Ladies' Miscellany ,1830 The Principle of Proportionality, Solvency II and Captives Marta Ostrowska,2025-03-05

This book offers an in depth analysis of the principle of proportionality in the EU insurance regulatory regime It takes a critical look at how proportionality has been implemented in Solvency II and tests its effectiveness on captive re insurance undertakings Given their unique business model captives are considered the primary beneficiary of proportionality and therefore offer the perfect litmus test for the principle s effectiveness In a world characterized by overregulation and increasingly complex financial markets governments and policymakers face the challenge of regulating markets without hindering their growth As one size fits all approaches have long since been recognized as detrimental the EU is seeking to develop a regulatory technique which allows more individual regulatory treatment while ensuring a level playing field The first revolutionary step towards this goal was taken in Solvency II Directive 2009 138 EC which introduced a principle of proportionality to the EU insurance market The principle is a unique tool which makes it possible to adjust the requirements of the Solvency II framework to the nature scale and complexity of each individual insurance undertaking s risk profile It is intended to help remove an unnecessary regulatory burden for insurance undertakings and to prevent the proliferation of regulations in general However the practical implementation of proportionality is not without its share of obstacles The principle s generic nature and the lack of guidance have caused a great deal of confusion regarding its practical application and prevented insurance undertakings from using its benefits to the fullest Consequently the principle of proportionality has been subject to revision within the first Solvency II review process The book will benefit captive owners captive managers regulators supervisors practitioners academics students and more generally all those involved with or interested in the insurance market **Dakota Cross-Bearer** Mary E. twentieth century missionary activity among Native communities and illuminates instances of conflict and discrimination within the Episcopal Church the processes of clerical training and testing and the demands of constant relocation Mary E Cochran is the wife of an Episcopal bishop who worked on the Standing Rock Reservation and who later was named bishop of Alaska She and her husband live in Tacoma Washington Raymond A Bucko S J a Catholic priest is the director of the Native American Studies Program and an associate professor of anthropology at Creighton University He is the author of *The Lakota Ritual of the Sweat Lodge History and Contemporary Practice Nebraska* 1998 Martin Brokenleg an enrolled member of the Sicangu Lakota is a professor of Native American studies at Augustana College and an Episcopal priest He is a coauthor of *Reclaiming Youth at Risk Our Hope for the Future Omar ; Or, The Captive's Escape* A citizen of Oxford,1852

Sharp,2024-01-26 During the late 1800s and early 1900s it was common practice for milliners to decorate women s hats with birds feathers and plumes and sometimes with the birds themselves As many as 300 million birds per year were killed for this fashionable enterprise causing the extinction of some entire species and the endangerment of others Lawmakers and bird aficionados were slow to react to the effects of this practice which went on almost unabated for a quarter of a century Then noted naturalists like George Bird Grinnell William T Hornaday and President Theodore Roosevelt who recognized the economic benefits birds provided banded together to pass meaningful legislation to protect them and to curb the production of murderous millinery This book explores the troubled history of millinery and its complicated relationship to birds and conservation It explores why it took so long for the slaughter to end and how the efforts of individuals and groups brought about change
