Demons in the USA Michael E. Heyes, 2024-09-24 Demons in the USA argues that the discourse on the demonic that developed in the nineteenth century continues to exert a powerful hold over the American spiritual imagination The book begins by tracing the conservative Christian encounter with Spiritualism in the nineteenth century and the mode of thinking about the demonic which developed As Spiritualism's core principles reappeared in the New Age Christian interlocutors once more drew on this anti Spiritualist paradigm to condemn the movement This condemnation is absorbed by and amplified through the film The Exorcist The author considers how the success of the film disseminates the anti Spiritualist paradigm in surprising ways entangling it with entertainment science and politics such that it influences psychology the Satanic Panic of the 1980s and the contemporary QAnon movement This entanglement points to the broader argument of the work While we may wish to think of a film as entertainment and thus having no bearing on reality or demonic material as religious and thus exempt from categories like politics or science the truth is that categories are not so easily separated The author contends that the need to enforce the boundaries of such categories and the failure to do so is a hallmark of the intellectual construct of modernity and that those who believe in demons in the contemporary United States are surprisingly modern in their views The book grounds the importance of media to the twentieth and twenty first century religious experience arguing that the United States of today would not be possible without The Exorcist and its products Demons in the USA will be of particular interest to scholars dealing with religion in America those with a focus on religion and film or those involved with contemporary demonology **Religious Book Review**, 1976 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1977 **Occult/paranormal Bibliography** Thomas C. Clarie, 1984 English language books published or reissued between 1976-1981 Arranged alphabetically by authors Asterisks indicate excellence Author title and subject indexes **Trance and Possession in Bali** Luh Ketut Suryani, Gordon D. Jensen, 1993 The authors then go on to develop criteria for the diagnosis of possession and to present a new theory of possession They also offer multifold comparisons of normal trance possession in the Balinese with the condition called MPD in the West
