## Six Guns:

**Sixguns and Society** Will Wright, 2023-04-28 From the Preface The purpose of this book is to explain the Western's popularity While the Western itself may seem simple it isn't quite an explanation of its popularity cannot be for the Western like any myth stands between individual human consciousness and society If a myth is popular it must somehow appeal to or reinforce the individuals who view it by communicating a symbolic meaning to them This meaning must in turn reflect the particular social institutions and attitudes that have created and continue to nourish the myth Thus a myth must tell its viewers about themselves and their society This study which takes up the question of the Western as an American myth will lead us into abstract structural theory as well as economic and political history Mostly however it will take us into the movies the spectacular and not so spectacular sagebrush of the cinema Unlike most works of social science the data on which my analysis is based is available to all of my readers either at the local theater or more likely on the late late show I hope you will take the opportunity whenever it is offered to check my findings and test my interpretations the effort is small and the rewards are many And if your wife husband mother or child asks you why you are wasting your time staring at Westerns on TV in the middle of the night tell them firmly as I often did that you are doing research in social science This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977 From the Preface The purpose of this book is to explain the Western's popularity While the Western itself may seem simple it isn't quite an explanation of its popularity cannot be for the Western like any myth stands between individual human consciousness

**Wars: A Concise Dictionary, 1792-1815** Kevin F. Kiley, 2021-03-15 A comprehensive military history reference book exploring all aspects of the artillery used during the Napoleonic Wars Napoleon began his military career as an artillery cadet and artillery played a fundamental part in all his great battles Until the Napoleonic Wars artillery had been seen merely as a supporting arm to the infantry but Napoleon changed everything He massed his guns in huge batteries to blast holes in his opponent's line He even used the artillery to charge the enemy the gunners galloping up to the enemy to open fire at pointblank range Napoleon's opponents did not all follow suit choosing other tactical deployments As a result the Napoleonic era more than any that preceded or followed it was one of fascinating artillery maneuvers and critical actions that changed the course of many of the key battles As the Prussian Field Marshal Blücher once observed Against Napoleon you needed guns and lots of them The Napoleonic Wars was also a time of innovation with the introduction of shrapnel shells and military rockets This book will examine the artillery arms of all sides from muzzle to butt plate As well as the significant artillerymen of the period the scientists and innovators military and civilian individuals such as Robins Belidor Gribeauval and his colleagues Maritz Liechtenstein and his collaborators as well as the du Teil brothers will all be examined as will the important battles and sieges significant memoirs and documents and artillery terms that soon became part of the military lexicon Written by the renowned historian Kevin F Kiley this will be the definitive book on the subject and will cover all aspects of artillery in the Napoleonic Wars This is a wonderfully complete induction into the details of Napoleonic Artillery As well as defining some of the archaic terms associated with the art of gunnery note point blank is not what we mostly believe it to be it provides background to the careers of the key characters in the science The book contains many excellent technical drawings to explain sketches and images to inform and data tables in the appendix to which to refer Overall it is an indispensable aid to understanding the artillery of the period Michael McCarthy battlefield guide      **Hearings Before the**
