Schoch, Robert Aquinas McNally, 2005-06-02 The Egyptologist acclaimed for re dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly

minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In Pyramid Quest Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings **The Giza Death Star Destroyed**

Nicolae Sirius,2020-12-31 Among the unsolved mysteries on Earth there is the building of the Great Pyramid Decoding its role and context has always been a big debate among scholars of different disciplines Such an elaborate monument according to tradition was built by simple people Nonetheless with no other means but copper chisels and hammers these simple people were able to quarry millions of blocks of rock up to 70 tons in weight and transport them for hundred of kilometers to be lifted for the desired design with a maximum degree of accuracy That s where the debate starts The method of building the pyramid of Khufu remained unrecorded Similarly many other ancient cultures left behind works which prove to have been realized by making use of advanced technology What happened to that technology is a big question The author develops a deep analysis based upon measurements and mathematics giving us the possibility to recollect modern data comparing current knowledge to something that seems to be very accurate and more scientific than official archaeology has lead us to believe This work however is not about my beliefs Nor is it just a metaphorical narrative about the existence of an entity with knowledge infinitely more sophisticated than human endeavour The evidence presented proves to be the work of a very

developed culture In other words this work is not about what is perceived or described in modern times as belief but rather concrete evidence of subtle knowledge mastered by beings who as it turns out visited us Nicolae Sirius was born in 1950 in Lupanu Romania He has been a published poet since 1968 but in 1986 he wanted his career to grow and defected from Romania moving to Australia After leaving Australia he has lived in Germany and Austria before settling in Japan in 1997 He has published in Romanian and English and his works have been performed in English Some of his plays are The Last Dictator Abel and God and Gregor's nightmare

Gateway of the Gods Craig Hines, 2007-01-09 This ground breaking and provocative book presents new and astonishing interpretations of ancient history mythology and world religions that will call many established beliefs into question In Gateway of the Gods author Craig Hines invites readers to reconsider preconceived notions concerning Biblical theology in light of recent scientific discoveries and inquiries concerning the nature of the universe This fascinating exploration reveals a number of ideas that have been suppressed and obscured behind layers of symbolism and misguided propaganda for thousands of years until now Why is it that so many world cultures share details of an event when fallen angels descended upon the earth and fathered hybrid offspring called the Nephilim Is it possible that these beings used gateway technology housed within pyramids and holy temples to travel between the heavenly and earthly realms Do the latest advances in theoretical physics lend credibility to the idea that otherworldly beings might reside in dimensions parallel to our own Do the recorded voices of the dead known as Electronic Voice Phenomena EVP indicate that we may be able to communicate with these other realms Was a secret message embedded within ancient texts that could only be revealed after we have attained the knowledge and technology necessary to understand it Does this message offer a solution to the approaching environmental disaster that scientists warn will be more devastating to human civilization than any others in recorded history Drawing from a variety of historical sources and years of meticulous research the author weaves together a compelling argument involving a range of seemingly disparate topics that when considered together formulate a radically new narrative concerning the history and destiny of the human race

Building Bridges of Time, Places, and People: Volume II J. Marc. Merrill,2012-06-28 From Chapter 5 By a quirk of fate says Darcie Conner Johnston the eruption of Mt Vesuvius in 79 AD caught Pompeii at a time of great spiritual change As a gateway south and east to Greece and Egypt and the Eurasian landmass beyond the city was heir to a panoply of faiths A host of foreign gods had begun to usurp the positions of the venerable Olympian deities and the imperial Roman pantheon Christians were likely to have been here as well though the evidence of their presence is sketchy Page 71 of Pompeii The Vanished City Besides the evidence that has already been presented more remains to demonstrate that once again the accepted historical point of view is incorrect For example This second volume of Building Bridges of Time Places and People presents the overwhelming evidence that some of the most prominent leaders of the New Testament Church left the lands of Judea and Galilee when war between Rome and the Jews seemed certain and they settled in Pompeii and Herculaneum These leaders included Simon Peter Paul Luke and John Mark the author of The Gospel of Mark They were accompanied by converts such as Cornelius the centurion who was the first Gentile to be baptized and by the mother of Christ This volume also investigates the town of Sepphoris in Galilee and makes a compelling case for the claim that the Messiah of the New Testament grew up there rather than in Nazareth his identity hidden until he began his ministry at the age of 30
