome projects and the spread of disease Leading scholars in rhetoric and
 communication as well as literary and cultural studies address some of the most important topics currently being discussed
 in the human sciences The essays collected here suggest the wide range of public arenas in which rhetoric is operative from
 abortion clinics and the World Wide Web to the media s depiction of illiteracy and the Donner Party These studies
 demonstrate how the discourse of AIDS prevention or Demi Moore s beautiful pregnancy call to mind the physical nature of
 being human and the ways in which language and other symbols reflect and create the physical world Kids' Stuff Linda
 Foa, Geri Brin, 1979 *Sibling Abuse Trauma* John V. Caffaro, 2013-08-22 This book describes an integrative strengths based
 approach to individual and family psychotherapy guided by the effects of abuse trauma on the development of sibling
 relationships It fills a void in the training and education of family violence professionals and validates sibling experiences as
 an important part of human development The second edition has been revised and updated to reflect more than 15 years of
 advances in the child maltreatment field Current essential information on sibling development is provided to clarify the
 context in which sibling relationships unfold and research on sibling relationships throughout the life course is incorporated
 into a clinical approach for treating victims and survivors This second edition much like the first focuses primarily on
 assessment and treatment Rather than choosing to concentrate solely on sibling sexual abuse or assault the book applies a
 more inclusive integrative approach to the study of sibling abuse trauma The clinical material and experiences portrayed
 take a trauma informed systemic orientation and represent children families and adults who may not have been described
 adequately elsewhere Concrete illustrations and extended session transcripts demonstrate therapeutic principles in action
 Whether you incorporate these findings into your clinical practice or become inspired to conduct your own research *Sibling
