The Devil's Dictionary Ambrose Bierce, 2009-01-01 Dive into a masterpiece of American satirical writing The Devil s Dictionary compiled by famed American journalist and fiction writer Ambrose Bierce offers readers a compendium of words and phrases with dictionary style definitions that are blisteringly hilarious and packed with spot on cynicism and dark humor The format makes this book a great text for dipping into any time you need a guick laugh The Age of Irreverence Christopher Rea, 2025-02-25 The Age of Irreverence tells the story of why China's entry into the modern age was not just traumatic but uproarious As the Qing dynasty slumped toward extinction prominent writers compiled jokes into collections they called histories of laughter In the first years of the Republic novelists essayists and illustrators alike used humorous allegories to make veiled critiques of the new government But again and again political and cultural discussion erupted into invective as critics gleefully jeered and derided rivals in public Farceurs drew followings in the popular press promoting a culture of practical joking and buffoonery Eventually these various expressions of hilarity proved so offensive to high brow writers that they launched a concerted campaign to transform the tone of public discourse hoping to displace the old forms of mirth with a new one they called youmo humor Christopher Rea argues that this period from the 1890s to the 1930s transformed how Chinese people thought and talked about what is funny Focusing on five cultural expressions of laughter jokes play mockery farce and humor he reveals the textures of comedy that were a part of everyday life during modern China s first age of irreverence This new history of laughter not only offers an unprecedented and up close look at a neglected facet of Chinese cultural modernity but also reveals its lasting legacy in the Chinese language of the comic today and its implications for our understanding of humor as a part of human culture <u>Artful Immorality - Variants of Cynicism</u> Daniel Scott Mayfield, 2015-09-14 When a term is overused it tends to fall out of fashion Cynicism seems to be an exception Its polytropic versatility apparently prevents any discontinuation of its application Everyone knows that cynicism denotes that which is deemed deleterious at a given time and every time will specify its toxicities the apparent result being the term s non specificity This study describes the cynical stance and statement so as to render the term s use scholarly expedient Close readings of textual sources commonly deemed cynical provide a legible starting point A rhetorical analysis of aphorisms ascribed to the arch Cynic Diogenes facilitates describing the design of cynical statements as well as the characteristic features of the cynical stance These patterns are identifiable in later texts generally labeled cynical above all in Machiavelli s Principe With recourse to the Diogenical archetype cynicism is likewise rendered describable in Graci n s Or culo manual Diderot s Le neveu de Rameau and Nietzsche s Posthumous Fragments This study s description of cynicism provides a phenomenon otherwise considered amorphous with distinct contours renders transparent its workings and tenders a dependable basis for further analyses The Devil Nwaocha Ogechukwu,2012-05-30 Introducing Psychology Daniel L. Schacter, Daniel T. Gilbert, Daniel M. Wegner, 2009-12-25 Reads like a good book Written in the style of their award winning
