

Unos annales históricos de la nación mexicana. Edited by ERNEST MENGIN. Corpus Codicum Americanorum Medii Aevi; Litterarum Monumenta in Lingua Nahuatl et Maya . . . , Vol. 2. Copenhagen: Einar Munksgaard, 1945.

Despite the Latin title and the curious attempt to view sixteenth century Mexican manuscripts as somehow linked to the bygone medieval world of Europe, "Unos Annales" or the "manuscrito de 1528" is the oldest known specimen of historical composition in European script from the American mainland. Written in the principal language of New Spain, Nāhuatl ("Aztec") and in the part of Mexico City called Tlatelolco, it comprises five related documents, of which Nos. II, III, and IV are congested genealogical and conquest lists. Nos. I and V are fuller narratives, covering the period from prehispanic times to the immediate aftermath of the Conquest. No. I, a "List of the Rulers of Tlatelolco" includes among, other things, a spectacular account (apparently by an eyewitness) of Cortes' march to Honduras (1524-25) and No. V, a "History of Tlatelolco from the Earliest Times" covers the important points of Azteca-Mexica history from their early wanderings down to the siege of Mexico. The latter is movingly described by one of the defenders, and is comparable only to Sahagun's Book XII (Seler, *Einige Kapitel*).

Long known to Mexicanists by reference, these texts have been circulated at last by Dr. Mengin (paleography and German translation, 1939, and the present facsimile in 1945).¹ One who has held in his hands the large coarse pages of native paper on which the original is written, can attest that this reproduction is very good. The plates are probably as exact as can be made. That no copy can quite duplicate an original, is obvious, but reproductions *must* be made if such time-resisting monuments are to be divulged among scholars, and perhaps if they are to survive the barbarous twentieth century at all. (One notes that this edition was realized in the West despite the Nazi occupation, while eastward the Slavic libraries were being destroyed.)

The tome is hardly designed for purchase by individual students, but constitutes with its companion volumes a continuation of the tradition of Kingsborough, Loubat, and Troncoso: the monumental reproduction of monumental Mexican pictorial writing and texts. In short, it is a reference work for the larger libraries, who can hardly do without it. The pigskin binding gives merited character to this strongly made book, of which each leaf is cloth-hinged. Paper and impression of plates are excellent, but the engraver shows reprehensible carelessness in trimming the outlines of the plates.² A multilingual introduction (perhaps unnecessary to the person whose specialized interest leads him to consult the volume) and a good study of the document precede the reproduction. One is grateful to Dr. Mengin for sustaining this valuable series, whose third

volume, we understand, will be the "Annals of the Cakchiquels."

The Conquest and Colonization of Yucatan, 1517-1550. ROBERT S. CHAMBERLAIN. Publication, Carnegie Institution of Washington, No. 582. Washington, 1948. vi+365 pp., illustrations, maps.

The publication of this scholarly monograph, the fruit of many years of research, covering a relatively neglected period and area, will be warmly welcomed by students of the Latin American field. Based on an extensive use of the printed chronicles and documents, enriched by wide citation of hitherto unused original documentary sources, the narrative centers around the career of the Adelantado Francisco de Montejo, who directed the long and difficult conquest of the Maya Empire and laid the foundations of Spanish settlement in, and governmental control of, the area.

The story starts with the discovery of the Peninsula of Yucatan by Francisco Hernández de Córdoba on a slave-hunting expedition from Cuba in 1517. After recounting Montejo's early role in the conquest of Mexico and the struggle between Cortés and Velásquez, the governor of Cuba, over the right to conquer and colonize the peninsula, the civilization and potential riches of which, given the example of Mexico, were quite alluring, the main story starts with Montejo's royal grant of authority to conquer and colonize Yucatan, erroneously called "Islands," in 1526. The main body of the narrative is next concerned with the invasion of Yucatan, starting in 1527, with the conquest of Cozumel Island and the adjacent coast of Salamanca de Xelha. After the subjugation of the Chikin-chels, the long conquest from the west, of Tabasco and Acalán, in the years 1529-1531, is recounted with emphasis on the founding of Salamanca de Campeche in 1531. After a brief treatment of Montejo's interim career, there is a discussion of the Spanish withdrawal from Yucatan late in 1534, followed by the full narrative of the final conquest launched in 1547. Appropriate chapters on the Church, with stress on the Franciscans, government, and colonization into 1550, conclude the account. Montejo's suspension from office, final years, and death are recounted and the passing of the title to his descendants as an honorary office receives due attention.

The volume lacks an index, so that the details have to be tracked down page by page. The map opposite p. 164, mingles Spanish and English place names so that you have "Isla de Mujeres" adjacent to "Cozumel Island," "Río Hondo" is next to New River, the Bay of Honduras lies below the "Bahía de Espíritu Santo," with an accent misplaced on "Espíritu." "Mar del Norte" appears as North Sea, and there is South Sea or Pacific Ocean instead of "Mar del Sur." These and other examples of the intermingling of the two languages may confuse some readers. Save in a few instances, the actual text of supporting archival materials is not printed in the footnotes and only an

¹ A Spanish language edition derived from Mengin with analytical notes appeared in 1948 as "Annales de Tlatelolco."

made great advances in our understanding of the social and political milieu of the northern Maya lowlands. However, such advances have been underrepresented in both scholarly and popular literature until now. *The Ancient Maya of Mexico* presents the results of new and important archaeological, epigraphic, and art historical research in the Mexican states of Yucatán, Campeche, and Quintana Roo. Ranging across the Middle Preclassic to the Modern periods, the volume explores how new archaeological data has transformed our understanding of Maya history. *The Ancient Maya of Mexico* will be invaluable to students and scholars of archaeology and anthropology and all those interested in the society, rituals, and economic organisation of the Maya region. Indigenous Geographies in the Yucatan Miguel Sioui, 2021-01-25. This book is part of a

broader attempt to decolonize colonial histories and understandings about Indigenous peoples and their relationships with their territories and argues that the land ethos of being part of the land, specifically among the Mayan community of Xuilub Yucatán, Mexico, is guided by the cultural precept of responsibility-based thinking. The work uniquely adds much-needed insights into responsibility-based thinking for land use practices and develops a theoretical framework for assessing historical impacts on Indigenous cultures and livelihoods. In six chapters, the text bridges Western and Indigenous Knowledge (IK) approaches to achieve deeper understanding of IKs, focusing on more Indigenous-centered methods with the goal of expanding the disciplinary perspectives of postcolonial scholarship and Indigenous geographies. The book contains useful information for environmental planning, management scholars, and geographers who may not be familiar with Indigenous approaches to land use and to Indigenous geographers working to bridge Western and Indigenous methodologies. **The**

Jaguar's Heart *The Jaguar's Heart*, 2023-06-05. Based on a true story, *The Jaguar's Heart* brings to life the first encounter of Maya and European in the 16th century. It tells the story of Gonzalo Guerrero, a Spanish sailor shipwrecked on the coast of Yucatán in 1511, between Columbus's discovery of the Americas and Cortez's conquest of Mexico. Maya lords enslaved Guerrero and his fellow castaways, but he eventually gains his freedom. Encountering Ix Chan Can, the beautiful younger sister of the Maya lord Nachan Can, Guerrero chooses to remain among her people and win her love. Guerrero earns renown in a war against Nachan Can's enemies and finally Ix Chan Can's hand. After they have two children, the only other still living castaway, the clergyman Jeronimo de Aguilar brings word of Cortez's landing. Guerrero refuses to rejoin his countrymen, cleaving to his family. But with Aguilar as interpreter, Cortez conquers the Aztecs, and the Spaniards inevitably return to impose their rule and religion on the Maya. Nachan Can now demands that Guerrero fight, and at last accepting that he must do so to protect his family, Guerrero tragically stakes his life for his adoptive people against ever-mounting odds. *The Jaguar's Heart* reveals the struggle of a man caught between cultures and conflicting loyalties at a pivotal moment in the history of the Americas. It is a book with the captivating setting of Gary Jennings' *Aztec* and its sequels, yet which reveals the humanity of both Spaniard and Indian, and with the compelling theme of W. Michael Gear and Kathleen O'Neal Gear's *Contact: The Battle for America* series. **Conflict in the Early Americas** Rebecca M. Seaman, 2013-08-27. This detailed study is the only reference work of
