Vying for Truth - Theology and the Natural Sciences
Hans Schwarz,2014-06-18 The emancipation of the natural sciences from religion was a gradual affair during the last four centuries Initially many of the leading scientists were churchmen indicating a symbiosis between faith and reason Due to the increasing specialization in the sciences this close connection came to an end often leading to antagonism and mutual suspicion This book traces this historical development with its twists and turns in both Europe and North America It depicts the major players in this story and outlines their specific contributions The main focus is on the 19th and 20th centuries with figures such as Darwin and Hodge but also Beecher and Abbott in the 19th century In the 20th century the narrative starts with Karl Barth and moves all the way to Hawking and Tipler Special attention is given to representatives from North America Great Britain and Germany In conclusion important issues are presented in the present day dialogue between theology and the natural sciences The issue of design and fine tuning is picked up and advances in brain research Finally technological issues are assessed and the status of medicine as a helpmate for life is discussed An informative and thought provoking book

God in Proof Nathan Schneider,2013-06-10 In this tour of the history of arguments for and against the existence of God Nathan Schneider embarks on a remarkable intellectual historical and theological journey through the centuries of believers and unbelievers from ancient Greeks to medieval Arabs to today s most eminent philosophers and the New Atheists Framed by an account of Schneider s own unique journey God in Proof illuminates the great minds who wrestled with one of history s biggest questions together with their arguments bringing them to life in their time and our own Schneider s sure handed portrayal of the characters and ideas involved in the search for proof challenges how we normally think about doubt and faith while showing that in their quest for certainty and the proofs to declare it thinkers on either side of the God divide are often closer to one another than they would like to think

Methods in Religion, Spirituality & Aging
James W. Ellor,2013-10-18 Since the 1971 White House Conference on Aging in the United States the need to move from

religiosity into new areas such as Spiritual Assessment and Spirituality has emerged This movement has picked up momentum among scholars particularly in terms of research in the area of Spirituality While spirituality as a term is employed in many new studies this term continues to defy the quest for a single definition and method This book is divided into three sections In the first the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches The second section offers insights from the major professions of sociology psychology public health nursing and social work The final section offers insight and assistance to researchers and authors on specific religious traditions This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly investigation Spirituality in Business J. Biberman,L. Tischler,2008-05-12 An innovative look at some of the latest research on the intersection of spirituality and business **Compassionate Love and Ebony Grace** Kortright Davis,2012-03-22 Why is the Golden Rule so central in almost every culture and religion What is it that drives human beings to do good to others Are altruism compassion and forgiveness natural forms of human behavior or do they have to be learned and practiced in the neural context of our primal instincts for survival and self defense These are some of the questions that lie behind the study of Compassionate Love amongst people of color Davis explores the patterns and contours of other love which he defines as a selfless regard for the well being of others He also examines the basis for distinctive modes of compassionate behavior enriched by ebony grace a theological attribution for people of African descent This text focuses especially on the historical cultural and religious heritage that inspires and empowers such attitudes in spite of constant encounters with systemic negation social alienation and unrelenting racism How is it that Black families in the home school and church still support sustain and succeed in the practice of unyielding love in compassion That is the magic and mystery within contemporary Black cultural norms and moral values This text is a powerful attempt to contribute to the debate on Christian altruism **The Almanac of American Philanthropy** Karl Zinsmeister,2017-10-17 Philanthropy in America is a giant undertaking every year more than 390 billion is voluntarily given by individuals foundations and businesses to a riot of good causes Donation rates are two to ten times higher in the U S than in comparable nations and privately funded efforts to solve social problems enrich culture and strengthen society are among the most significant undertakings in the United States The Almanac of American Philanthropy was created to serve as the definitive reference on America s distinctive philanthropy Upon its publication it immediately became the authoritative yet highly readable 1 342 page bible of private giving chronicling the greatest donors in history the most influential achievements the essential statistics and summaries of vital ideas about charitable action Now there is this new Compact Edition of the Almanac It offers highlights of the crucial information and fascinating arguments contained in the full length Almanac in a condensed format All updated to 2017 Is There Purpose in Biology? Denis Alexander,2018-06-22 Atheists assert that the natural world has no meaning or purpose Dr Denis Alexander Emeritus

Director of The Faraday Institute for Science and Religion at St Edmunds College Cambridge draws a different conclusion Not only do recent evolutionary biological data appear inconsistent with the claim that the world is purposeless but the Christian doctrine of creation has provided and continues to provide both context and stimulus for the study of the natural world Christians started biology However is a belief in an omnipotent benign Creator consistent with a world of pain and suffering From a lifetime s study in the biological sciences Denis Alexander believes that whilst the cost of existence is extremely high it can nonetheless be squared with the idea of a God of love whose ultimate purposes for humankind render that cost more comprehensible Inherit the Holy Mountain Mark Stoll,2015-04-30 Inherit the Holy Mountain puts religion at the center of the history of American environmentalism rather than at its margins demonstrating how religion provided environmentalists with content direction and tone for the environmental causes they espoused Is Ultimate Reality Unlimited Love? Stephen G. Post,2014-05-12 This book draws from previously unpublished letters and interviews with physicists theologians and Sir John s close associates and family to present Sir John s ideas on pure unlimited love Post who was in dialogue with Sir John for fifteen years on this topic and who had founded the Institute for Research on Unlimited Love www.unlimitedloveinstitute.com addresses how John Templeton arrived at his philosophy as a youth growing up in Tennessee Post also shares how classical Presbyterian ideas came to synergize in his mind with the more Eastern influences of American transcendentalism and the Unity School of Christianity and ponders if Sir John truly believed that science and spirituality might fully converge on the same view of Ultimate Reality with their very different ways of knowing Is Ultimate Reality Unlimited Love presents Sir John s hope for spiritual progress with the eventual convergence of ultimate reality and unlimited love *God and Man on Wall Street, The Conscience of Capitalism* Mark Hendrickson,2012-08-20 This remarkable book will change the way you look at fixing Wall Street and redeeming capitalism Scott Umstead President Fusion Investment Group Fed up with Wall Street You re not alone It doesn t have to be this way Craig Columbus and Mark Hendrickson turn the subject of financial reform upside down The authors pull no punches taking both Wall Street and central bankers to task They also show you a different side of the financial system reminding us of the good Wall Street is capable of doing This hopeful book connects the head and the heart of free markets uncovering original solutions that cannot be reached by regulations alone Written for the financial professional and layman alike GOD AND MAN ON WALL STREET will both challenge and inspire you <https://plus.google.com/u/0/117681616430711223508/videos/117681616430711223508> videos FBI & an Ordinary Guy - The Private Price of Public Service Mark Johnston,2015-12-01 FBI land pirates I personally had many successes but hard won victories eventually sapped my energy and spirit Along the way I had to come to grips with the murders of a squad partner two New York City cops and several government witnesses The public knows little about the stress and high emotional costs the guardians of their safety pay in the constant battle against crime and terror The favorite antidotes of many law enforcement peers crawling into a bottle or the wrong bed proved to provide little long

lasting comfort FBI An Ordinary Guy reveals the inner working of the FBI the humanness of its family members and the real life story behind some of its major cases But this factual account is told through a genuine framework of the bitter sweet contrast of the gritty horrors of law enforcement versus affectionate father to daughter communication via never mailed letters to my children The Routledge Handbook of Religious Literacy, Pluralism, and Global Engagement Chris Seiple, Dennis R. Hoover, 2021-12-27 This pioneering handbook proposes an approach to pluralism that is relational principled and non relativistic going beyond banal calls for mere tolerance The growing religious diversity within societies around the world presents both challenges and opportunities A degree of competition between deeply held religious worldview perspectives is natural and inevitable yet at the same time the world urgently needs engagement and partnership across lines of difference None of the world s most pressing problems can be solved by any single actor and as such it is not a question of if but when you partner with an individual or institution that does not think act or believe as you do The authors argue that religious literacy defined as a dynamic combination of competencies and skills continuously refined through real world cross cultural engagement is vital to building societies and states of neighborly solidarity and civic fairness Through examination reflection and case studies across multiple faith traditions and professional fields this handbook equips scholars and students as well as policymakers and practitioners to assess analyze and act collaboratively in a world of deep diversity The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
