*Historic Homes of Minnesota* Roger G. Kennedy, 2006 *Great Houses of Minnesota* is the engaging story of the evolution of architectural styles in Minnesota from 1830 to 1914 from the influence of the early French traders along the Mississippi and St Croix to the emergence of the school of Frank Lloyd Wright Through photographs and colorfully informative text internationally known historian Roger Kennedy helps readers understand the unique styles of Minnesota's first homes including the Mower House in Arcola the first large house on the St Croix Alexander Ramsey's Mansion House in St Paul influenced by Pennsylvania Dutch virtues the whimsical Charles C Clement house in Fergus Falls clearly Norse in spirit and the Purcell House in Minneapolis a fine example of the Prairie School design On a broad plane these architectural eras reflected social customs politics commerce religion and literature On a personal level they often revealed the national origin and character of the families that made the house a home In short this is in large measure a history of the people Kennedy has considered their heritage and traditions as carefully as he has examined the architecture they created and he offers a fresh wholistic approach to the study of our state's great houses

Nuns Across the Orange: A History of the Pioneering Anglican Community of St Michael and All Angels, Bloemfontein

Michael Sparrow,2021-04-21 When Sister Emma and the five women who accompanied her from England crossed the Orange River early in 1874 they exchanged the comfortable mainstream of Anglican Church life for the rigours of pioneering new works in an undeveloped country Living conditions were primitive travel was hard and money was always in short supply The newly formed Community of St Michael and All Angels opened the first girls schools north of the Orange and the first hospital in the Free State At Kimberley Sister Henrietta achieved a world first through her successful campaign for the State Registration of nurses Four Sisters were besieged in Kimberley during the Anglo Boer War and in Bloemfontein their Mother House became a military hospital By faith and determination the Community recovered St Michael s School was raised to new standards of excellence while the Sisters expanded their mission to include Lesotho and the eastern Free State Decades of work with Bloemfontein s sick and deprived led to Sister Enid becoming known as Ma Mohau Mother of Mercy and to national acclaim in the 1970s as South Africa s Mother Teresa This book studies the development of the Community s religious life and charts the progress of their work among all races from their foundation until the death of the last Sister in 2016 Across the Orange their relative isolation from the strong centres of Anglicanism eventually contributed to their demise but not before they had established an enduring legacy The work they began in Lesotho is continued by the Community of the Holy Name while St Michael s School in Bloemfontein is recognised as one of the finest girls schools in South Africa

Archival Communities Derek Kane O'Leary,2025-06-02 The story behind the creation of the first archives in the new United States Archives the foundational resource for historical research do not emerge from a vacuum The records documents and data that make up the historian s quarry are never neutral but are themselves the product of historical forces and individual choices What materials are included in the archive and why Whose voices are preserved for posterity and whose are silenced In recent years scholars have increasingly made archives themselves the subject of investigation With Archival Communities Derek Kane O Leary takes up this crucial task for the era of the early United States arguing that key components of America s archives emerged from within an Atlantic world of circulating scholars evidence practices and ideas As he shows US archives and the historical narratives spawned by the documents preserved within them drew their initial materials and meaning from this international context And while demonstrating the disproportionate imprint of powerful men O Leary s Atlantic frame reveals a far broader community of people who engaged in early archival efforts on the national state and local levels including women who influenced the act of collection and public perceptions of the young nation s historical record **Teacher's Guide for World History Societies of the Past** Linda McDowell, Marilyn MacKay,2005
