altruism, grief rituals and other oft neglected topics broaden the scope of this fascinating study. This tract is imbued with historical perspectives that reveal the continuity in the evolving science and research of this discipline over the past century. The author places classic schemas and constructs as well as current principles in the context of their socio-political catalysts. He further relates this study of the person to life span developmental issues and to cultural gender specific trait based genetic, epigenetic and evolutionary research findings. Personality psychology has recently reconciled itself to more modest paradigms for describing, explaining and predicting human behaviour than it generated in the 19th and 20th centuries. This book documents that transformation, providing valuable information for health service professionals as well as to teachers, researchers and scientists.

The Person-Centred Counselling and Psychotherapy Handbook: Origins, Developments and Current Applications Colin Lago, Divine Charura, 2016-04-16

From the origins of Carl Rogers' person-centred approach to the cutting edge developments of therapy today, *The Person Centred Counselling and Psychotherapy Handbook* charts the journey of an ambitious vision to its successful reality. In this book, Lago and Charura bring together history, theory, research and practice to deliver a complete and unique perspective on the person-centred approach. Key topics include: The groundbreaking journey of PCA's early decades spearheaded by Carl Rogers; Developments and extensions of the original theory and practice; The influence of PCA in developing new therapies and practice; The frontier of contemporary PCA and therapists' work with client groups of difference and diversity. With its broad view that explores the origins, variations and applications of PCA, *The Person Centred Counselling and Psychotherapy Handbook* gives a comprehensive overview of the knowledge required and the issues faced by practitioners, making it an important resource for the seasoned and training practitioner alike. This particularly welcome contribution is distinctive in fostering a contemporary contextualised and transcultural person-centred practice, edited as it is.
