Tenochtitlan where his deeds were recorded in hieroglyphic inscriptions on monuments and his command was expressed in highly refined ritual performances What did Moteuczoma's fame mean in the Aztec world How was it created and maintained In this innovative study Patrick Hajovsky investigates the king's inscribed and spoken name showing how it distinguished his aura from those of his constituencies especially other Aztec nobles warriors and merchants who also vied for their own grandeur and fame While Tenochtitlan reached its greatest size and complexity under Moteuczoma the Great Speaker innovated upon fame by tying his very name to the Aztec royal office As Moteuczoma's fame transcends Aztec visual and oral culture Hajovsky brings together a vast body of evidence including Nahuatl language and poetry indigenous pictorial manuscripts and written narratives and archaeological and sculptural artifacts The kaleidoscopic assortment of sources casts Moteuczoma as a divine king who while inheriting the fame of past rulers saw his own reputation become entwined with imperial politics ideological narratives and eternal gods Hajovsky also reflects on posthumous narratives about Moteuczoma which created a very different sense of his fame as a conquered subject These contrasting aspects of fame offer important new insights into the politics of personhood and portraiture across Aztec and colonial period sources Keweenaw National Historical Park, Michigan United States. The Electric Pullman Lawrence A. Brough, 2013-04-18 A history of the Ohio railroad car and equipment company and its 16 year run Entering an already crowded and established industry the Niles Car Manufacturing Company in Ohio began business with surprising success producing well over 1 000 electric and steam railway cars cars so durable they rarely needed to be replaced That durability essentially put the company out of business and it vanished from the scene as quickly as it had appeared leaving little behind except its sturdy railway cars The story of this highly regarded company spans just 16 years from Niles s incorporation in 1901 to the abandonment of railway car production and sale of the property to a firm that would briefly build engine parts during World War I Including unpublished photographs and rosters of railway cars produced by the company and still in existence in railroad museums The Electric Pullman will appeal to railroad enthusiasts everywhere Praise for The Electric Pullman Required reading for anyone interested in interurban history It holds additional appeal for those interested in Ohio history or the junction point between business society and technology Lexington Quarterly Although not one of the major manufacturers in its field the Niles company produced some notable and well remembered equipment during the height of the electric interurban railway era Indeed among some interurban railway historians Niles cars are sacred objects As such its story deserves to be told and theoretically would be a logical complement to IUP s books on the Brill and Jewett companies Brough himself is a serious historian who knows his subject and has clearly mined all the sources that seem to exist Herbert H Harwood Jr author of The Railroad that Never Was and The New York Westchester Boston Railway
