Risch,2015-10-23 It was early Spring in 1979 when a friend of mine told me he was driving up a mountain road towards the summit He said he had no idea what he was doing or where he was going He had gotten into the car and just started to drive He was just trying to get away from all his troubles Many of us have gone through this kind of thing in our lives Just packing up and getting away from it all I can think of a couple of times I have wanted to do the same thing Life can be unbearable to the point of getting away from it Or even ending it Life is not a smooth ride When we think of life without end that can sound terrible if you are living a life full of troubles We want to think that when we die we just stop and that s it Everything just ends We think it is like going to sleep and we rest from life s troubles That s a nice thought but I am afraid it is not reality Everyone has their own opinion on what happens after death but that s what it is An Opinion Facts have not entered the picture What I am about to do is look at the subject of death and life and I put them in this order because that is the way it is Most people look at it the opposite we are alive and then we die but when you look at it in the right order it starts to make sense Now I don t want to get ahead of myself so let us hold that thought until later Now that you have an idea on what we are going to look at and if you have an interest in this subject let us move on *Fire Management Today* ,2000 **Man mortal: being a reply to Mr. F.
