Reeves,Annette Yoshiko Reed,2018-02-22 Across the ancient and medieval literature of Judaism Christianity and Islam one finds references to the antediluvian sage Enoch Both the Book of the Watchers and the Astronomical Book were long known from their Ethiopic versions which are

preserved as part of Mashafa Henok Nabi Book of Enoch the Prophet an Enochic compendium known in the West as 1 Enoch Since the discovery of Aramaic fragments among the Dead Sea Scrolls these books have attracted renewed attention as important sources for ancient Judaism Among the results has been the recognition of the surprisingly long and varied tradition surrounding Enoch Within 1 Enoch alone for instance we find evidence for intensive literary creativity This volume provides a comprehensive set of core references for easy and accessible consultation It shows that the rich afterlives of Enochic texts and traditions can be studied more thoroughly by scholars of Second Temple Judaism and early Christianity as well as by scholars of late antique and medieval religions Specialists in the Second Temple period the era in which Enochic literature first appears will be able to trace or discount the survival of Enochic motifs and mythemes within Jewish literary circles from late antiquity into the Middle Ages thereby shedding light on the trajectories of Jewish apocalypticism and its possible intersections with Jewish mysticism Students of Near Eastern esotericism and Hellenistic philosophies will have further data for exploring the origins of gnosticism and its possible impact upon sectarian currents in Judaism Christianity and Islam Those interested in the intellectual symbiosis among Jews Christians and Muslims in the Middle Ages and especially in the transmission of the ancient sciences associated with Hermeticism e g astrology theurgy divinatory techniques alchemy angelology demonology will be able to view a chain of tradition reconstructed in its entirety for the first time in textual form In the process we hope to provide historians of religion with a new tool for assessing the intertextual relationships between different religious corpora and for understanding the intertwined histories of the major religious communities of the ancient and medieval Near East

**Exploring Mormon Thought** Blake T. Ostler, 2008-04-01 In his long anticipated third volume *Of God and Gods* Blake Ostler steps through the common complaint that Mormons aren't Christians because they believe in three separate individuals in the Godhead as well as the deification of human beings He demonstrates the clear biblical understanding both in the precursors of the Old Testament and the New that Jesus and God the Father were not one in some incomprehensible substance while separate in person but were actually distinct individuals What made them one was their indwelling love It is that loving unity into which they invite human beings In language and thought accessible to the lay reader but simultaneously rigorous and scholarly Ostler analyzes and responds to the arguments of contemporary international theologians reconstructs and interprets Joseph Smith's important King Follett Discourse and Sermon in the Grove just before the Mormon prophet's death and argues persuasively for the Mormon doctrine of robust deification
