Problems of Communism ,1979      *The Making of Détente* Keith L. Nelson,2019-12-01 Originally published in 1995 In the early 1970s largely as a result of the debilitating struggle in Vietnam the United States began to reassess and redefine its basic approach to East West relations At the same time the Soviet Union was awakening to the liabilities that a continuing and unregulated state of hostility would impose on its own internal and external agenda Keith Nelson details the circumstances and traces the steps that led to the first significant accommodation and easing of tension between the superpowers during the Cold War In this important study Keith Nelson explains the detente period in an imaginative convincing and impressively scholarly manner Although there have been scores of books and memoirs on the subject none have done the job quite like Nelson s In particular he has used post glasnost Russian memoirs and monographs and especially his own interviews with such key players as Dobrynin and Arbatov to present one of the most intelligent Kremlinological studies I have ever seen Melvin Small Wayne State University      *Havel* David Gilbreath Barton,2021-10-05 This is the story of a man who tried to resurrect the spirit of democratic life He was born into a time of chaos and absurdity and he took it as his fate to carry a candle into the night This is his story and the story of many others the writers artists actors and philosophers who took it upon themselves to remember a tradition that had failed so miserably it had almost been forgotten V clav Havel 1936 2011 the famous Czech dissident intellectual and playwright was there when a half million people came to Wenceslas Square to demand an end to Communism in 1989 Many came to hear him call for a free Czechoslovakia for democratic elections and a return to Europe The demonstrators roared when he spoke Havel to the castle they chanted meaning Havel for president And a few weeks later Havel became a most unusual president He was sometimes misunderstood and not always popular but by the time of his death in 2011 the world recognized Havel as one of the most prominent figures of the twentieth century Born into one of the most prominent and wealthy families in Prague Havel was the constant subject of attention and an artistic eccentric in a family of businessmen A young Havel and his family were cast by the Communist takeover as class enemies Havel traveled a dark road that ironically provided the experiences he needed to reconnect not only to his own ground of being but to the traditions of civic society This biography is the story of Havel s inward journey in his underground years and thus the story of how Havel the outsider became the ultimate insider as president of the nation In this intimate and sweeping portrayal of Havel David Barton reveals the eccentricities of the last president of Czechoslovakia and the first president of the Czech Republic      **The Underside of Politics** Sorin Radu Cucu,2013-06-21 This book argues that during the Cold War modern political imagination was held captive by the split between two visions of universality freedom in the West versus social justice in the East and by a culture of secrecy that tied national identity to national security Examining post 1945 American and Eastern European interpretive novels in dialogue with each other and with postfoundational democratic theory *The Underside of Politics* brings to light the ideas forces and

circumstances that shattered modernity's promises such as secularization autonomy and rights on both sides of the Iron Curtain In this context literary fictions by Kundera and Roth Popescu and Coover Ki and DeLillo become global as they reveal the trials of popular sovereignty in the fog of the Cold War and trace the elements around which its world discourse or global picture is constructed the atom bomb Stalinist show trials anticommunist propaganda totalitarian terror secret military operations and political targeting

**Comecon** J. J. Brine, 1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people's democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon's history structure and law socialist economic integration the organization's arrangements for international trade and finance environment natural resources and energy labor industry and agriculture science and technology Comecon like the rest of the Soviet Bloc collapsed suddenly but its legacy will color international relations and worldwide economic issues for years to come An understanding of its institutions mechanisms and policies remains vital in appreciating the economic organization of the former Soviet empire This bibliography will therefore be indispensable to policymakers economists historians and political scientists

After Orientalism , 2014-11-27 The debate on Orientalism began some fifty years ago in the wake of decolonization While initially considered a turning point Edward Said's *Orientalism* 1978 was in fact part of a larger academic endeavor the political critique of colonial science that had already significantly impacted the humanities and social sciences In a recent attempt to broaden the debate the papers collected in this volume offered at various seminars and an international symposium held in Paris in 2010 2011 critically examine whether Orientalism as knowledge and as creative expression was in fact fundamentally subservient to Western domination By raising new issues the papers shift the focus from the center to the peripheries thus analyzing the impact on local societies of a major intellectual and institutional movement that necessarily changed not only their world but the ways in which they represented their world World history

which assumes a plurality of perspectives leads us to observe that the Saidian critique applies to powers other than Western European ones three case studies are considered here the Ottoman Russian and Soviet and Chinese empires Other essays in this volume proceed to analyze how post independence states have made use of the tremendous accumulation of knowledge and representations inherited from previous colonial regimes for the sake of national identity as well as how scholars change and adapt what was once a hegemonic discourse for their own purposes What emerges is a new landscape in which to situate research on non Western cultures and societies and a road map leading readers beyond the restrictive dichotomy of a confrontation between West and East With contributions by Elisabeth All s L on Buskens St phane A Dudoignon Baudouin Dupret Edhem Eldem Olivier Herrenschmidt Nicholas S Hopkins Robert Irwin Mouldi Lahmar Sylvette Larzul Jean Gabriel Leturcq Jessica Marglin Claire Nicholas Emmanuelle Perrin Alain de Pommereau Fran ois Pouillon Zakaria Rhani Emmanuel Szurek Jean Claude Vatin Mercedes Volait
