The Kondratieff Waves:

The Kondratieff Waves Nathan Mager, 1987 A study of the Kondratieff Wave Theory in light of current evidence and experience The book is aimed at anyone interested in general economic history economic theory and business cycles and Kondratieff cultists

Kondratieff Waves: Dimensions and Prospects at the Dawn of the 21st Century Leonid Grinin, Tessaleno Devezas, Andrey Korotayev, 2012-05-30 Kondratieff waves constitute a sort of mystery that has been haunting economic and social researchers for almost a century Why do we observe such regularity in the long term behavior of economic and non economic indicators Why in certain periods do we observe prolonged upswings whereas in other periods notwithstanding all the enormous efforts of interested macroeconomic actors economic development is accompanied by prolonged depressions What gets out of order in social and economic mechanisms Since the seminal works published by Kondratieff a number of outstanding researchers have made significant contributions to our understanding of the possible factors affecting and provoking long term fluctuations of human economic affairs On the other hand it has become more and more clear that K waves influence many social related processes However nobody appears to have found yet an entirely satisfactory solution of Kondratieff's mystery and it continues to attract researchers That is why we have decided to try to unite the forces of such researchers around the new almanac This first issue offers a wide panorama of views on the Kondratieff waves phenomenon here one can also find information on Kondratieff's life and works This edition will be useful for economists social scientists as well as for a wide circle of those interested in the problems of the past present and future of world economics and globalization

KONDRATIEFF WAVES Leonid E. Grinin, Tessaleno C. Devezas, Andrey V. Korotayev, Sergey Yu. Malkov, Arno Tausch, Brian J. L. Berry, Euel Elliott, Marco Gallegati, Zenonas Norkus, Valentina M. Bondarenko, Stephen I. Ternyik, Elżbieta Mączyńska, William R. Thompson, Leo Nefiodow, Anthony Harper, Though the researchers of the theory of long and medium term cycles are certainly worried about the economic situation they understand that the cyclicity still remains an inevitable attribute of economic development And Juglar's aphorism that crisis is a consequence of the preceded prosperity is still true In this third issue of the Yearbook Kondratieff Waves with the subtitle *Cycles Crises and Forecasts* we present a number of insight contributions on nature regularities and interconnections among cycles of different duration Some economic cycles may result in a severe economic crisis The current one shows once again the importance of the study of cyclical dynamics and its peculiarities Between the 1980s and 1990s the Keynesian receipts were replaced by neoliberal and monetarist ones which seemed to be miraculous as well The depleted growth was marked with the largest global crisis of 2008 which also showed that within globalization when regulation in the international arena is impossible yet there recur the signs of Juglar cycles of the 19th and first half of the 20th centuries with their uncontrollable upwards and sharp declines evolving into collapses and panic This is supported by the fact that for eight years the world has been at the depressive phase This edition will be useful for economists social scientists as well as for a wide

range of those interested in the problems of the past present and future of global economy and globalization This research has been supported by the Russian Foundation for the Humanities Project No 16 02 14053 **KONDRATIEFF WAVES** Leonid E. When the Stakes Are High Vesna Danilovic, 2010-06-04 When the Stakes Are High is based on the premise that powers have continually played a decisive role in international conflicts Consequently one of the key questions concerns the conditions that are likely to trigger or abate dispute escalation into major power conflicts In this book Vesna Danilovic provides a rigorous theoretical and empirical analysis of these conditions Since the most precarious and common form of dispute between major powers arises over third nations the author s primary focus is on so called extended deterrence In this type of deterrence one side attempts to prevent another side from initiating or escalating conflict with a third nation When the Stakes Are High addresses such questions as When is extended deterrence likely to be effective What happens if deterrence fails In what circumstances is war likely to result from a deterrence failure The author s main argument is that a major power s national interests which shape the inherent credibility of threats and which are shaped by various regional stakes set the limits to the relevance of other factors which have received greater scholarly attention in the past Strongly supported by the empirical findings the arguments in this work draw important implications for conflict theory and deterrence policy in the post Cold War era This book will appeal to the reader interested in international relations in general and in theories of international conflict deterrence causes of wars great power behavior and geopolitics in particular Vesna Danilovic is Assistant Professor of Political Science Texas A M University

Development, Growth and Finance of Organizations from an Eastern European Context Sebastian Vaduva, Ioan S. Fotea, Andrew R. Thomas, 2017-05-23 This

book explores challenges and approaches to the development financial management and growth of Eastern European organizations both public and private Including papers derived from the 2015 Griffiths School of Management Annual Conference on Business Entrepreneurship and Ethics GSMAC organized by Emanuel University of Oradea the authors provide a variety of strategies for growth and development in areas such as IT medical management marketing entrepreneurship and family business Collectively these contributions provide a problem solving framework that tackles such questions as How are the growth and financial models of organizations changing How should leadership in organizations adapt in order to ensure sustainable growth How should educational concepts and methods be improved to help the next generation in the new global business environment The rapid evolution of technology and innovation has changed the face of the business environment With new actors in the global marketplace and new means of production marketing and finance businesses particularly those in emerging regions such as Eastern Europe are faced with the pressure to rethink their structures and models from within In this new economic climate common issues such as corruption risk and customer satisfaction need to be examined from a globalized perspective The goal of the 2015 GSMAC conference and the resulting papers is to help organizations and institutions in Eastern Europe and other developing regions formulate strategies and policies to thrive in this environment and promote sustainable management practices

Technological Innovation

Laurier Schramm,2017-12-18 The book provides a basic introduction on innovation technology in research and industry mainly chemical technical industry and therefore bridges the gap between academic and corporate markets The different innovation stages are discussed and tools presented how to successfully apply this knowledge within a research organization

Future Fear John Potts,2024-07-15 This book places the contemporary fear of climate change in historical perspective showing that throughout human history the dominant perspective on the future has been one of fear Across a broad historical sweep the book describes the varied means employed to predict and control the future magic religion science and technology *Future Fear* traces fear of the future from prehistory to the present culminating in the contemporary fear of imminent climate change catastrophe Consideration is also given to hope in a more positive future revealing that visions of the future have often been a mingling of fear and hope

All the Same - All Being New Peter Herrmann,2011 The book gathers different contributions they can all be linked to recent orientations by the main contributor Paul Boccara who states the need for a new mod le anthropomique According to the work of the well known French academic and political activist the current challenges need more than a simple change of the economic system even if such reorientation is surely also needed and has to be in itself far reaching However going beyond economic changes the challenge of the time has to face the need to redefine the position and role of humanity in the wider relationship to others and to nature The contributions gathered in the present volume are discussing both generic questions of such revolutionary processes and the need of changes in concrete areas as labour market policies political strategies financial control and the like
