Understanding Alan Sillitoe Gillian Mary Hanson, 1999 Understanding Alan Sillitoe offers a lucid appraisal of the life and works of the well known contemporary British writer hailed by critics as the literary descendent of D H Lawrence Known primarily for his novels Saturday Night and Sunday Morning and The Loneliness of the Long Distance Runner Sillitoe has written more than 50 books over the last 40 years including novels plays collections of short stories poems and travel pieces as well as more than

four hundred essays In this comprehensive study of the major novels and short stories Hanson reveals Sillitoe's artistic influences and the dominant thematic concerns of his works *Algerian War and the French Army, 1954-62* Martin S. Alexander, Martin Evans, J.F.V. Keiger, 2002-08-21 The Algerian War 1954-62 was one of the most prolonged and violent examples of decolonization At times horribly savage it was an undeclared war in the sense that no formal declaration of hostilities was ever made Bringing to an end one hundred and thirty two years of French rule the Algerian struggle caused the fall of six French prime ministers the collapse of the Fourth Republic and expulsion of one million French settlers This volume bringing together leading experts in the field focuses on one of the key actors in the drama the French army They show that the Algerian War was just as much about conflicts of ideas beliefs and loyalties as it was about simple military operations In this way the collection goes beyond polemic and recrimination to explore the many and varied nuances of what was one of the historically most important of the grand style colonial wars Encyclopedia of British Humorists Steven H. Gale, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company **The Angry Years** Colin Wilson, 2014-01-29 What were the achievements of the angry writers who emerged in the fifties Historically they gave birth to the satire movement of the 1960s Beyond the Fringe That Was the Week that Was and Private Eye Their satire and irreverence aroused enthusiasm in man and a new anti Establishment mood developed from Look Back in Anger and The Outsider All literary movements acquire enemies but the Angry Young Men of the 1950s accumulated more than most Why Wilson takes us on a journey back to this era and reveals fascinating and sometimes disturbing stories from the Greats including John Osborne Kingsley Amis Kenneth Tynan and John Braine to name but a few At all events the story of that period makes a marvellously lively tale which most importantly was recorded by someone who was actually there *Trilogy about Several Urban View and Landscape Prints* M. Rosa Vives, 2021-10-25 Trilogy about Several Urban View and Landscape Prints presents three essays dedicated to the specific observation of prints by great artists such as Canaletto Goya Hokusai and Picasso whose main theme is the representation of outdoor space landscapes and urban views M Rosa Vives studies the contextualisation of these prints and their creative and iconographic links with tradition and with other artists and creative media The works remind us that engraving has been and continues to be an artistic medium with its own language a particular technology and a sensorial form of expression and communication They also recall how before the advent of photography engraving was a major force behind the spreading of images and culture **The Oxford English Literary History: Volume 12: The Last of England?** Randall Stevenson, 2005-11-10 English Literature in the 1960s soon threw off its post war weariness and the tepid influences of the previous decade New voices new visions and new commitments profoundly reshaped writing during the 60s and throughout the rest of the century Drama thrived on its rapidly rebuilt foundations New freedoms of style and form revitalised fiction Poetry too gradually recovered the variety and inventiveness of earlier years As well as comprehensively charting these changes in the literary field Randall Stevenson persuasively

pinpoints their origins in the historical social and intellectual pressures of the times Literary developments are revealingly related to the wider evolution and profound changes in English experience in the late twentieth century to shadows of war and loss of empire declining influences of class shifting relations between the genders emergent minority and counter cultures and the broadening democratization of contemporary life in general Analyses of the rise of literary theory of publishing and the book trade and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough insightful description of writing in the later twentieth century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised Lucid accessible and engaging this volume of the Oxford English Literary History presents a unique illumination of its age one we have lived through but are only just beginning to understand The first full account of its period it will set the agenda for discussion of late twentieth century literature for many years to come
