Eukel,2013-12-24 When magazine journalist Jonathan Tame arrives on the Caribbean island of Puerto Rico after an alleged devastating hurricane has struck the Island it doesn't take long for the nearly burned out writer to reawaken his investigative training There is a ton of money being poured into emergency coffers but only a small portion has been allocated for repairs Following the money trail he discovers that a powerful entity is attempting to control the U S government and other world leaders The cash flow seems to be related to some secret project that is intended to disarm all of them And further that ancient archaeological artifacts discovered years before and said to have immeasurable power may be the core reason behind the whole thing In his pursuit of the truth he finds that he is not alone other investigators are moving in the same direction it is when their paths intersect that all of hell is stirred up **Spindrift** Curious Directive (Norfolk),2016-08-03 Quantum mechanics is one of those topics that is always just there in a like a super I m so clever conversation about the grey areas of science You know two places at once walk through walls kind of stuff It is attractive It is attractive because it is so spooky In a cold converted garage by the sea a science podcast troupe rehearse their next episode Spindrift follows three sisters as they untangle what happened to their father when he disappeared whilst sailing around the world 20 years ago A mysterious heart breaking triptych Spindrift traces the invisible waves orchestrating the boundaries of the natural world and examines family endurance and the paths we choose Two time Fringe First winning curious directive tell their story with trademark visual storytelling with 3D animation video projection and motion capture technology Spindrift is a life affirming story for anyone who has sat on the shore and stared out to sea for hours on end

Welzenbach,2016-03-15 The CIA's 2013 release of its book *The Central Intelligence Agency and Overhead Reconnaissance 1954-1974* is a fascinating and important historical document. It contains a significant amount of newly declassified material with respect to the U-2 and Oxcart programs including names of pilots, codenames and cryptonyms, locations, funding and cover arrangements, electronic countermeasures, equipment, cooperation with foreign governments and overflights of the Soviet Union, Cuba, China and other countries. Originally published with a Secret No Foreign Dissemination classification, this detailed study describes not only the program's technological and bureaucratic aspects but also its political and international context, including the difficult choices faced by President Eisenhower in authorizing overflights of the Soviet Union and the controversy surrounding the shoot down there of U-2 pilot Francis Gary Powers in 1960. The authors discuss the origins of the U-2, its top secret testing, its specially designed high altitude cameras and complex life support systems, and even the possible use of poison capsules by its pilots if captured. They call attention to the crucial importance of the U-2 in the gathering of strategic and tactical intelligence as well as the controversies that the program unleashed. Finally, they discuss the CIA's development of a successor to the U-2, the Oxcart, which became the world's most technologically advanced aircraft. For the first time, the more complete 2013 release of this historical text is available in a professionally typeset format, supplemented with higher quality photographs that will bring alive these incredible aircraft and the story of their development and use by the CIA. This edition also includes a new preface by author Gregory W. Pedlow and a foreword by Chris Pocock. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history, books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home. **Best Sellers**, 1968 **All at Sea** Ben Little, 2025-03-31 Josh and Sam have washed away the baggage of their lives sailing the All

at Sea through the clear blue waters of the Caribbean. After two years afloat, they plan a return cruise to Europe, seeking new adventures in the Mediterranean. While preparing for the voyage in the British Virgin Islands, Sam gets a surprise nighttime visit from Tortola local and petty villain Leroy. Their two newly recruited crew appear so innocent, but are they entangled somehow with Leroy and his boss Felix, who seem to have developed an unhealthy interest in the All at Sea? Why are the Spanish Customs Service, the DEA, and the Columbian Cartel so interested in the Virgin Islands and its yachting community? The cruise to Europe may not be the smooth sailing they are hoping for. The North Atlantic Ocean also has some surprises to throw at them as they battle for the safety of the Spanish Coast. **"Frank Forester's" Horse and Horsemanship of the United States and British Provinces of North-America.
