The Community Of Knowledge Modern Revivals In Philosophy S:

Revival: Contemporary Indian Philosophy (1936) S. Radhakrishnan, J. H. Muirhead, 2018-12-20 The book includes essays which are all written by philosophers of or about forty five years of age. They fall into two main groups: those in which the writer devotes himself chiefly to the exposition of the great Vedic tradition as he has apprehended it and made it the basis of his own life's work; and those in which the writer, while on the whole remaining true to the spirit of that tradition, has sought to give new interpretations of it either by instituting comparisons of it with the Western doctrines most closely allied to it or by treating of modern problems in a way which though suggested by what he has learned from the West is yet stamped with the mark of his own racial sympathy. Western readers will naturally find the latter group more attractive but this volume will have failed of its purpose if it does not give them some sense of the truth that underlies even the essays with which owing to the presuppositions in which these are founded they find themselves least in sympathy. **Problems of a Sociology of Knowledge (Routledge Revivals)** Max Scheler, 2012-11-12 First Published in 1980 Manfred S Frings translation of *Problems of a Sociology of Knowledge* makes available Max Scheler's important work in sociological theory to the English speaking world. The book presents the thinker's views on man's condition in the twentieth century and places it in a broader context of human history. This book highlights Scheler as a visionary thinker of great intellectual strength who defied the pessimism that many of his peers could not avoid. He comments on the isolated fragmented nature of man's existence in society in the twentieth century but suggests that a World Age of Adjustment is on the brink of existence. Scheler argues that the approaching era is a time for the disjointed society of the twentieth century to heal its fractures and a time for different forms of human knowledge to come together in global understanding. *Books in Print*, 1994 **Revival: Aspects of Judaism (1928)** Rabbi Salis Daiches, 2018-05-08 Addressed to Jews and non Jews alike though aware that these two reader groups were likely to approach the book with very different presuppositions Daiches sets out to define Judaism in relation to philosophy to explain Kant's philosophy through the superiority of halakhah defend a biblically based Jewish interpretation of history and champion Judaism as a religion of freedom guaranteed by halakhah Jewish law **Testimony, Trust, and Authority** Benjamin McMyler, 2011-09-12 Testimony Trust and Authority develops and defends an interpersonal theory of testimony according to which a speaker's testimony provides an audience with a distinctively second personal reason for belief **The Revival of Civil Society** Michael G. Schechter, 2016-07-27 What is meant by the concept of civil society? Why do some equate it with liberal democracy while others think it simply a guise for a market economy? Who benefits from globalization and who loses out? Can civil society prosper in an era of globalization? Can global civil society restrain some of the negative consequences of economic globalization? Through a series of unique case studies and theoretical inquiries this volume provides a set of concrete answers to questions such as these **Whitaker's Books in Print**, 1998 **Beyond the Republican Revival** Eric Ghosh, 2020-10-29 This is the first book length treatment of both the non positive and the positive

liberty strands of the republican revival in political and constitutional theory The republican revival pursued especially over the last few decades has presented republicanism as an exciting alternative to the dominant tradition of liberalism The book provides a sharply different interpretation of liberty from that found in the republican revival and it argues that this different interpretation is not only historically more faithful to some prominent writers identified with the republican tradition but is also normatively more attractive The normative advantages are revealed through discussion of some central concerns relating to democracy and constitutionalism including the justification for democracy and the interpretation of constitutional rights The book also looks beyond republican liberty by drawing on the republican device of sortition selection by lot It proposes the use of large juries to decide bill of rights matters This novel proposal indicates how democracy might be reconciled with constitutional review based on a bill of rights Republicanism is not pitted against liberalism the favoured values and institutions fit with liberal commitments

Democracy, Corruption and the Politics of Spirits in Contemporary Indonesia Nils Bubandt, 2014-06-05 Indonesia has been an electoral democracy for more than a decade and yet the political landscape of the

world's third largest democracy is as complex and enigmatic as ever. The country has achieved a successful transition to democracy and yet Indonesian democracy continues to be flawed, illiberal and predatory. This book suggests that this and other paradoxes of democracy in Indonesia often assume occult forms in the Indonesian political imagination and that the spirit-like character of democracy and corruption traverses into the national media and the political elite. Through a series of biographical accounts of political entrepreneurs, all of whom employ spirits in various but always highly contested ways, the book seeks to provide a portrait of Indonesia's contradictory democracy, contending that the contradictions that haunt democracy in Indonesia also infect democracy globally. Exploring the intimate ways in which the world of politics and the world of spirits are entangled, it argues that Indonesia's seemingly peculiar problems with democracy and spirits in fact reflect a set of contradictions within democracy itself. Engaging with recent attempts to look at contemporary politics through the lens of the occult, *Democracy, Corruption and the Politics of Spirits in Contemporary Indonesia* will be of interest to academics in the fields of Asian Studies, Anthropology and Political Science and relevant for the study of Indonesian politics and for debates about democracy in Asia and beyond. Humanities, 1984. Community-based Traditional Music in Scotland. Josephine L. Miller, 2022-10-17. This book examines the community-based learning and teaching of traditional music in contemporary Scotland with implications for transnational theoretical issues. The book draws on a broad range of scholarship and a local case study of a large organisation. A historical perspective provides an overview of new educational formats emerging from the mid-twentieth century folk music revival in Scotland. Practices through which participants encounter and perpetuate the idiom of traditional music include social music-making, learning by ear and participatory and presentational elements of musical performances. Individuals are shown as combining these aspects with their own learning strategies to participate in the contemporary community of practice of traditional music. The work also discusses how experiences of learning contribute to identity formation, including the role and practice of tutors of traditional music. The author proposes conceptualising the teaching and learning of traditional music in community-based organisations as a pedagogy of participation. **Bloch's Book Bulletin**, 1929. *Exploring Education for Digital Librarians*. Sue Myburgh, Anna Maria Tammaro, 2013-04-17. *Exploring Education for Digital Librarians* provides a refreshing perspective on the discipline and profession of Library and Information Science (LIS) with a focus on preparing students for careers as librarians who can deal with present and future digital information environments. A re-examination of the knowledge base of the field combined with a proposed theoretical structure for LIS provides the basis for this work, which also examines competencies for practice as well as some of the international changes in the nature of higher education. The authors finally suggest a model that could be used internationally to educate librarians for their new roles and social responsibilities in a digitised, networked world. The twelve chapters of this book cover key issues in education for digital librarians, including the necessity of regenerating the profession, current contexts, previous research on education for digital librarians, understanding

the dimensions of the discipline and profession of librarianship and the distinctions between them the social purpose of librarianship as a profession and the theoretical framework which supports the practice of the profession a brief analysis of curriculum design pedagogies and teaching methods and a glimpse of the proactive and important future role of librarianship in society Considers the ubiquitous misunderstanding that technology can replace libraries and librarians Provides a theoretical view of the field which can contribute awareness of dimensions of the dilemmas which the discipline profession currently faces Presents a broad international perspective which provides a basis for a new model for LIS education
