## **The Defenders Of Democracy:**

**Defenders of Democracy** Militia of Mercy,1918      *The Defenders of Democracy* Anonymous Author,2016-07-17 This beautiful book is the expression of the eager desire of all of the gifted men and women who have contributed to it and of the members of the Militia of mercy to render homage to our sailors soldiers nurses and physicians who offer the supreme sacrifice to free the stricken people of other lands and to protect humanity with their bodies from an enemy who has invented the name and created the thing welt schmerz world anguish But we want it do more than extol their heroism and sacrifice we want The Defenders of Democracy to help them win the war      Policy Speech Kwazulu (South Africa). Chief Minister,1990

**The Frontiers of Democracy** Robert Pinkney,2017-11-28 Focusing in particular on the past decade this enlightening volume explores the changing fortunes of democracy in the West South East Asia and the Third World It highlights the contrast between the expansion of democracy in quantitative terms and the problems in maintaining or improving the quality of democracy It examines such threats to democracy as public apathy media trivialization the power of big business and consumerism in the West powerful states in South East Asia and poverty and weak government in Africa as well as the ubiquitous challenges of the global economy and the war on terrorism The author argues that a continued decline or stalling of democracy is not inevitable but that it will require considerable human effort to claim or reclaim the political sphere

**The Bolshevik Theory** Raymond Postgate,1920      **The Workers Monthly** ,1925      **Benefaction and Rewards in the Ancient Greek City** Marc Domingo Gygax,2016-07-04 Studies the nature and development of Greek euergetism from its origins to the Hellenistic period through the prism of gift exchange      *The Oxford Handbook of European History, 1914-1945* Nicholas Doumanis,2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today      **Outside Intervention** Chuck Fair,2005-09 A stageplay in two acts An apocalyptic event leaves the fate of the white race dependent upon a criminal

trial      *Following the Trail of the I.W.W.* Robert Walter Bruère, 1918      **The São Paulo Law School and the Anti-Vargas Resistance (1938-1945)** John W. F. Dulles, 2014-07-03 The São Paulo Law School the oldest institution of higher learning in Brazil has long been the chief training center for that country's leadership For the members of the school's secret Burschenschaft society the training consisted principally in leading demonstrations for liberal causes such as the abolition of slavery and the overthrow of the monarchy During the Old Republic 1889-1930 the Brazilian presidency and other high posts in Rio de Janeiro were usually occupied by alumni of the powerful society while its members in São Paulo continued to agitate for political reform But in the 1920s when they formed the Nationalist League and the Democratic Party schisms resulted Thus the Burschenschaft was weakened before the long rule of Brazil by Getúlio Vargas starting in 1930 brought an end to the society's influence The role of the school in these and other historical events is carefully reviewed by Dulles before he turns to the school's well known resistance to the dictatorship of Vargas That resistance the most persistent confronting the dictator appeared to be unified especially when it provoked the police into shooting the students But as Dulles discovered when interviewing participants and consulting documents and scrapbooks of the early 1940s the movement was characterized by heated internal strife In the end however the idealism and courage of the participants and the ultimate effectiveness of the movement contributed mightily to the fall of Vargas This book is another in Dulles's series of narrative histories in which he gives flesh and blood to the names and breathes life into the events of twentieth century Brazilian politics      Hanging Together Eric W. Cheng, 2022-07-21 Difference and disagreement can be valuable yet they can also spiral out of control and damage liberal democracy Advancing a metaphor of citizenship that the author terms role based constitutional fellowship this book offers a solution to this challenge Cheng argues that a series of divisions of labor among citizens differently situated can help cultivate the foundational trust required to harness the benefits of disagreement and difference while preventing them from overheating and in turn from leaving liberal democracy vulnerable to the growing influence of autocratic political forces The book recognizes however that it is not always appropriate to attempt to cultivate trust and acknowledges the important role that some forms of confrontation might play in identifying and rectifying undue social hierarchies such as racial ethnic hierarchies Hanging Together thereby works to pave a middle way between deliberative and realist conceptions of democracy      The Routledge Guidebook to Gramsci's Prison Notebooks John Schwarzmantel, 2014-12-17 Gramsci's Prison Notebooks are one of the most important and original sources of modern political philosophy but the Prison Notebooks present great difficulties to the reader Not originally intended for publication their fragmentary character and their often cryptic language can mystify readers leading to misinterpretation of the text The Routledge Guidebook to Gramsci's Prison Notebooks provides readers with the historical background textual analysis and other relevant information needed for a greater understanding and appreciation of this classic text This guidebook Explains the arguments presented by Gramsci in a clear and straightforward way analysing the key concepts of the notebooks Situates

Gramsci's ideas in the context of his own time and in the history of political thought demonstrating the innovation and originality of the Prison Notebooks Provides critique and analysis of Gramsci's conceptualisation of politics and history and culture in general with reference to contemporary i.e. present day examples where relevant Examines the relevance of Gramsci in the modern world and discusses why his ideas have such resonance in academic discourse Featuring historical and political examples to illustrate Gramsci's arguments along with suggestions for further reading this is an invaluable guide for anyone who wants to engage more fully with The Prison Notebooks

**Religion as Critique** Irfan Ahmad, 2017-11-20 Irfan Ahmad makes the far reaching argument that potent systems and modes for self critique as well as critique of others are inherent in Islam indeed critique is integral to its fundamental tenets and practices Challenging common views of Islam as hostile to critical thinking Ahmad delineates thriving traditions of critique in Islamic culture focusing in large part on South Asian traditions Ahmad interrogates Greek and Enlightenment notions of reason and critique and he notes how they are invoked in relation to others including Muslims Drafting an alternative genealogy of critique in Islam Ahmad reads religious teachings and texts drawing on sources in Hindi Urdu Farsi and English and demonstrates how they serve as expressions of critique Throughout he depicts Islam as an agent not an object of critique On a broader level Ahmad expands the idea of critique itself Drawing on

his fieldwork among marketplace hawkers in Delhi and Aligarh he construes critique anthropologically as a sociocultural activity in the everyday lives of ordinary Muslims beyond the world of intellectuals Religion as Critique allows space for new theoretical considerations of modernity and change taking on such salient issues as nationhood women s equality the state culture democracy and secularism *The International Studio* ,1918 *The Promise and Perils of Populism* Carlos de la Torre,2014-12-11 The O J Simpson trial The Lindbergh kidnapping The death of Marilyn Monroe The assassination of the Romanovs The Atlanta child murders All controversial cases All investigated with the latest techniques in forensic science Nationally respected investigators Joe Nickell and John Fischer explain the science behind the criminal investigations that have captured the nation s attention Crime Science is the only comprehensive guide to forensics Without being overly technical or treating scientific techniques superficially the authors introduce readers to the work of firearms experts document examiners fingerprint technicians medical examiners and forensic anthropologists Each topic is treated in a separate chapter in a clear and understandable style Nickell and Fisher describe fingerprint classification and autopsies explain how fibers link victims to their killers and examine the science underlying DNA profiling and toxicological analysis From weapons analysis to handwriting samples to shoe and tire impressions Crime Science outlines the indispensable tools and techniques that investigators use to make sense of a crime scene Each chapter closes with a study of a well known case revealing how the principles of forensic science work in practice **The Deadline: Essays** Jill Lepore,2023-08-29 Jill Lepore is unquestionably one of America s best historians it s fair to say she s one of its best writers too Jonathan Russell Clark Los Angeles Times Best Books of 2023 New Yorker TIME A book to be read and kept for posterity The Deadline is the art of the essay at its best Few if any historians have brought such insight wisdom and empathy to public discourse as Jill Lepore Arriving at The New Yorker in 2005 Lepore with her panoptical range and razor sharp style brought a transporting freshness and a literary vivacity to everything from profiles of long dead writers to urgent constitutional analysis to an unsparing scrutiny of the woeful affairs of the nation itself The astonishing essays collected in The Deadline offer a prismatic portrait of Americans techno utopianism frantic fractiousness and unprecedented but armed aimlessness From lockdowns and race commissions to Bratz dolls and bicycles to the losses that haunt Lepore s life these essays again and again cross what she calls the deadline the river of time that divides the quick from the dead Echoing Gore Vidal s United States in its massive intellectual erudition The Deadline with its remarkable juxtaposition of the political and the personal challenges the very nature of the essay and of history itself *Opening Speech in the Meeting of Intellectuals for the Sovereignty of the Peoples of Our America* Armando Hart,Armando Hart Dávalos,1981 **Neo-militant Democracies in Post-communist Member States of the European Union** Joanna Rak,Roman Bäcker,2022-03-24 This book examines contemporary militant democracies in post communist states in the European Union Examining through case studies their broader relevance to political legal and social structures this book looks in revealing detail at the struggles between these democratic and anti
