## **The Last Religion:**

*Loud Thoughts on Religion* Rafig Y. Aliyev, 2013-06 The book *Loud Thoughts on Religion* has a small prehistory In 2003 there was held a session of the Parliamentary Assembly of the Council of Europe in Vienna Austria On the agenda of the session there was an issue of the study of religion at school and rise in the level of tolerance among followers of the world religions Judaism Christianity and Islam The author of the book made a speech and criticized the system of the study of religion existed in the West then on a free day representatives of religion attend schools select a group of religion representatives and teach basics of religion to children in different audiences This method indeed lays the foundation of non tolerance at the school age Naturally by explaining children their religious belonging every priest puts his religious convictions above others This cannot be otherwise Pupils individually understand that their religion is better and take others as representatives of less important religion The author suggested his variant of approach to the study of religion having made an emphasis on combined study of the history of appearance of religion as they appeared and showing fundamental regulations of every religion He suggested not providing children with religious education as such leaving that for pupils and their parents The session participants liked this pragmatic approach and they charged Prof Rafig Y Aliyev unofficially with preparing the book and submitting it for consideration of PACE Special Commission Thus the author idea was reflected in the book as a religion textbook at school The book was translated into several languages and distributed among the commission members Over 10 years has passed since then and the textbook is still used as basic book on religion *Loud Thoughts on Religion* provides primary information about the nature and origin of religion It is an attempt to give a correct vision of national and cultural heritage of Azerbaijan and religion of Islam which is an integral part of the modern way of life Readers will be able to find interesting materials about the appearance of Islam Muslim rites of worship and worldview principles role of Islam in society and the influence it has on spiritually and culture Classical Approaches to the Study of Religion Jacques Waardenburg, 2017-01-23 Waardenburg s magisterial essay traces the rise and development of the academic study of religion from the mid nineteenth to the mid twentieth century outlining the establishment of the discipline its connections with other fields religion as a subject of research and perspectives on a phenomenological study of religion Furthermore a second part comprises an anthology of texts from 41 scholars whose work was programmatic in the evolution of the academic study of religion Each chapter presents a particular approach theory and method relevant to the study of religion The pieces selected for this volume were taken from the discipline of religious studies as well as from related fields such as anthropology sociology and psychology to name a few *Reason, Freedom, and Democracy in Islam* Abdolkarim Soroush, 2000-04-20 Abdolkarim Soroush has emerged as one of the leading moderate revisionist thinkers of the Muslim world He and his contemporaries in other Muslim countries are shaping what may become Islam s equivalent of the Christian Reformation a period of questioning traditional practices and beliefs and ultimately of upheaval Presenting eleven of his essays this volume

makes Soroush's thought readily available in English for the first time. The essays set forth his views on such matters as the freedom of Muslims to interpret the Qur'an, the inevitability of change in religion, the necessity of freedom of belief, and the compatibility of Islam and democracy. Throughout, Soroush emphasizes the rights of individuals in their relationship with both government and God, explaining that the ideal Islamic state can only be defined by the beliefs and will of the majority.

**Sacralizing the Nation through Remembrance of Medieval Religious Figures in Serbia, Bulgaria and Macedonia** Stefan Rohdewald, 2022-05-20

Religious figures of remembrance served to consolidate first dynastic rule and later nation state legitimacy and community. This book explains the interweaving of Eastern Roman, medieval Serbian and Bulgarian contexts as well as Ottoman and Western European national discourses or reinvented traditions. We can distinguish a secularization and nationalization of the religious contexts in the 19th century within historicism, followed by a nationalization of God and a sacralization of the nation until the end of WWII. Contrary to the national views, the origins of the modern content of these discourses lie only to a very limited extent in the Middle Ages or in the Early Modern period, as this study shows. [A Concordance of the Qur'an](#) Hanna E. Kassis, 2023-11-03

From the Foreword: This Concordance of the Qur'an in English satisfies a paramount need of those and there are millions of them who have no command of the Arabic language and yet desire to understand the Qur'an. The benefit derivable from English translations of the Sacred Book is in principle limited because first the Qur'an is not a book but a collection of passages revealed to Muhammad over a period of about twenty-three years, and second because the Qur'an is not really translatable. This does not mean that the Qur'an should not be translated; it does mean that translations lose much in tone and nuance, let alone the incommunicable beauty, grandeur, and grace of the original. The main distinction of Hanna Kassis's concordance, in my view, is that it utilizes the semantic structure of Arabic vocabulary itself in revealing the meaning of the Qur'an on any given issue, point, or concept. A reader who looks in the index of this concordance for a word which he has encountered in reading an English translation of the Qur'an, the word *pride*, for example, is directed immediately to the roots of the Arabic Qur'anic terms for *pride*. At the entries for these Arabic roots, all the derivative forms are shown, and the

verses of the Qur'an in which they appear are there listed in translation I am confident that any person who is sincerely interested in understanding the Qur'an and appreciating the nuances of its diction and shades of its meaning can satisfy his need more fully with this book than in any way short of developing a real command over the Arabic language itself Fazlur Rahman Professor of Islamic Thought University of Chicago From the Foreword This Concordance of the Qur'an in English satisfies a paramount need of those and there are millions of them who have no command of the Arabic language and yet desire to understand the Qur'an The benefit derivab **The New Schaff-Herzog Encyclopedia of Religious Knowledge** Johann Jakob Herzog, Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1909
