Written between 1906 and 1941 shortly before her death this complete collection of Woolf's shorter fiction offers invaluable insight into her development as a writer and serves as a fascinating introduction to her novels      *The Open Book* M. Jensen, 2016-04-30 The Open Book is a provocative study of literary influence at work in English writing from Hardy to Woolf Jensen reimagines the links between text and context as she endeavors to historicize literary influence by taking Bloomian anxiety and Kristevan intertextuality into fields of actual history and biography Jensen both borrows from and deconstructs the ideas of these theorists as she reads the texts of Hardy Stephen Woolf Mansfield and Middleton Murry By doing so The Open Book offers a fresh and pragmatic opening onto the relation between personal cultural and institutional history on the one hand and literary history on the other      *Rhythmic Modernism* Helen Rydstrand, 2019-01-24 Contrary to the common view that cultural modernism is a broadly anti mimetic movement one which turned away from traditional artistic goals of representing the world Rhythmic Modernism argues that rhythm and mimesis are central to modernist aesthetics Through detailed close readings of non fiction and short stories Helen Rydstrand shows that textual rhythms comprised the substance of modernist mimesis Rhythmic Modernism demonstrates how many modernist writers such as D H Lawrence Katherine Mansfield and Virginia Woolf were profoundly invested in mimicking a substratum of existence that was conceived as rhythmic each displaying a fascination with rhythm both as a formal device and as a vital protean concept that helped to make sense of the complex modern world      *The Political Poetess* Tricia Lootens, 2019-12-03 The Political Poetess challenges familiar accounts of the figure of the nineteenth century Poetess offering new readings of Poetess performance and criticism In performing the Poetry of Woman the mythic Poetess has long staked her claims as a creature of separate spheres one exempt from emerging readings of nineteenth century women's political poetics Turning such assumptions on their heads Tricia Lootens models a nineteenth century domestic or private sphere whose imaginary apolitical heart is also the heart of nation and empire and as revisionist histories increasingly attest is traumatized and haunted by histories of slavery Setting aside late Victorian attempts to forget the unfulfilled sentimental promises of early antislavery victories The Political Poetess restores Poetess performances like Julia Ward Howe's Battle Hymn of the Republic and Emma Lazarus's The New Colossus to view and with them the vitality of the Black Poetess within African American public life Crossing boundaries of nation period and discipline to connect the dots of Poetess performance Lootens demonstrates how new histories and ways of reading position poetic texts by Felicia Dorothea Hemans Elizabeth Barrett Browning Dinah Mulock Craik George Eliot and Frances E W Harper as convergence points for larger engagements ranging from Germaine de Staël to G W F Hegel Virginia Woolf Elizabeth Bishop Alice Walker and beyond      **Modernism and Still Life** Tobin Claudia Tobin, 2020-03-02 Explores the still life spirit in modern painting prose dance sculpture and poetry Challenges the conventional positioning of still life a minor genre in art history Proposes a radical alternative to narratives of modernism that privilege speed and motion

by revealing forms of stillness and still life at the heart of modern literature and visual culture Provides the first study of still life to consider the genre across modern literature visual cultures and dance Uncovers connections and cultural exchange between networks of European and American artists including the Bloomsbury Group and Wallace Stevens The late nineteenth and early twentieth centuries have been characterised as the age of speed but they also witnessed a reanimation of still life across different art forms This book takes an original approach to still life in modern literature and the visual arts by examining the potential for movement and transformation in the idea of stillness and the ordinary It ranges widely in its material taking Cezanne and literary responses to his still life painting as its point of departure It investigates constellations of writers visual artists and dancers including D H Lawrence Virginia Woolf David Jones Winifred Nicholson Wallace Stevens and lesser known figures including Charles Mauron and Margaret Morris Claudia Tobin reveals that at the heart of modern art were forms of stillness that were intimately bound up with movement the still life emerges charged with animation vibration and rhythm an unstable medium unexpectedly vital and well suited to the expression of modern concerns

Virginia Woolf's Good Housekeeping Essays Christine Reynier, 2018-07-11 In the mid twentieth century Virginia Woolf published Six Articles on London Life in Good Housekeeping magazine a popular magazine where fashion cookery and house decoration is largely featured This first book length study of what Woolf calls little articles proposes to reassess the commissioned essays and read them in a chronological sequence in their original context as well as in the larger context of Woolf's work Drawing primarily on literary theory intermedial studies periodical studies and philosophy this volume argues the essays which provided an original guided tour of London are creative and innovative works combining several art forms while developing a photographic method Further investigation examines the construct of Woolf's essays as intermedial and as partaking both of theory and praxis intermediality is closely connected here with her defense of a democratic ideal itself grounded in a dialogue with her forebears Far from being second rate the Good Housekeeping essays bring together aesthetic and political concerns and come out as playing a pivotal role they redefine the essay as intermedial signal Woolf's turn to a more openly committed form of writing and fit perfectly within Woolf's essayistic and fictional oeuvre which they in turn illuminate

Virginia Woolf, Literary Materiality, and Feminist Aesthetics Amber Jenkins, 2023-09-01 This book interrogates the relationship between the material conditions of Woolf's writing practices and her work as a printer and publisher at the Hogarth Press In bringing to light her embodied literary processes from drafting and composition to hand printing and binding this study foregrounds the interactions between Woolf's modernist experimentation and the visual and material aspects of her printed works By drawing on the field of print culture as well as the materialist turn in Woolf scholarship it explores how her experience in print book design and publishing underlines her experimental writing and how her literary texts are conditioned by the context of their production This book therefore provides new ways of reading Woolf's modernism in the context of twentieth century print material and visual cultures By suggesting that Woolf's work at the

Hogarth Press sensitized her to the significant role the visual aspects of a text play in its system of representation it also considers the extent to which materiality informs both her work as well as her engagement with Bloomsbury formalist aesthetics which often exaggerate the distinction between visual and verbal modes of expression Scents and Sensibility Catherine Maxwell, 2017-10-20 This lively accessible book is the first to explore Victorian literature through scent and perfume presenting an extensive range of well known and unfamiliar texts in intriguing and imaginative new ways that make us re think literature's relation with the senses Concentrating on aesthetic and decadent authors Scents and Sensibility introduces a rich selection of poems essays and fiction exploring these texts with reference to both the little known cultural history of perfume use and the appreciation of natural fragrance in Victorian Britain It shows how scent and perfume are used to convey not merely moods and atmospheres but the nuances of the aesthete or decadent's carefully cultivated identity personality or sensibility A key theme is the emergence of the olfactif the cultivated individual with a refined sense of smell influentially represented by the poet and critic Algernon Charles Swinburne who is emulated by a host of canonical and less well known aesthetic and decadent successors such as Walter Pater Edmund Gosse John Addington Symonds Lafcadio Hearn Michael Field Oscar Wilde Arthur Symonds Mark Andr Raffalovich Theodore Wratislaw and A Mary F Robinson This book explores how scent and perfume pervade the work of these authors in many different ways signifying such diverse things as style atmosphere influence sexuality sensibility spirituality refinement individuality the expression of love and poetic creativity and the aura of personality dandyism modernity and memory A coda explores the contrasting twentieth century responses of Virginia Woolf and Compton Mackenzie to the scent of Victorian literature **Expurgating the Classics** Bloomsbury Publishing, 2014-06-20 In the first collection to be devoted to this subject a distinguished cast of contributors explores expurgation in both Greek and Latin authors in ancient and modern times The major focus is on the period from the seventeenth to the twentieth century with chapters ranging from early Greek lyric and Aristophanes through Lucretius Horace Martial and Catullus to the expurgation of schoolboy texts the Loeb Classical Library and the Penguin Classics The contributors draw on evidence from the papers of editors and on material in publishing archives The introduction discusses both the different types of expurgation and how it differs from related phenomena such as censorship Reconnecting Aestheticism and Modernism Bénédicte Coste, Catherine Delyfer, Christine Reynier, 2016-10-04 Charting the period that extends from the 1860s to the 1940s this volume offers fresh perspectives on Aestheticism and Modernism By acknowledging that both movements had a passion for the new it goes beyond the alleged divide between Modernism and its predecessors Rather than reading the modernist credo Make it New as a desire to break away from the past the authors of this book suggest reading it as a continuation and a reappropriation of the spirit of the New that characterizes Aestheticism Basing their arguments on recent reassessments of Aestheticism and Modernism and their articulation contributors take up the challenge of interrogating the connections continuities and intersections between the two movements thus revealing the

working processes of cultural and aesthetic change so as to reassess the value of the new for each. Attending to well known writers such as Waugh Woolf Richardson Eliot Pound Ford Symons Wilde and Hopkins as well as to hitherto neglected figures such as Lucas Malet L S Gibbon Leonard Woolf or George Egerton they revise assumptions about Aestheticism and Modernism and their very definitions. This collection brings together international scholars specializing in Aestheticism or Modernism who push their analyses beyond their strict period of expertise and take both movements into account through exciting approaches that borrow from aesthetics philosophy or economics. The volume proposes a corrective to the traditional narratives of the history of Aestheticism and Modernism revitalizing definitions of these movements and revealing new directions in aestheticist and modernist studies.

**Ordinary Matters** Lorraine Sim, 2016-10-20 Shortlisted for the 2017 AUHE Prize for Literary Scholarship. *Ordinary Matters* is the first major interdisciplinary study of the ordinary in modernist women's literature and photography. It examines how women photographers and writers including Helen Levitt Lee Miller Virginia Woolf and Dorothy Richardson envision the sphere of ordinary life in light of the social and cultural transformations of the period that shaped and often radically re-shaped it for example urbanism instrumentalism the Great Depression and war. Through a series of case studies that explore such topics as the street domestic things gesture and the face Sim contends that the paradigmatic shifts that define early twentieth century modernity not only inform modernist women's aesthetics of the everyday but their artistic and ethical investments in that sphere. The everyday has been noted as a keynote of the New Modernist Studies. Todd Avery *Ordinary Matters* comprises a vital contribution to recent scholarship on the topic and will be of value to scholars working in British and American modernism multimedia modernisms photography twentieth century literature and critical and cultural histories of the everyday.

**Dynamic Psychology in Modernist British Fiction** G. Johnson, 2005-10-06 *Dynamic Psychology in Modernist British Fiction* argues that literary critics have tended to distort the impact of pre-Freudian psychological discourses including psychical research on Modern British Fiction. Psychoanalysis has received undue attention over a more typical British eclecticism embraced by now forgotten figures including Frederic Myers and William McDougall. This project focuses on the Edwardian novelists most fully engaged by dynamic psychology May Sinclair and J D Beresford but also reconsiders Arnold Bennett and D H Lawrence. The book concludes by demonstrating Woolf's subtle assimilation of pre-Freudian discourse.

*Virginia Woolf, Fashion and Literary Modernity* R. S. Koppen, 2011-06-07 Newly available in paperback this study places Woolf's writing in the context of sartorial practice from the Victorian period to the 1930s.

**British Women Writers and the Short Story, 1850-1930** K. Krueger, 2014-03-30 This book addresses a critically neglected genre used by women writers from Gaskell to Woolf to complicate Victorian and modernist notions of gender and social space. Their innovative short stories ask Britons to reconsider where women could live how they could be identified and whether they could be contained.
