The Human Creature:

The Human Creature Gunter Altner,1974 *The Human Creature* Günter Altner, Gerhard Heberer,1974 All God's Creatures Daniel P. Horan,2020-07-07 The predominant stewardship model of creation is the result of an intentional effort to correct approaches that reinforce human sovereignty and the resulting environmental degradation However as All God s Creatures argues the stewardship model actually does not offer a correction but rather reinscribes many of the very same pitfalls After close analysis of the stewardship model this book identifies scriptural theological and philosophical sources to support the adoption of a community of creation paradigm Drawing on postcolonial theory this book proposes the concept of planetarity as a framework for conceiving the relationship between human and nonhuman creation and the Creator in a new way This theoretical framework is grounded by a retrieval of the medieval Franciscan theological and philosophical tradition The result is what can be called a postcolonial Franciscan theology of creation imagined in terms of planetarity providing a constructive and nonanthropocentric response to the need for a new conceptualization of the doctrine of creation **The**

Battle of The Sexes: It's Been Downhill Since The Garden H.R. Boaz,2021-05-08 The Battle of the Sexes explores how the Word of God YHWH both the Old Testament and the New Testament has been twisted to support a narrative that is not in the Scriptures Traditional translations and teachings of the Bible have either presumed or assumed that men are given power and dominion over women But nowhere in the Bible is this statement made not even in Genesis Bereishis 3 16 And your husband will rule over you which is not spoken as an imperative but rather as a prophecy The original Hebrew language of the first five books of Moses also known as the Torah Old Testament tells a very different story of the primal couple A story that is contrary to what is often taught in all religions that use the Word of YHWH as their foundation namely Judaism Christianity and Islam With an abbreviated overview of human history as told from YHWH s point of view we discover a connection of how all cultures have come to share similar myths legends and stories with the Torah And how these ancient archetypes of good and evil have been misused to support a psychological and socio political advantage of men over women Likewise a brief foray into the unique Hebrew language the ancient language in which YHWH created our world and dictated the Torah to Moses provides proof that the Word of God is indeed communication from another dimension Like a massive encrypted message the Torah includes multiple levels of God given fences that protect the Word of God from man s distorted perspective The Hebrew language itself provides the most significant fence Like no other language each Hebrew word defines itself by the letters that make up the word This is only one feature of the holy text that assures that the instructions of YHWH remain intact regardless of man s interpretations The Battle of the Sexes is an examination from a fresh viewpoint into the issues that arise between the genders which stem from the original disobedience of God s one instruction by the primal couple in the Garden of Eden Gan Eden We see a more complete perspective of who did what in the initial defiance and how we continue to struggle in the female male relationship with those very same issues first raised in Gan Eden

Moreover with clarity the Hebrew language reveals a much greater significance of the female to the human experience than is typically taught in any religion Exposed in her Hebrew name which is not usually translated properly is her irrefutable role in God's plan of salvation for the human race God did not make women subservient to men and YHWH did not give men or women dominion over anything but the animals and the earth to utilize as God intends Humanity is to work together not to manipulate or fight to assume power over one another Nowhere is this idea more consequential than in the marriage relationship Being the preeminent human relationship YHWH presents marriage as the foundation for all other human relationships from Bereishis the beginning creation of our world and the human creature Undergirding the arrogant impudent presumption that men are to rule over women is the equally destructive fallacy that God is masculine The Battle of the Sexes explores how from the initial verses and chapters of the first book of Torah the book of Genesis we begin to understand how as the Jewish Sages say with the change of one letter the world is destroyed With the misinterpretation and misunderstanding of one Hebrew word adam our modern grasp of the essence of YHWH and the female male relationship as described in Torah has been distorted and all but destroyed The Battle of the Sexes is sure to not only answer but raise many questions regarding the female male relationship as well as humanities relationship with God

Ministers of the Law Jean Porter, 2010-10-21 In Ministers of the Law Jean Porter articulates a theory of legal authority derived from the natural law tradition As she points out the legal authority of most traditions rests on their own internal structures independent of extralegal considerations legal houses built on sand as it were Natural law tradition on the other hand offers a basis for legal authority that goes beyond mere arbitrary commands or social conventions offering some extralegal authority without compromising the independence and integrity of the law Yet Porter does more in this volume than simply discuss historical and theoretical realms of natural law She carries the theory into application to contemporary legal issues bringing objective normative structures to contemporary Western societies suspicious of such concepts

Biotechnology, Human Nature, and Christian Ethics Gerald McKenny, 2018-01-19 In public debates over biotechnology theologians philosophers and political theorists have proposed that biotechnology could have significant implications for human nature They argue that ethical evaluations of biotechnologies that might affect human nature must take these implications into account In this book Gerald McKenny examines these important yet controversial arguments which have in turn been criticized by many moral philosophers and professional bioethicists He argues that Christian ethics is in principle committed to some version of the claim that human nature has normative status in relation to biotechnology Showing how both criticisms and defences of this claim have often been facile he identifies develops and critically evaluates three versions of the claim and contributes a fourth distinctively Christian version to the debate Focusing on Christian ethics in conversation with secular ethics McKenny's book is the first thorough analysis of a controversial contemporary issue

On Being Human Ray S. Anderson, 2010-10-01 What does it mean to be human How does a right understanding of personhood affect decisions on

critical life situations What implications does a biblical perspective on personhood have for the pastoral ministry of healing and hope In answering these questions Ray S Anderson focused on the person as determined by and sustained by the creative power of God He explored the the implications of a biblical understanding of personhood for such critical issues as human sexuality family relationships abortion and death He broke new ground in relating pastoral care and counseling to contemporary issues which challenge Christians and their understanding of the meaning of human life *God and Human Suffering* Douglas John Hall, 1986 Professor Hall has written a major work on an agonizing subject at once brilliant comprehensive and thought provoking In contrast to many writers who gloss over one or the other Dr Hall is true both to the reality of suffering and to the affirmation that God creates sustains and redeems Creative is his view that certain aspects of what we call suffering loneliness experience of limits temptation anxiety are necessary parts of God's good creation These he distinguishes from suffering after the fall the tragic dimension of life Unique is his structure creation suffering as becoming the fall suffering as a burden redemption conquest from within Professor Hall succeeds in moving the reader beyond the customary way of stating the problem How can undeserved suffering coexist with a just and almighty God He also evaluates five popular leading thinkers on suffering Harold Kushner C S Lewis Diogenes Allen George Buttrick and Leslie Weatherhead *The Human Odyssey: A Hidden History* Krsanna Duran, 2012 Departure from the Garden represents the maiden flight of humanity from its earliest beginning with ancestors from the stars The ancestor races evolved from the same universal code from which the oldest human species grew many of whom have now left human evolution behind them to climb to even greater states within the universal code The most ancient emblem on Earth observed in modern UFO contact guides the search for Native America's ancestors those who returned to Mexico in 1991 in the most extensive UFO activity in modern history Traces of Native America's ancestors the ancient astronauts have often been dismissed as too impossibly ancient to believe And it is the factor of what can be perceived as reality or truth that is followed in this search for humanity through the manifestation of mind and the shamanic perspective in North America's oldest pyramids Recent scientific discovery of super continents and new excavations at Gobekli Tepe in Turkey are examined in light of traditional lore from the remote corners of the Earth The search for The People Of Life those who opened the tree of life to repopulate Native America leads through Earth's oldest cultures Egypt Greece India Tibet and Mu the motherland **Speaking of God in Thomas Aquinas and Meister Eckhart** Assoc Prof Anastasia Wendlinder, 2014-07-28 Medieval masters Thomas Aquinas and Meister Eckhart considered problems inherent to speaking of God exploring how religious language might compromise God's transcendence or God's immanence ultimately hindering believers in their journey of faith seeking understanding Going beyond ordinary readings of Aquinas and building a foundation for further insights into the works of both theologians this book draws out the implications of the thought of Eckhart and Aquinas for contemporary issues including ecumenical and inter religious dialogue liturgy and prayer and religious inclusivity Reading Aquinas and Eckhart in light of each other

reveals the profound depth and orthodoxy of both of these scholars and provides a novel approach to many theological and practical religious issues
