the interlacing operation of syntax and desire in three medieval grammars theological linguistic and poetic Exploring three representative aspects of medieval language theory Elena Lombardi uncovers the ways in which syntax and desire were interrelated in the Middle Ages She suggests that in Augustine s theology the creative act of God in the universe emerges as a syntax that the human individual must interpret by means of desire in the linguistic theory of the Modistae she sees the syntax of language as parallel to a syntax of reality one organized by the desiring interplay of matter and form in Dante s poetry she argues that the language of the fallen human is bound together by the syntax of poetry an act of desire that restores language to its primitive innocence In addition to detailed analyses of medieval texts The Syntax of Desire examines some aspects of the same relationship in light of contemporary linguistics philosophy of language and psychoanalysis

A Conceptual-analytic Study of Classical Indian Philosophy of Morals Rajendra Prasad,2008 Using reconstructive ideas available in classical Indian original works this book makes a departure in the style of

modern writings on Indian moral philosophy It presents Indian ethics in an objective secular and wherever necessary critical manner as a systematic down to earth philosophical account of moral values virtues rights and obligations It thereby refutes the claim that Indian philosophy has no ethics as well as the counter claim that it transcends ethics It demonstrates that moral living proves that the individual his society and the world are really real and not only taken to be real for behavioral purposes as the Advaitins hold the self is amoral being a non agent moksha is not a moral value and the Karmic theory because of involving belief in rebirth does not guarantee that the doer of an action is also the experiencer of its results contrary to what is commonly held and Indian ethics can sustain itself even if such notions are dropped Rajendra Prasad calls Indian ethics organismic because along with ethical concerns it also covers issues related to professions politics administration sex environment etc Therefore in one format it is theoretical and applied normative and metaethical humanistic and non humanistic etc of course within the limits of the then cognitive enquiry
