enfrenta la tarea de explicar esa expansión analizando este fenómeno y su relación con la crisis mayor del Estado nacional y local sus vínculos con la extensa y profunda crisis económica y su impacto en los imaginarios urbanos Además esta investigación busca incorporar la perspectiva de los propios ambulantes por medio de la información periodística y entrevistas Una propuesta importante de este libro se resume en discutir si la expansión del ambulante una de las caras más visibles de la informalidad se debió a un exceso de regulación estatal la cual se habría producido paradójicamente en un contexto de extrema debilidad del Estado peruano agobiado por la crisis y la violencia política
