Stalin, A Biography in Facts Schnehen, Gerhard, 2020-05-01 Stalin is commonly

considered the quintessential vicious dictator an iconic figure of tyranny But almost none of his many biographers has drawn on primary sources eye witness accounts Stalin s own writings and speeches or what those people who met him had to say about him This assiduously researched book is an attempt to get a little closer to the truth It is based on first hand observations from every stage of his life and it evaluates numerous shocking tropes that were circulated by Stalin s rivals and made into our received view of his rule

AN INCONVENIENT TRUTH - The Planetary Emergency Ian Tinny, Frank Folupa, American Psychopath Association, The planetary emergency is SOCIALISM This book details the factors contributing to the growing crisis describes changes to the world caused by global socialism and discusses the shift in policy that is needed to avert disaster One of the many inconvenient truths is that American socialists share in the guilt Numerous annoying politicians have abetted a long history of American socialists including the notorious Francis Bellamy and Edward Bellamy Both Bellamy cousins wanted government to take over all schools to teach socialism to all children Francis Bellamy was the author of the Pledge of Allegiance to the flag the origin of the infamous stiff armed salute adopted later under German socialism and Adolf Hitler Long before the Deutschland fad began American schoolchildren were taught to chant in unison and perform the same salute each day in government schools that imposed segregation by law and taught racism as official policy Anyone who rejected the ritual in the schools was persecuted This astonishing book explains the following revelations 1 Hitler never self identified as a Nazi 2 Hitler never self identified as a Fascist 3 The term Nazi never appears in Mein Kampf nor in Triumph of the Will 4 The term Fascist never appears in Mein Kampf as a self description by Hitler 5 The term Socialist appears throughout Mein Kampf as a self description by Hitler Hitler and his followers self identified as socialists by the very word in voluminous speeches and writings 6 Hitler used the swastika to represent S letter shapes for socialist 7 Hitler was influenced by American socialists the USA s Pledge of Allegiance to the flag was the origin of Nazi salutes and Nazi behavior 8 A socialist started fascism Before he coined the term Fascist Mussolini was a long time socialist leader with a socialist background raised by socialists to be a socialist 9 German socialists partnered with Soviet socialists to launch WWII invading Poland together and going onward from there killing millions Much of the amazing historical material comes from the archives of the historian Dr Rex Curry

The Russian Mind Since Stalin's Death Yuri Glazov, 2012-12-06 I have been working on this book since leaving Russia in April of 1972 It was my wish to write this book in English and there were what seemed to me to be serious reasons for doing so In recent years there has appeared a wealth of literature in Russian about Russia As a rule this literature has been published outside the USSR by authors who still live in the Soviet Union or who have only recently left it A fair amount of important literature is being translated into English but I believe it will be read mainly by specialists in Russian studies or by those who have a great interest in the subject already The majority of Russian authors write of course for the Russian reader or for an imagined Western public It is my feeling that

Russian authors have serious difficulties in understanding the mentality of Westerners and that there still exists a gap between the visions of Russians and non Russians I have made my humble attempt to bridge this gap and I will be happy if I am even partly successful The Russian world is indeed fascinating Many people who visit Russia for a few days or weeks find it a country full of historical charm fantastic architecture and infinite mystery For many inside the country especially for those in conflict with the Soviet authorities

A Macrohistory of the Communist World—the making and unmaking of a revolutionary ideal C L Lu 卢立成, 2025-06-23 A long term and cross regional historical perspective Detailing the rise and fall of communism A Macrohistory of the Communist World tells the history of communism the Communist Party and communist countries from a global perspective introducing important historical events and the life stories of historical figures The book is divided into five parts describing in detail the formation expansion division and collapse of the communist world The regions spanned include four continents Europe Asia America and Africa The period lasts for two hundred years from the beginning of the 19th century to the 21st century The book also makes necessary statements about the development of capitalism and socialism which are in opposition and competition with communism This is a must read book for anyone who wants to thoroughly understand the Communist Party
