and artwork The Decoration of Leather Maude Nathan,2015-08-04 Excerpt from The Decoration of Leather From the French of Georges De Recy In a preface which is omitted from this translation the author claims for his work a place between the books dealing solely with the history and development of the art of working in leather and those of which the object is to impart a knowledge of the technique of its various processes to amateurs who may be unable or unwilling to undertake a regular course of instruction He points out that leather in its adaptability to many different kinds of treatment is a material eminently suited to the interpretation of the style of decoration known as modern art In the French edition there are numerous reproductions of examples of leather decoration and of ornament intended for adaptation to leather work In the following translation these illustrations and also a short chapter referring to them are omitted and some examples of leather work derived from various English sources are substituted The text of the work has been generally somewhat abridged The fact that there are many technical and other terms in French that have no exact equivalent in our own language has rendered a free translation desirable but the meaning of the original text has been carefully preserved About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
