# The Concept Of Law

**Sanne Taekema**

## **The Concept Of Law:**

*The Concept of Law* Herbert Lionel Adolphus Hart, Leslie Green, 2012-10-25 The Concept of Law is one of the most influential texts in English language jurisprudence 50 years after its first publication its relevance has not diminished and in this third edition Leslie Green adds an introduction that places the book in a contemporary context highlighting key questions about Hart's arguments and outlining the main debates it has prompted in the field The complete text of the second edition is replicated here including Hart's Postscript with fully updated notes to include modern references and further reading

*The Concept of Law* HLA Hart, 2012-10-25 Fifty years on from its first publication The Concept of Law is still the starting point for the study of legal philosophy and is widely heralded as a classic work of modern philosophy This third edition features a new introduction by Leslie Green looking at Hart's work from the perspective of modern jurisprudence

**Reading HLA Hart's 'The Concept of Law'** Luís Duarte d'Almeida, James Edwards, Andrea Dolcetti, 2013-11-08 More than 50 years after it was first published The Concept of Law remains the most important work of legal philosophy in the English speaking world In this volume written for both students and specialists 13 leading scholars look afresh at Hart's great book Unique in format the volume proceeds sequentially through all the main ideas in The Concept of Law each contributor addresses a single chapter of Hart's book critically discussing its arguments in light of subsequent developments in the field Four concluding essays assess the continued relevance for jurisprudence of the persistent questions identified by Hart at the beginning of The Concept of Law The collection also includes Hart's Answers to Eight Questions written in 1988 and never before published in English Contributors include Timothy Endicott Richard HS Tur Pavlos Eleftheriadis John Gardner Grant Lamond Nicos Stavropoulos Leslie Green John Tasioulas Jeremy Waldron John Finnis Frederick Schauer Pierluigi Chiassoni and Nicola Lacey

*The Concept of Law* HLA Hart, 2012-10-25 Fifty years on from its original publication HLA Hart's The Concept of Law is widely recognized as the most important work of legal philosophy published in the twentieth century and remains the starting point for most students coming to the subject for the first time In this third edition Leslie Green provides a new introduction that sets the book in the context of subsequent developments in social and political philosophy clarifying misunderstandings of Hart's project and highlighting central tensions and problems in the work

*Reading HLA Hart's 'The Concept of Law'* Luís Duarte d'Almeida, James Edwards, Andrea Dolcetti, 2014-07-18 More than 50 years after it was first published The Concept of Law remains the most important work of legal philosophy in the English speaking world In this volume written for both students and specialists 13 leading scholars look afresh at Hart's great book Unique in format the volume proceeds sequentially through all the main ideas in The Concept of Law each contributor addresses a single chapter of Hart's book critically discussing its arguments in light of subsequent developments in the field Four concluding essays assess the continued relevance for jurisprudence of the persistent questions identified by Hart at the beginning of The Concept of Law The collection also includes Hart's Answers to Eight Questions written in 1988

and never before published in English Contributors include Timothy Endicott Richard HS Tur Pavlos Eleftheriadis John Gardner Grant Lamond Nicos Stavropoulos Leslie Green John Tasioulas Jeremy Waldron John Finnis Frederick Schauer Pierluigi Chiassoni and Nicola Lacey     The concept of law Herbert Lionel Adolphus Hart,1975     **The Concept of Law** H. L. A. Hart,1970     **The Concept of Ideals in Legal Theory** Sanne Taekema,2002-12-31 Talk about law often includes reference to ideals of justice equality or freedom But what do we refer to when we speak about ideals in the context of law This book explores the concept of ideals by combining an investigation of different theories of ideals with a discussion of the role of ideals in law A comparison of the theories of Gustav Radbruch and Philip Selznick leads up to a pragmatist theory of legal ideals which provides an interesting new position in the debate about values in law between legal positivists and natural law thinkers Attention for law s central ideals enables us to understand law s autonomous character while at the same time tracing its connection to societal values Essential reading for anyone interested in the role of values or ideals in law     *The Concept of Sin* Frederick Robert Tennant,1912     **The Concept Standard** Anne Mary Nicholson,1910     *The Concept Of Law (Oip)* Herbert Lionel Adolphus Hart,2002-10-24 The Book Has Extensive Notes On The Theoretical Work Of Other Jurists Including References To Austin S Imperative Theory Kelson S Theory Of Basic Norm And Fuller S Natural Law Theory     The Definition of Law Hermann Kantorowicz,2014-09-25 This volume contains the opinions of the great jurist Hermann Kantorowicz on various fundamental questions of law and the bounds of legal science     The Concept of Scientific Law in the Philosophy of Science and Epistemology Igor Hanzel,2013-03-14 The author argues that a reconstruction of scientific laws should give an account of laws relating phenomena to underlying mechanisms generating them as well as of laws relating this mechanism to its inherent capacities While contemporary philosophy of science deals only with the former the author provides the concept for the reconstruction of scientific laws where the knowledge of the phenomena enables one to grasp the quantity of their cause He then provides the concepts for scientific laws dealing with the relation of the quantity and quality of the cause underlying phenomena to the quality and quantity of its capacities Finally he provides concepts for scientific laws expressing how a certain cause due to the quantity and quality of its capacities generates the quantitative and qualitative determinations of its manifestations The book is intended for philosophers of science and philosophers of social science as well as for natural and social scientists     **The Concept of Due Process of Law in 1866 and Its Influence on the Fourteenth Amendment** Herbert Thompson Leyland,1922     **Positive Law from the Muslim World** Baudouin Dupret,2021-06-24 Can the concept of law be indiscriminately extended to times and places in which it did simply not exist Such an extension is at best useless and at worst misleading Producing an intelligible jurisprudence of the concept of law means keeping it within the reasonable boundaries of its contemporary common sense understanding positive law Parallel to Western societies in which it firstly emerged the concept of positive law developed in many places including countries characterized as Muslim There it faced other existing normativities like customs and the Sharia This book aims from the

Muslim world's perspective to clarify the uses of the concept of law and the ways of studying it to describe some of its historical developments including the ideas of constitutional law customary law and forensic evidence and to describe present day practices including reference to law sources rules and interpretation      **The Concept of Treaty in**

**International Law** Jan Klabbers, 2023-09-25 Whether or not a certain norm is legally binding upon international actors may often depend on whether or not the instrument which contains the norm is to be regarded as a treaty In this study the author argues that instruments which contain commitments are ex hypothesi treaties In doing so he challenges popular notions proclaiming the existence of morally and politically binding agreements and so called soft law Such notions Klabbers argues are internally inconsistent and founded upon untenable presumptions Moreover they find little support in the pertinent decisions of municipal and international courts and tribunals The book addresses issues of importance not only for academics working in international law constitutional law and political science but also for practitioners involved in the making implementation and enforcement of international agreements      *The concept of law* Herbert Lionel Adolphus Hart, 1963

**The Lutheran Church Review** Henry Eyster Jacobs, Theodore Emanuel Schmauk, 1918      **The World's Legal Philosophies** Fritz Berolzheimer, 1912 The present volume is the second of his five volume work published by Beck at Munich 1904 1907 under the title *System der rechts und wirtschaftsphilosophie*      *Recueil Des Cours, Collected Courses*, 1972 , 1974-06-24
