Community of Suffering and Struggle Elizabeth Faue, 2016-08-01 Elizabeth Faue traces the transformation of the American labor movement from community forms of solidarity to bureaucratic unionism Arguing that gender is central to understanding this shift Faue explores women's involvement in labor and political organizations and the role of gender and family ideology in shaping unionism in the twentieth century Her study of Minneapolis the site of the important 1934 trucking strike has broad implications for labor history as a whole Initially the labor movement rooted itself in community organizations and networks in which women were active both as members and as leaders This community orientation reclaimed family relief and education as political ground for a labor movement seeking to re-establish itself after the losses of the 1920s But as the depression deepened women perceived as threats to men seeking work lost their places in union leadership in working class culture and on labor's political agenda When unions exchanged a community orientation for a focus on the workplace and on national politics they lost the power to recruit and involve women members even after World War II prompted large numbers of women to enter the work force In a pathbreaking analysis Faue explores how the iconography and language of labor reflected ideas about gender The depiction of work and the worker as male the reliance on sport military and familial metaphors for solidarity and the ideas of women's place these all reinforced the representation of labor solidarity as masculine during a time of increasing female participation in the labor force Although the language of labor as male was not new in the depression the crisis of wage earning as a crisis of masculinity helped to give psychological power to male dominance in the labor culture By the end of the war women no longer occupied a central position in organized labor but a peripheral one

A Fire in Their Hearts Tony Michels, 2009-04-15 In a compelling history of the Jewish community in New York during four decades of mass immigration Tony Michels examines the defining role of the Yiddish socialist movement in the American Jewish experience The movement founded in the 1880s was dominated by Russian speaking intellectuals

including Abraham Cahan Mikhail Zametkin and Chaim Zhitlovsky Socialist leaders quickly found Yiddish essential to convey their message to the Jewish immigrant community and they developed a remarkable public culture through lectures and social events workers education societies Yiddish schools and a press that found its strongest voice in the mass circulation newspaper *Forverts* Arguing against the view that socialism and Yiddish culture arrived as Old World holdovers Michels demonstrates that they arose in New York in response to local conditions and thrived not despite Americanization but because of it And the influence of the movement swirled far beyond the Lower East Side to a transnational culture in which individuals ideas and institutions crossed the Atlantic New York Jews in the beginning exported Yiddish socialism to Russia not the other way around The Yiddish socialist movement shaped Jewish communities across the United States well into the twentieth century and left an important political legacy that extends to the rise of neoconservatism A story of hopeful successes and bitter disappointments *A Fire in Their Hearts* brings to vivid life this formative period for American Jews and the American left

**Labor's Canvas**

Laura Hapke,2009-03-26 At an unprecedented and probably unique American moment laboring people were indivisible from the art of the 1930s By far the most recognizable New Deal art employed an endless frieze of white or racially ambiguous machine proletarians from solo drillers to identical assembly line toilers Even today such paintings particularly those with work themes are almost instantly recognizable Happening on a Depression era picture one can see from a distance the often simplified figures the intense or bold colors the frozen motion or flattened perspective and the uniformity of laboring bodies within an often naive realism or naturalism of treatment In a kind of Social Realist dance the FAP s imagined drillers haulers construction workers welders miners and steel mill workers make up a rugged industrial army In an unusual synthesis of art and working class history Labor s Canvas argues that however simplified this golden age of American worker art appears from a post modern perspective The New Deal s Federal Art Project FAP under the aegis of the Works Progress Administration WPA revealed important tensions Artists saw themselves as cultural workers who had much in common with the blue collar workforce Yet they struggled to reconcile social protest and aesthetic distance Their canvases prints and drawings registered attitudes toward laborers as bodies without minds often shared by the wider culture In choosing a visual language to reconnect workers to the larger society they tried to tell the worker from the work with varying success Drawing on a wealth of social documents and visual narratives Labor s Canvas engages in a bold revisionism Hapke examines how FAP iconography both chronicles and reframes working class history She demonstrates how the New Deal s artistically rendered workforce history reveals the cultural contradictions about laboring people evident even in the depths of the Great Depression not the least in the imaginations of the FAP artists themselves [A New Labor Movement for the New Century](#)

Anderson,2014-02-04 This book analyzes the dramatic social impacts of global economic restructuring in the US textile industry and the consequences for Southern textile mill communities With the expansion of markets in the global economy government policies such as NAFTA and GATT are greatly affecting the domestic production of textiles Increased global competitiveness has led to technological modernization plant shutdowns and downward pressure on wages Many family owned companies are merging into conglomerates some of which are international Concurrently the structure of power and domination in Southern textile communities is changing Paternalistic control typically portrayed as a form of traditional authority and benevolent protection of workers is no longer dominant With the decreased need for skilled labor textile company owners are not obligated to provide mill villages with housing electricity and water Formerly protected communities are now players on an international scale with workers competing for jobs on a global level New forms of class exploitation racism and sexism provide a contested terrain for mill employees As the industry restructures workers and their households are faced with new challenges To understand these social impacts I examine globalization restructuring and spatialization as processes

**Rethinking the American Labor Movement** Elizabeth Faue, 2017-04-28 Rethinking the American Labor Movement tells the story of the various groups and incidents that make up what we think of as the labor movement While the efforts of the American labor force towards greater wealth parity have been rife with contention the struggle has embraced a broad vision of a more equitable distribution of the nation's wealth and a desire for workers to have greater control over their own lives In this succinct and authoritative volume Elizabeth Faue reconsiders the varied strains of the labor movement situating them within the context of rapidly transforming twentieth century American society to show how these efforts have formed a political and social movement that has shaped the trajectory of American life Rethinking the American Labor Movement is indispensable reading for scholars and students interested in American labor in the twentieth century and in the interplay between labor wealth and power *Frank and Lillian Gilbreth* Michael C.
