**David Cressy**

## **The Community Of Kent And The Great Rebellion 1640 1660:**

*The Community of Kent and the Great Rebellion* Alan Everitt, 1973      *The County Community in Seventeenth Century England and Wales* Jacqueline Eales, Andrew Hopper, 2012-07 Honoring the memory of Professor Alan Everitt who advanced the fruitful notion of the county community during the 17th century this volume proposes some modifications to Everitt's influential hypotheses in the light of the best recent scholarship With an important reevaluation of political engagement in civil war Kent and an assessment of numerous midland and southern counties as well as Wales this record evaluates the extraordinary impact of Everitt's book and the debate it provoked Comprehensive and enlightening this collection suggests future directions for research into the relationship between the center and localities in 17th century England      **The**

**Debate on the English Revolution** R. C. Richardson, 1998-12-15 Analyses the different ways in which historians over the last three centuries have tried to explain the causes course and consequences of the English Revolution      **Atlas of the English Civil War** P.R Newman, 2005-06-20 The English Civil War is a subject which continues to excite enormous interest throughout the world This atlas consists of over fifty maps illustrating all the major and many of the minor bloody campaigns and battles of the War including the campaigns of Montrose the battle of Edgehill and Langport Providing a complete introductory history to the turbulent period it also includes maps giving essential background information detailed

accompanying explanations a useful context to events      **Albion's Seed** David Hackett Fischer, 1991-03-14 From 1629 to 1775 argues David Hackett Fischer North America was settled by four great waves of English speaking immigrants The first was an exodus of Puritans from the east of England to Massachusetts 1629 1640 The second was the movement of a Royalist elite and indentured servants from the south of England to Virginia ca 1649 75 The third was the Friends migration the Quakers from the North Midlands and Wales to the Delaware Valley ca 1675 1725 The fourth was a great flight from the borderlands of North Britain and northern Ireland to the American backcountry ca 1717 75 Fischer argues that these folkways have dominated national politics from 1789 to the present and that they still control attitudes towards education government gender violence and much more      Government and Community in the English Provinces, 1700-1870 David

Eastwood, 1997-06-09 In this bold and original study David Eastwood offers a reinterpretation of politics and public life in provincial England He explores the ways in which power was exercised and reconstructs the social and cultural foundations of political authority in provincial England Professor Eastwood demonstrates the crucial role played by local elites in policy making and shows how English public institutions and political culture can only be understood in terms of the long run development of the English state      **The Tudor and Stuart Town 1530 - 1688** Jonathan Barry, 2014-06-17 The Tudor and Stuart Town brings together many of the most important articles in the field of urban history

**Charles I and the People of England** David Cressy, 2015-04-23 The story of the reign of Charles I through the lives of his people Prize winning historian David Cressy mines the widest range of archival and printed sources including ballads sermons speeches letters

diaries petitions proclamations and the proceedings of secular and ecclesiastical courts to explore the aspirations and expectations not only of the king and his followers but also the unruly energies of many of his subjects showing how royal authority was constituted in peace and in war and how it began to fall apart A blend of micro historical analysis and constitutional theory parish politics and ecclesiology military cultural and social history Charles I and the People of England is the first major attempt to connect the political constitutional and religious history of this crucial period in English history with the experience and aspirations of the rest of the population From the king and his ministers to the everyday dealings and opinions of parishioners petitioners and taxpayers David Cressy re creates the broadest possible panorama of early Stuart England as it slipped from complacency to revolution *England Without a King 1649-60* Austin

Woolrych,2008-01-28 Professor Woolrych surveys the establishment and history of the Commonwealth and Protectorate first explaining how the country lost its king and how Oliver Cromwell became Lord Protector Professor Woolrych challenges accepted views on the nature of the Protectorate and finally offers some guidelines to the tangled period between Cromwell's death and the Restoration *The Huguenots in England* Bernard Cottret,1991 This is a much revised version of Professor

Cottret's acclaimed study of the Huguenot communities in England first published in French by Aubier in 1985 *The Huguenots in England* presents a detailed sympathetic assessment of one of the great migrations of early modern Europe examining the social origins aspirations and eventual destiny of the refugees and their responses to their new found home a Protestant terre d'exil Bernard Cottret shows how for the poor weavers carders and craftsmen who constituted the majority of the exiles the experience of religious persecution was at once personal calamity disruptive of home and family and heaven sent economic opportunity which many were quick to exploit The individual testimonies contained in consistory registers contain a wealth of personal narrative reflection and reaction enabling Professor Cottret to build a fully rounded picture of the Huguenot experience in early modern England In an extended afterword Professor Emmanuel Le Roy Ladurie considers the Huguenot phenomenon in the wider context of the contrasting British and French attitudes to religious minorities in the early modern period **Parliaments, Politics and Elections, 1604-1648** Chris R. Kyle,2001-09-17 Highlights the breadth

of surviving material for seventeenth century Parliaments in England Routledge Library Editions: English Civil War Various Authors,2022-08-12 Originally published between 1910 and 1991 the volumes in this set cover a relatively big subject especially in the UK and in the area of Early Modern History They provide coherent introductions to a complex period with maps in certain volumes adding lucidity Include broad coverage of social political and judicial history Cover lesser known battles right through from 1639 to 1660 Include letters from private collections between Charles I and Royalist commanders and exiles **The Fall** Henry Reece,2024-06-18 Why did England's one experiment in republican rule fail Oliver Cromwell's death in 1658 sparked a period of unrivalled turmoil and confusion in English history In less than two years there were close to ten changes of government rival armies of Englishmen faced each other across the Scottish border

and the Long Parliament was finally dissolved after two decades Why was this period so turbulent and why did the republic backed by a formidable standing army come crashing down in such spectacular fashion In this fascinating history Henry Reece explores the full story of the English republic's downfall Questioning the accepted version of events Reece argues that the restoration of the monarchy was far from inevitable and that the republican regime could have survived long term Richard Cromwell's Protectorate had deep roots in the political nation the Rump Parliament mobilised its supporters impressively and the country showed little interest in returning to the old order until the republic had collapsed This is a compelling account that transforms our understanding of England's short lived period of republican rule

**Varieties of History and Their Porous Frontiers** Roger C. Richardson, 2021-06-28 Properly understood social history local history and historiography are closely interconnected and benefit from the dialectical relationships which help bind them together The actual topics and individual chapters gathered together in this book are chronologically wide ranging but are demonstrably linked by methodological common denominators and common threads in their northern and southern settings All the essays are squarely based on new research and all reach outwards as well as inwards All are problem solving and all display a vigorous methodology at work Some re visit well known historians and subjects such as W G Hoskins and Joan Thirsk and the Oxford English Dictionary Others like the essays on John Milner and G H Tupling make a convincing case for resurrecting the neglected or forgotten

*Prayer Book and People in Elizabethan and Early Stuart England* Judith Maltby, 2000-08-10 Studies conformity to the Church of England after the Reformation

**The Impact of the English Civil War on the Economy of London, 1642-50** Ben Coates, 2004 The Impact of the English Civil War on the Economy of London 1642-50 examines every sector of London's economy as it changed during the English Civil War It also looks closely at the impact of war on the major pillars of the London economy namely London's role in external and internal trade and manufacturing in London When the war broke out London's economy was diverse and dynamic closely connected through commercial networks with the rest of England and with Europe Asia and North America As such it was vulnerable to hostile acts by supporters of the king both those at large in the country and those within the capital

**The Civil Wars Experienced** Martyn Bennett, 2005-08-18 The Civil Wars Experienced is an exciting new history of the civil wars which recounts their effects on the common people This engaging survey throws new light onto a century of violence and political and social upheaval By looking at personal sources such as diaries petitions letters and social sources including the press The Civil War Experienced clearly sets out the true social and cultural effects of the wars on the peoples of England Scotland Wales and Ireland and how common experiences transcended national and regional boundaries It ranges widely from the Orkneys to Galway and from Radnorshire to Norfolk The Civil Wars Experienced explores exactly how far reaching the changes caused by civil wars actually were for both women and men and carefully assesses individual reactions towards them For most people fear familial concerns and material priorities dictated their lives but for others the civil revolutions provided a positive

force for their own spiritual and religious development By placing the military and political developments of the civil wars in a social context this book portrays a very different interpretation of a century of regicide and republic

**Colonial Chesapeake Society** Lois Green Carr, Philip D. Morgan, Jean B. Russo, 2015-05-18 Proof that the renaissance in colonial Chesapeake studies is flourishing this collection is the first to integrate the immigrant experience of the seventeenth century with the native born society that characterized the Chesapeake by the eighteenth century Younger historians and senior scholars here focus on the everyday lives of ordinary people why they came to the Chesapeake how they adapted to their new world who prospered and why how property was accumulated and by whom At the same time the essays encompass broader issues of early American history including the transatlantic dimension of colonization the establishment of communities both religious and secular the significance of regionalism the causes and effects of social and economic diversification and the participation of Indians and blacks in the formation of societies Colonial Chesapeake Society consolidates current advances in social history and provokes new questions

*Hot Protestants* Michael P. Winship, 2019-02-26 The rise and fall of transatlantic puritanism is told through political theological and personal conflict in this exceptional history Publishers Weekly starred review Begun in the mid sixteenth century by Protestant nonconformists keen to reform England's church and society while saving their own souls the puritan movement was a major catalyst in the great cultural changes that transformed the early modern world Providing a uniquely broad transatlantic perspective this groundbreaking volume traces puritanism's tumultuous history from its initial attempts to reshape the Church of England to its establishment of godly republics in both England and America and its demise at the end of the seventeenth century Shedding new light on puritans whose impact was far reaching as well as on those who left only limited traces behind them Michael Winship delineates puritanism's triumphs and tribulations and shows how the puritan project of creating reformed churches working closely with intolerant godly governments evolved and broke down over time in response to changing geographical political and religious exigencies Among the fairest and most readable accounts of the glorious failure that was trans Atlantic Puritanism The Wall Street Journal Exhilarating popular history convincingly captures in one bold retelling decades of scholarship on Puritanism's origins developments and characteristics Times Literary Supplement Winship has established himself as a leading authority on the history of the Puritans While many works have focused on a specific aspect of Puritan history there are fewer works that show Puritanism as a multinational movement in Europe and the Americas This book fills those gaps Library Journal A Choice Outstanding Academic Title

**Manhood in Early Modern England** Elizabeth A Foyster, 2014-09-25 This is the first book to focus on the relationships which men formed with their wives in early modern England making it an important contribution to a new understanding of English social family and gender history Dr Foyster redresses the balance of historical research which has largely concentrated on the public lives of prominent men The book looks at youth and courtship before marriage male fears of their wives gossip and sexual betrayal and male friendships

before and after marriage Highlighted throughout is the importance of sexual reputation Based on both legal records and fictional sources this is a fascinating insight into the personal lives of ordinary men and women in early modern England

Uncover the mysteries within is enigmatic creation, **The Community Of Kent And The Great Rebellion 1640 1660** .
