fragments of lost plays by Aeschylus and the surviving portion of Sophocles's satyr drama *The Trackers*. New introductions for each play offer essential information about its first production, plot and reception in antiquity and beyond. In addition, each volume includes an introduction to the life and work of its tragedian as well as notes addressing textual uncertainties and a glossary of names and places mentioned in the plays. In addition to the new content, the volumes have been reorganized both within and between volumes to reflect the most up-to-date scholarship on the order in which the plays were originally written. The result is a set of handsome paperbacks destined to introduce new generations of readers to these foundational works of Western drama art and life.

Volume 2, Tome II: Kierkegaard and the Greek World - Aristotle and Other Greek

Authors Katalin Nun, 2016-12-05. The articles in this volume employ source work research to trace Kierkegaard's understanding and use of authors from the Greek tradition. A series of figures of varying importance in Kierkegaard's authorship are treated, ranging from early Greek poets to late Classical philosophical schools. In general, it can be said that the Greeks collectively constitute one of the single most important body of sources for Kierkegaard's thought. He studied Greek from an early age and was profoundly inspired by what might be called the Greek spirit. Although he is generally considered a Christian thinker, he was nonetheless consistently drawn back to the Greeks for ideas and impulses on any number of topics. He frequently contrasts ancient Greek philosophy with its emphasis on the lived experience of the individual in daily life with the abstract German philosophy that was in vogue during his own time. It has been argued that he modeled his work on that of the ancient Greek thinkers specifically in order to contrast his own activity with that of his contemporaries.

Master Teachers of Theatre Burnet M. Hobgood, 1988. Claribel Baird reviews the interpretation of classical texts for theatrical performance. Howard Bay interrupted his stage design career of more than 150 Broadway productions to help students. Bernard Beckerman asks if there are approaches to the teaching of dramatic literature that particularly suit drama as theatre. Robert Benedetti offers suggestions on the teaching of acting. Oscar Brockett treats the problems of the theatre teacher and the processes of learning. Agnes Haaga shows that the essential quality in heading up child drama programs is a sense of joyous delight. Wallace Smith discusses methods for teaching secondary school theatre. Jewel Walker offers a rare written statement about his work as a theatre teacher. Carl Weber conveys the principles and methodology of his mentor Bertolt Brecht to beginning directors.

The Religion Factor William Scott Green, Jacob Neusner, 1996-01-01. An introduction to religion draws from Christianity, Judaism, Islam, neopaganism, Buddhism, Confucianism and the Australian Aboriginal tradition.

The Collected Writings of Murray Stein - Volume 7 Murray Stein, 2023-07-01. Dr. Murray Stein's prolific career has produced a substantial body of writings, lectures and interviews. His writings captured in these volumes span a wide domain of topics including Christianity, individuation, midlife, the practice of analytical psychology and topics in contemporary society. His deep understanding of analytical psychology is much more than an academic discourse but rather a deeply personal study of Jung that spans nearly half a century. Volume 7 of the Collected Writings of

Murray Stein brings together the author's writings on moral conscience and the problem of evil as developed in the works of C G Jung and other psychologists and philosophers Included are reflections on the nature of evil and the source of evil the importance of becoming conscious of what Jung called the shadow aspect of the personality and the role of the individuation process for containment of shadow enactments Hunting for Justice Kalliopi Nikolopoulou,2025-03-01 A purely political understanding of justice does not convey the cosmological origins of the ancient conception of justice Dik in Aeschylus's Oresteia Drawing from Walter Burkert's anthropology of the hunt in Homo Necans which articulates an ancient cosmology and implies a theory of tragic seriousness that parallels Aristotle's naturalist interpretation of tragedy Hunting for Justice argues that justice is rooted in predation as exemplified by the Furies Although the Oresteia has been read as the passage from the violence of nature to civic justice Kalliopi Nikolopoulou offers an original interpretation of the trilogy the ending of the feud is less an instance of political deliberation as Hegel maintained and more an instance of nature's necessary halting of its own destructiveness for life to resume Extending to contemporary contexts she argues that nature's arbitrariness continues to underpin our notions of justice albeit in a distorted form In this sense Hunting for Justice offers a critique of the political infinitization and idealization of justice that permeates our current discourses of activism and social justice

Dreams in Late Antiquity Patricia Cox Miller,1998-01-11 Centuries By studying together pagan and Christian dreams Cox Miller hopes to reach a better understanding of some fundamental patterns of late antique culture DLGuy G Stroumsa The Journal of Religion A fluent and discursive text This is an adventurous exploration of a range of material which deserves to be more widely known DLGillian Clark The Classical Review **New Visions and New Voices** Clifford Mayes,Jacquelyn Ane Rinaldi,2023-05-25 In this book the contributors expand on their use of Mayes's archetypal pedagogy in volume 1 to apply its principles to a wide variety of venues purposes and projects Each essay explores from its own disciplinary angle the difference between what Mayes has called educational processes which are those practices that take place in the dedicated space of the classroom through the medium of the curriculum and under the stewardship of the teacher and educative acts which are those deep transactions between individuals in joint pursuit of existential truth wherein one is alternately the teacher and student in conversation and sometimes even communion with one's dialogical partner *History of Psychiatry and Medical Psychology* Edwin R. Wallace,John Gach,2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book's chapters e g Mora's Marx's D B Weiner's examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 Short History of Psychiatry discussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks

to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease *Anxiety Veiled* Nancy Sorkin Rabinowitz,1993 What should we make of the prominence of female characters in the plays of Euripides Not Nancy Sorkin Rabinowitz concludes that he was either a misogynist or a feminist before his time Tracking the relationship between male anxiety and female desire in his drama she demonstrates in this rich and incisive book that Euripides plays support a structure of male dominance while simultaneously inscribing female strength **Aeschylus: Persians and Other Plays**,2008-02-28 A new accurate and readable translation of four of Aeschylus plays Persians Seven Against Thebes Suppliants and Prometheus Bound It is based upon the most authoritative recent edition of the Greek text and particular care is taken with the many lyric passages A lengthy introduction sets the plays in their original context and includes short appreciative essays on them The explanatory notes treat dramatic issues structure and form and theatrical aspects as well as details of content and language Major difficulties in the texts themselves which affect general interpretation are briefly discussed The volume as a whole should provide an informative reliable and suggestive basis for study and enjoyment **Representing the Passions** Richard Evan Meyer,2003 Through an interlocking series of texts and images this work explores how extreme sensations such as wonder misery ecstasy and rage have been portrayed at different moments in Western culture Moving across multiple fields of creative endeavour and intellectual inquiry from classical artefacts to Chicano art political protest to operatic performance Rene Descartes s writings on the soul to the Internet s digitised flesh it reveals how the passions have elicited eluded and transformed the act of representation **Choice in Everyday Life** Robert Urquhart,2004-11-27 Social choice and decision making are key topics in economic theory and Robert Urquhart delves into the world of philosophy in this superb new book *Feminism and Ancient Philosophy* Julie K. Ward,2019-07-18 An important volume connecting classical studies with feminism Feminism and Ancient Philosophy provides an even handed assessment of the ancient philosophers discussions of women and explains which ancient views can be fruitful for feminist theorizing today The papers in this anthology range from classical Greek philosophy through the Hellenistic period with the predominance of essays focusing on topics such as the relation of reason and the emotions the nature of emotions and desire and related issues in moral psychology The volume contains some new ground breaking essays on Plato Aristotle and the Stoics as well as previously published pieces by established scholars like Martha Nussbaum and Julia Annas It promises to be of interest to an interdisciplinary audience including those working in classics ancient philosophy and feminist theory Thoreau's Pedagogy

of Awakening Clodomir Barros de Andrade, 2022-02-17 The book is a poetic and philosophic meditation on Thoreau's work highlighting a Pedagogy of awakening that is a path towards a non dual and enlightening experience with Nature a possible answer to the need of addressing the urgency and necessity of our troubled times The urgency stems from a series of crises that humankind is now facing epidemiological environmental social political economic however all those crises as many have already observed might be better understood as different faces or different modes of the same underlying crisis the Anthropocene crisis that is the crisis whose ultimate origins lay at our feet triggered by the way we humans inhabit and impact this world It seems consensual that humankind has never faced such a terrible array of combined crises that for the first time in history puts our very survival as a species in danger A dense fog has alighted on this small and beautiful blue planet and one can only hope that the pains and suffering we have been through for so long are the pangs of a childbirth a new beginning a new promise and not the gaspings of a sclerotic organism that is on the brink of its final collapse Thence the necessity The necessity of a new way of inhabiting this world And I believe that an excellent guide to teach us how to do so is Henry David Thoreau **Lord Byron and the History of Desire** Ian Dennis, 2009 Drawing on the work of Eric Gans and Ren Girard novelist and literary scholar Dennis U of Ottawa contends that British poet Byron 1788 1824 changed his ideas about what could and should be desired during the course of his writing career He considers victory and defeat in the eastern tales heroic victimhood in Prometheus and The Prisoner of Chillon Byron's sincerity and the market in Don Juan Only names and titles are indexed *Oresteia* Aeschylus, 2008-11-13 The Oresteian trilogy Agamemnon Libation Bearers Eumenides established the themes of Greek tragedy the inexorable nature of Fate the relationship between justice revenge and religion The plays dramatize the murder of Agamemnon by his wife Clytemnestra the revenge of her son Orestes and his judgement by the court of Athens This new translation seeks to preserve the plays qualities as theatre and as literature
