Become Conscious of Wholeness Edwin E. Olson, 2021-11-30 How can we transcend our tribal philosophical and religious differences? Is it possible to develop a global consciousness to resolve the peril to our biosphere and other human-made existential crises? Become Conscious of Wholeness: Humanity's Only Future explores how connecting human consciousness with Universal Consciousness will give individuals and societies a sense of being complete, not fragmented. Accessing Universal Consciousness: the fundamental wisdom, intelligence, and love in the Universe will align their identity and purpose and free them from limiting beliefs and fears. Universal Consciousness is the organizing, unifying force beyond space and time, filled with the creative potential from which our diverse philosophies, religions, and primordial traditions emerged. When Consciousness is understood from multiple scientific, spiritual, psychological, and mystical perspectives, what is of ultimate value becomes clear: our relationships with each other and the Earth, our essential Wholeness. The reader will explore various portals to Universal Consciousness, drawing upon their own mystical and spiritual experience to develop a more holistic Self. Specific action steps are also presented to reframe religion, reimagine education and mental wellbeing, and reform the business organizations, government agencies, and divisive politics that perpetuate a fragmented view of reality.
