Miles,2016-09-27 A revealing history of the Beatles experimental record label as told by the label's manager In August 1968 the Beatles launched their greatest business enterprise Apple Records to international fanfare The less well known story is the introduction of their Zapple label about nine months later If Apple represented artists with new commercial opportunities Zapple offered more cutting edge freedom its mission was to distribute experimental music and spoken word recordings from the leading avant garde figures of the time The brainchild of Paul McCartney the label captured the counterculture spirit of the 1960s by collaborating with Yoko Ono alongside John Lennon Allen Ginsberg Richard Brautigan Charles Bukowski Lawrence Ferlinghetti and Charles Olson The Zapple Diaries is the first full length look at the enterprise as well as a true insider account from Barry Miles the label's manager who went on to become a leading authority and chronicler of 60s culture He provides insight into the colorful lives and working methods of the artists and discloses the fascinating story of the experimental venture ultimately offering up a revealing and engaging account of this little known chapter of Beatles history

The Beatles Allen J. Wiener,1994 **Field Recordings from the Inside** Joe Bonomo,2017-02-14 Using as its epigraph and unifying principle Luc Sante's notion that Every human being is an archeological site Field Recordings from the Inside provides a deep and personal examination at the impact of music on our lives Bonomo effortlessly moves between the personal and the critical investigating the ways in which music defines our personalities tells histories and offers mysterious often unbidden access into the human condition The book explores the vagaries and richness of music and music making from rock and roll punk and R B to Frank Sinatra Nashville country and Delta blues as well as the work of a diverse group of artists and figures Charles Lamb music writer Lester Bangs painter and television personality Bob Ross child country musician Troy Hess and songwriter Greg Cartwright Mining the often complex natures and shapes of the creative process Field Recordings from the Inside is a singular work that blends music appreciation criticism and pop culture from one of the most critically acclaimed music writers of our time **Phil Spector: Wall Of Pain** Dave Thompson,2010-03-04 In 2009 Phil Spector the legendary record producer was sentenced to life imprisonment for the murder of B movie actress Lana Clarkson It was an ignominious climax to a life of staggering highs and scarcely believable lows Wall of Pain Dave Thompson's biography of Phil Spector has now been updated to include important details of the seemingly interminable trial The architect of the Wall Of Sound Spector's already iconic status in the music world was enhanced by his work with The Beatles Writer and producer of countless hits his innovative genius in the studio revitalised music production in the 1960s and

changed the way we listen to music forever But there was always a dark side to Phil Spector His success became overshadowed by his reputation for eccentricity and excess his fractious personality and fascination with handguns eventually proving a lethal combination Featuring interviews from those closest to him including former wife Ronnie Spector Wall of Pain concludes the painful tale of pop s tortured genius
