

What is a community garden?

A community garden is a shared garden that brings neighborhoods, communities or those with shared interest together with the goal of growing produce together. Community Gardens can be found in a variety of locations including urban plots, apartment complexes or within schools.

Regardless of where the garden is found, enriching experiences and learning are sure to follow.

What does it take to start a community garden?

Start with some goals

Determine if the goal is education, service or even building community.

Locate a space

Before starting a community garden, check to see if there is an established garden already in your area.

Determine what kind of gardening is best for your space and goals.

Consider the pros and cons of raised bed gardens, in ground gardens, or smaller container gardens.

Get organized

Organize an interest meeting and work with involved parties to determine the method of gardening and the plot style.

What do I need to know before planting?

How will we move forward?

A community garden requires weeks of hard work and consistency. It is best when a plan of work or timeline is established prior to starting the gardening.

How do we sustain the garden?

Establish a plan for watering, weeding, and harvesting through the growing season.
